Appendix 6:

TechCred & Workforce Programs

2026
FISCAL YEAR

Ohio Department of Development

TechCred

TechCred provides the opportunity for Ohioans to learn new skills and helps employers build a stronger workforce with the skills needed in a technology-infused economy. TechCred reimburses Ohio employers who invest in upskilling their current or prospective workforce with tech-focused short-term credentials.

Reported information:

Employers awarded an allocation from the TechCred program are allowed 12 months from the date of award to complete credential programs and submit documentation requesting reimbursement. In Fiscal Year 2026, reimbursement requests were processed for 16,685 credentials.

ORC 122.1711 (A)(1)(a) - The average percent rate change of wages during the previous year, if any, for prospective or incumbent employees who earned a microcredential categorized by **microcredentials** earned in each **region** and **statewide**:

- Average wage increase percentage by microcredential by region: Refer to the "TechCred Attachment FY26" document, tab (A)(1)(a).
- Average wage increase percentage by microcredential statewide: Refer to the "TechCred Attachment FY26" document, tab (A)(1)(a).

ORC 122.1711 (A)(1)(b) - The average per cent rate change of wages during the previous years, if any, for prospective or incumbent **employees** who earned a microcredential categorized by the **region** in which employees reside and statewide:

- Average wage increase percentage for credential completers by region (wages are self-reported):
  - Region 1: 0.68%
  - Region 2: 0.62%
  - Region 3: 0.79%
  - Region 4: 1.15%
  - Region 5: 0.14%
  - Region 6: 0.37%
  - Region 7: 0.49%
- Average wage increase percentage for credential completers statewide: 0.97%

ORC 122.1711 (A)(1)(c) - The average annual wages paid to **positions** for which holding a microcredential or having the occupational skills acquired through obtaining a microcredential is required, categorized by each **region** and **statewide**:

- Average annual wages paid to positions by region: Refer to the "TechCred Attachment FY26" document, tab (A)(1)(c).
- Average annual wages paid to positions statewide: Refer to the "TechCred Attachment FY26" document, tab (A)(1)(c).

ORC 122.1711 (A)(1)(d) - The rate of change during the previous year of **unemployment** categorized by each **region** and **statewide**:

- TechCred does not track unemployment rates.

ORC 122.1711 (A)(1)(e) - A list of the **microcredentials** established by the chancellor of higher education under section 122.178 of the Revised Code categorized by each region and statewide:

- To see a full list of the 3,802 credentials that were approved at the conclusion of Fiscal Year 2026, Refer to the "TechCred Attachment FY26" document, tab (A)(1)(e).

ORC 122.1711 (A)(1)(f) - A demographic analysis of **employees** who earned a microcredential under the TechCred program based on the **race** and **gender** of each employee:

- Out of 5,660 credential completers choosing to respond to this optional question, the race analysis is as follows:
  - African American – 336 completers, or 5.94%

Individual Microcredential Assistance Program (IMAP)

The Individual Microcredential Assistance Program, or IMAP, helps Ohioans who are low income, partially unemployed, or totally unemployed participate in a training program to receive a credential at no cost. IMAP training providers cover all tuition, fees, and additional costs to help the individual learn new skills and earn a credential that can lead to a good job.

Reported information:

Training providers awarded an allocation from the IMAP program are allowed 18 months from the date of the awards to offer credential programs to Ohioans and submit documentation requesting reimbursement. In Fiscal Year 2026, reimbursement requests were processed for 1,840 credentials.

Development distributed a survey to individuals who completed a Microcredential with the assistance of the IMAP program. Among the 115 individuals who responded to the survey upon completion of the credential, the following information was gathered.

- Obtained a job: 24 individuals, or 20.87%, responded yes.
- Obtained a promotion: 13 individuals, or 11.30%, responded yes.
- Obtained a raise: 11 individuals, or 9.57%, responded yes.
- Average wage increase percentage for credential completers: 1.22%
- Average hourly wage for credential completers: $28.89
- Out of 98 credential completers choosing to respond to this optional question, the race analysis is as follows:
  - African American - 23 completers, or 23.47%
  - Asian - 4 completers, or 4.08%
  - Caucasian - 53 completers, or 54.08%
  - Hispanic - 8 completers, or 8.16%
  - Native American – 1 completer, or 1.02%
  - Other - 9 completers, or 9.18%
- Out of 98 credential completers choosing to respond to this optional question, the gender analysis is as follows:
  - Female – 53 completers, or 54.08%
  - Male – 44 completers, or 44.90%
  - Other – 1 completer, or 1.02%
- Credentials earned by region and by county: Refer to the “IMAP Attachment FY’26” document.

