

SAMPLE OF TOY LAW LABEL

Every stuffed toy manufactured, or wholesaled for sale, delivered, consigned or possessed for sale, sold, or offered for sale or lease in this state, shall have securely affixed thereto a law label. The form, design, color or size of the label is left to the discretion of the manufacturer or importer, provided that the information required on the label is clearly legible. You may print on both sides of a toy law label. Dual languages are permissible, as long as English is dominant. Percentages of the filling materials are not required on toy labels. The material shall be white vellum cloth, Tyvek or comparable quality material.

TOYS SOLD IN SETS: When a toy is made up of a number of components and sold as a set only, the law label can be attached in two different ways. Each component may be labeled separately, or one label may be attached to the main component listing the filling materials in the different components.

EXAMPLE:

ALL NEW MATERIAL
MAT POLYURETHANE FOAM
FIGURES ... POLYESTER FIBER
HOUSE PLASTIC STIFFENERS
REG. NO. xxxx
MADE IN (Country of Origin)

Filling materials in toys such as plastic pellets, polystyrene foam beads, sand, gravel, rice, beans and any other similar type of fillers are recommended to be inner-bagged and listed on the law label. If the toy contains wire, plastic, wood, cardboard or any other type of stiffeners they must be listed on the law label.

NOTE: The following items are excluded from having to be listed on a toy law label:
All rattles, squeakers, music boxes, voice chips, battery operated mechanical or electronic devices contained inside the article.

THIS IS THE REQUIRED INFORMATION FOR A TOY LABEL:

ALL NEW MATERIAL
(List of filling materials)
Registration Number
Country of Origin

EXAMPLE:

ALL NEW MATERIAL
(LIST OF FILLING MATERIALS)
