PRODUCT AND PRICING BULLETIN

NEW HOLLAND BRAND PRODUCTS, U.S. NO. 14-19A

NEW HOLLAND AG DEALERS WITH MRT AGREEMENT

SUBJECT: **TS6 SERIES UPDATE: Effective 04/28/2014**

The TS6 series tractors are now listed as "Current Inventory Only" with the current pricing effective 09/01/2013. The replacement TS6 series tractor Price and Data pages will be the subject of a future announcement, with an estimated announcement date of September 1, 2014. The TS6 Tier 4B offering will incorporate cab and platform enhancements as well as new 4-cylinder engines with electronic common rail fuel injection and ECOBlue™ SCR technology on all models.

In order to satisfy customer needs please review current TS6 dealer inventory and orders. In cases where current inventory or orders are not available we suggest that the T4 and T6 series tractor be considered. We recommend the following:

Direct Substitution		
TS6 Model	**Substitution Model**	**Configurations**
TS6.110	T4.105	Cab, ROPS, 2WD or 4WD
TS6.120	T4.115	Cab, ROPS, 2WD or 4WD
Upsell Substitution		
TS6 Model	**Substitution Model**	**Configurations**
TS6.110	T5.105 Electro Command™	Cab 4WD
TS6.120	T5.115 Electro Command™	Cab 4WD
TS6.125	T6.150 or T6.165	Cab 4WD
TS6.140	T6.160 or T6.175	Cab 4WD

When considering proposed substitutions, the overall vehicle size, horsepower and performance required for customer applications are key factors in determining a proposed substitution.

CNH Industrial America LLC
120 Brubaker Avenue, P.O. Box 1895
New Holland, PA 17557-0903
Telephone: (717) 355-1121
www.newholland.com/na

The T4.105 and T4.115 tractors are well suited as direct substitutions to meet the customer requirements and expectations for all configurations of the 4 cylinder TS6.110 and TS6.120. T4 tractors are approximately the same size and weight, have similar horsepower ratings and a similar transaction price (comparably equipped T4 tractors with a Basic HD packet). Additionally, T4 tractors offer more features including a more ergonomic cab and ROPS platform, radial tires, a factory installed loader and the option to add an instructor seat or high visibility panel to the VisionView™ cab.

When considering a upgrade substitution for a cab 4WD version of the TS6.110 or TS6.120, the T5 Electro Command™, although it is higher in price, it has a heavier overall weight, a more advanced 16x16 semi-powershift transmission and a more ergonomic cab.

The TS6.125 and TS6.140 customer demand will need to be met with current dealer inventory or orders, unless they can be upsold into the T6 series. A T6 with the Value Configuration packet is the most basic T6 offering although it has significant product upgrades over the TS6 including a larger cab, fully electronic common rail fuel injected engine, more hydraulic capacity and capabilities and a more advanced semi-powershift transmission.

Please read and review this document and the attached Price and Data pages when selling a TS6 tractor.

Special Color Paint Information

Customer demand may require special color paint. New Holland can supply many of the standard colors that are listed in the Classic RAL System on the exterior of T6 Series Tractors.
Please determine the RAL System color number your customer requests (example Omaha Orange = RAL 2005). Please visit https://www.ral-farben.de/info-ral-classic.html?&L=1 for more information on RAL colors.

Tractors ordered with special color paint require Deluxe Cab with High Roof and opening visibility panel. The special paint is an additional charge over the base color Deluxe Cab with High Roof and opening visibility panel option, see price and data pages for pricing details. Special color paint is not available on Packet configurations.

Enter an order for the tractor configuration you desire with the Deluxe Cab with High Roof and opening visibility panel and then contact Dealer Sales Support (888) 867-8000. Please have the RAL color your customer requires before calling into Dealer Sales Support.

New Holland will only accept retail sales orders for tractors with special colors and we reserve the right to refuse to paint tractors in colors deemed inappropriate (example: competitor paint schemes). Tractors with special color paint schemes may require additional lead times. Once a tractor order is submitted with a special color paint request, the tractor order cannot be changed to another color.

Special Color Paint Information

Customer demand may require special color paint. New Holland can supply many of the standard colors that are listed in the Classic RAL System on the exterior of T6 Series Tractors.
Please determine the RAL System color number your customer requests (example Omaha Orange = RAL 2005). Please visit https://www.ral-farben.de/info-ral-classic.html?&L=1 for more information on RAL colors.

Tractors ordered with special color paint require Deluxe Cab with High Roof and opening visibility panel. The special paint is an additional charge over the base color Deluxe Cab with High Roof and opening visibility panel option, see price and data pages for pricing details. Special color paint is not available on Packet configurations.

Enter an order for the tractor configuration you desire with the Deluxe Cab with High Roof and opening visibility panel and then contact Dealer Sales Support (888) 867-8000. Please have the RAL color your customer requires before calling into Dealer Sales Support.

New Holland will only accept retail sales orders for tractors with special colors and we reserve the right to refuse to paint tractors in colors deemed inappropriate (example: competitor paint schemes). Tractors with special color paint schemes may require additional lead times. Once a tractor order is submitted with a special color paint request, the tractor order cannot be changed to another color.

Special Color Scheme - Cab Tractors

Special Color:	Tractor Hood and Driveline Rear Axle, 3-Point Lift and Remote Valves Front Support and Weights
Wheels:	White