Among those who had not yet obtained a job, promotion, or raise, comments that were submitted overwhelmingly indicated that the individuals felt optimistic about the Microcredential positively impacting their future careers. Below are examples of submitted comments:

- Provided me with knowledge and skills with Python coding, data analysis, cybersecurity, and artificial intelligence. This course helped me to improve my grades in school as well as start to position me for an internship at the Cleveland Clinic for Summer 2026.
- There’s no question that the CompTIA Security+ certification is highly valued by U.S. employers. Thanks to Ohio’s IMAP program, I had the incredible opportunity to refresh my cybersecurity knowledge and

sharpen my skills through their structured Security+ training. The program not only reinforced key concepts but also empowered me to apply them more effectively in real-world scenarios. I'm deeply grateful to the Ohio IMAP team for their unwavering support throughout this journey, especially for guiding unemployed professionals and students like me with such dedication. In my experience, this initiative is an invaluable resource, whether you're an experienced professional looking to upskill or someone just starting their cybersecurity career. The training not only builds technical competence but also boosts confidence, making it a fantastic stepping stone for anyone entering this dynamic field.

- This credential enhances my knowledge and by adding that on my resume, I am expecting that potential future employers will value my working experience augmented by this formal training.
- I'm in a better position to seek employment that provides a higher pay scale.
- It helped me get an idea on the career path I'll take after high school with computers.
- Earning this credential as a new HVAC graduate has strengthened my technical knowledge, confidence, and hands-on skills. It has prepared me to work safely and efficiently, improved my problem-solving abilities, and supports my continued growth in the HVAC field.

Among those who were already employed, many comments expressed that earning the Microcredential had strengthened their skills, improved their job performance, or positioned them for future advancement. Below are examples of submitted comments:

- IMAP was incredibly helpful in allowing me to switch into a high demand field with greater long term trajectory. Without this program, I would never have been able to become a data engineer.
- It is possible taking the courses last year may have helped me get a 4% raise for this year.
- It enhanced my professional growth, knowledge of medical terminology and coding, insurance processes and compliance regulations. Also helps me to communicate and collaborate well with healthcare providers and opened doors to career advancement.
- Earning this certification and the entire process has added to my knowledge and helped me upskill which is very beneficial for my current career.
- I will be able to better analyze and present data in my role.
- It rounded out gaps in my knowledge and will help me in my current job.

Industry Sector Partnership Grant

In Fiscal Year 2026, the Ohio Department of Development and the Governor's Office of Workforce Transformation provided funding for 22 grants, totaling $5,065,368.46, through the Industry Sector Partnership grant. This program supports partnerships that help ensure Ohioans can participate in the workforce pipeline while meeting the needs of job creators and the local economy. The selected partnerships are located in various regions across Ohio and focus on multiple in-demand industry sectors, including construction, healthcare, information technology, insurance, manufacturing, skilled trades, and transportation.

Reported information:

The following is a list of Industry Sector Partnership grantees for Fiscal Year 2026:

Partnership Name	Award Amount	Grant Type	Diversity Region	Partnership ID
Advanced Manufacturing Consortium Foundation	$250,000.00	Accelerant	1	PP-1044

For a detailed listing of each industry sector partnership's membership, please refer to the "ISP Membership Rosters FY'26" document for additional details. Memberships are identified by the Partnership ID as indicated in the list above.

Examples of activities of the Industry Sector Partnership grantees in Fiscal Year 2026 include the following:

- Partner with a number of school districts to serve high school students annually in a Recognized Pre-Apprenticeship program registered with ApprenticeOhio.
- Deliver comprehensive services to recruit, train, place, credential, and coach job seekers from a wide variety of backgrounds.
- Create and amplify new narratives and coursework around Advanced Mobility, Artificial Intelligence, and Advanced Manufacturing careers.
- Deliver high-quality, employer-informed work-based learning experiences for students.
- Increase middle and high school students' engagement in manufacturing career exploration activities.
- Launch a Manufacturing Technician Training Academy series to address the region's most critical technical skill gaps using both multi-company and company-based cohort approaches.
- Design and implement a centralized online resource to coordinate and increase visibility of insurance internship and work-based learning opportunities.
- Implement a cohort-based, employer-integrated training model designed to expand net-new talent supply for Ohio's life sciences and biomanufacturing sector.
- Pilot a 12–15-month affinity-based outreach initiative using Findem technology to identify high-skill professionals aligned with focus occupations who demonstrate regional connection indicators.
- Establish structured mentorship teams across healthcare, advanced manufacturing, transportation/logistics, and skilled trades.
- Establish a Credential Priority and Tiering Framework. This framework will evaluate, validate, and prioritize credentials based on demonstrated workplace demand, employer hiring value, advancement potential, and instructional feasibility.
- Host a one-day regional data analytics, storytelling, and artificial intelligence summit to elevate awareness of data-driven competencies.
- Host a regional Healthcare Career Summit providing immersive, employer-led career exploration across six priority healthcare occupations.
- Coordinate short-term, hands-on healthcare career bootcamps designed as on-ramps into education and employer pipelines.
- Recruit and prepare people for careers in manufacturing. Our cornerstone program, ACCESS to Manufacturing, is a three-week, employer-designed training built on the nationally recognized WorkAdvance model.
