

The following table outlines how transfer credits will be applied to the Bachelor of Science in Business Administration degree at The Ohio State University for students who completed an Associate of Arts or Associate of Science degree via the Ohio Guaranteed Business Transfer Pathway. The OGTP designation guarantees the transfer and applicability of credits, but does not guarantee admission to a program. Some bachelor-degree granting business programs may be competitive, and students should check with individual institutions for their program admission requirements.

(*) Indicates that coursework will be evaluated for applicable equivalency upon transfer at the university. If a Transfer Assurance Guide (TAG) course is taken, the approved course equivalency will be awarded.		
<sup>1</sup> “Under review” or “to be submitted” indicates that the course does not currently carry the statewide course equivalency guarantee. However, the institution is working towards this goal and will act in good faith to ensure the appropriate equivalency is given that counts toward the degree.		
<sup>2</sup> Institutions with approved matches for OBU009 may continue to use that equivalency through the expiration of OBU009 at the end of fall 2020 while institutions prepare to submit a course match to the new Business Statistics (OBU013) TAG. If a community college does not offer a business statistics, TMM010 is accepted as a substitute for the intended match to OBU013 indicated above.		

The following additional coursework will be required to complete the Bachelor of Science in Business Administration degree at The Ohio State University after a student has completed their Associate of Arts or Associate of Science Ohio Guaranteed Business Transfer Pathway degree. Some bachelor-degree granting business programs may be competitive and admission into the program is not guaranteed. Students should check with individual institutions for their program admission requirements.
