

Application for Provisional License

Filing Instructions

The State Fire Marshal may issue a provisional license to any individual who is enrolled in a bona fide apprenticeship training program registered with the Apprenticeship Council pursuant to section 4139 of the Ohio Revised Code or with the Bureau of Apprenticeship and Training of the United States Department of Labor. A provisional license issued pursuant to this section authorizes an individual to engage in the activities permitted if:

The individual remains enrolled in such apprenticeship training program.

The individual is directly supervised by an individual who possesses a valid and current license issued for the activities in which the individual issued the provisional license is engaged, and the licensed individual directly supervising the individual issued the provisional license only supervises one provisional license holder.

The license is renewed each year and proof of enrollment in an apprenticeship program must be provided. Upon completion of the apprenticeship program, each individual will be required to take the state of Ohio certification examination in order to continue licensure.

Submit a non-refundable check or money-order payable to: **Treasurer, State of Ohio. \$35.00 per category.**

Submit a copy of the Apprenticeship Certification from the Dept. of Labor (RAPIDS system). This can be obtained from the apprenticeship training committee that selected you, or from your employer's payroll office. This certification is the **ONLY** acceptable proof that you are currently in a bonafide apprentice program registered with the Ohio Dept. of Job and Family Services or the United States Department of Labor.

Non-residents of Ohio must submit a notarized irrevocable consent to service form.
