TIPS FOR PREPARING FOR YOUR CERTIFICATION EXAMINATION

The following suggestions will help you prepare for your examination.

- Only consider the actual information given in the question, do not read into the question by considering other possibilities.
- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the reference materials as the basis of your study.
- Read study materials that cover all the topics in the reference material.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice.
- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

The exam is prepared from Ohio Administrative Code section 1301:7-7-09 (Ohio Fire Code), 2017 Edition, Ohio Building Code chapter 9, 2017 Edition, and the referenced Editions of the National Fire Protection Association Standards as listed in the table below.
