Together from the start, every one of us.

Visual Supports

July 11, 2024
12:30 PM

Take advantage of naptime to learn how to create and implement visual supports in your early care and education environment.

Join us for a virtual discussion on Visual Supports featuring Boardmaker!

Visual supports enhance independence by enabling all children to engage in daily routines and activities, bridging communication gaps, and clarifying expectations, transitions, needs, and feelings.

During our In the Know Naptime Series, we will discover:
- The "How & Why" of visual supports and schedules
- DIY! Create and utilize visual supports and schedules
- Time-savers: Pre-made visual supports and templates
- Getting creative with Boardmaker and custom visual supports

Featuring: Boardmaker

Bring your questions and ideas to share!

First 50 Ohio registrants who attend will receive a license for Boardmaker.
