

Newark, Licking County, has transformed its downtown with the help of Ohio Development Services Agency programs.

Fiscal Year 2018 Annual Report

**Development
Services Agency**

John R. Kasich, Governor

David Goodman, Director

The State of Ohio is an Equal Opportunity Employer and Provider of ADA Services

August 1, 2018

Governor Kasich, members of the General Assembly, fellow Ohioans:

At the close of the State Fiscal Year 2018, I am pleased to report the Ohio Development Services Agency is operating with increasing efficiency and effectiveness, having reduced spending by more than half a billion dollars and streamlined operations while increasing service to businesses, communities and individuals.

Each year, we refine our operations to make reporting easier while assuring a solid return on the taxpayers' investments. Businesses are investing, as well, innovating for the future and creating jobs.

During the course of the administration, I will have visited every one of Ohio's 88 counties, many frequently, and too many cities and towns to mention. There is construction happening – what a great sign for the economy. The infrastructure is sound and being updated at an aggressive pace. Roads, water, sewer and more form the foundation for modernization and growth of local communities.

Traveling the state, I see local leaders utilizing state government tools to create a distinctive image for their area, supporting the people who live there while preparing for future economic stability. They are using advanced manufacturing support, marketing to visitors, historic preservation, small business assistance, to name a few of the tools upon which they can build their vision of their community. Newark in Licking County, Hamilton in Butler County, Akron, Lima, Toledo, Cincinnati are just a few examples of communities transforming themselves for their citizens. We are proud to be a part of that.

I have heard from Ohioans of every walk of life. They know this growth is not the result of one year. Recovery from the major financial and infrastructure deficits that accumulated until 2011 takes time. The work of fiscal responsibility is not always popular in the short run. In this report, you will see the work of nearly eight years under the new economic development model. I hope you are as proud of the progress as we are.

Good stewards always leave things better than they found them. I am pleased to report to you that in the fiscal year ending in 2018, Ohio communities and businesses, are doing well and poised for growth.

Thank you for this opportunity.

David Goodman
Director, Ohio Development Services Agency

Executive Summary

This year, Ohio marked the milestone of more than 500,000 new private-sector jobs since 2011. It also marks the most transformative period for economic development since economic development began in the 1960s, under then Governor James A. Rhodes.

Governor John R. Kasich and the Ohio General Assembly set forth the new system in establishing JobsOhio, a private nonprofit to drive job growth in Ohio through business attraction, retention and expansion. The Ohio Development Services Agency was established in 2012:

- To oversee the public incentives for job creation.
- To assist small and disadvantaged businesses to grow and create jobs.
- To promote Ohio as a destination for visitors while increasing their economic impact.
- To administer state and federal funds for infrastructure development.
- To provide energy assistance to companies and municipalities.
- To assist with housing support and home energy assistance to low-income families.

The Agency has established a system of accountability for companies that make commitments to bring jobs in exchange for state incentives. And we are evaluating our own processes regularly to improve effectiveness and efficiency. For our customers, businesses, communities and individuals, there is greater access to service at lower cost to taxpayers.

Ohio Statehouse

Since 2012, the Agency budget of \$1.8 billion has been reduced by 53 percent, saving \$633 million. Although some savings is attributed to the initial restructuring, the Agency has reduced its budget each year, including a 6 percent reduction from \$1.27 billion in 2017 to \$1.19 billion in Fiscal Year 2018.

The commitment to continuous process improvement has made the Agency strong and lean. Development Services is better able to serve customers with less.

Digital Applications, Digital Filing, Digital Monitoring

Each year, Development builds on its commitment to reduce paper. Applicants can now file applications digitally; people and companies that receive incentives report electronically.

And the Agency is tracking the performance of incentives to commitments and engaging third-party evaluators to provide feedback on how Development operates. We also can report seamlessly to the public more quickly than ever with information and data, often in digital form.

Newark, Licking County

In 2013, businesses began filing annual jobs reports electronically. Each year since 2014, more program applications are available online. As we end State Fiscal Year 2018, we launch the online filing of applications for home energy assistance. It is the largest applicant pool served by the Agency. About 360,000 households apply each year for home heating assistance, supplemental utility payments for low-income families and home weatherization assistance. Going digital will reduce paperwork and make it easier for applicants to file and easier for the program staff to track.

Modernizing in the digital era carries some expense on the front end. The increased reliability of the data, increased accountability for taxpayer money, and the savings on the back end will provide a return on the investment in Fiscal Year 2019.

One example of technology increasing transparency is the Motion Picture Tax Credit program. This year, the program went to an online application. By taking applications digitally and tracking projects digitally, program staff can effectively monitor changes in projects. The public also gets a better look at this program. As one of the top five programs for which we received public records requests, staff hours were being taken from program work to fulfill requests. Now, anyone can get information about projects from start to finish, 24 hours a day, seven days a week on our website.

Electronic filing and record-keeping saves money, improves accountability and makes information easier for customers and taxpayers to access.

Partnership Makes Better Government

Some of the good work of Development Services has been made possible through partnerships with other agencies. The Public Utilities Commission of Ohio (PUCO) worked with the Agency to aggregate the low-income energy assistance customers and bid electric rates as a group. This year, for the first time, we have achieved lower rates for this group, which is supported by other Ohio ratepayers. Through an internal process review and improvement on our rate calculations, and the work with PUCO to reduce rates, we were able to save ratepayers more than \$200,000 without reducing services to older, disabled or the poorest Ohioans who need assistance in paying energy bills.

In the Abandoned Gas Station Cleanup Program you will read more about in this report, partnership is benefiting local communities. The Ohio Environmental Protection Agency and Ohio Department of Commerce, Division of State Fire Marshal, Bureau of Underground Storage are valuable partners to Development Services in providing expertise for cleaning up abandoned gas stations. There are hundreds of gas stations in communities across the state that have been abandoned for years, sometimes decades. These contaminated properties in highly visible locations

are a scar on the communities. Our work together is receiving national recognition for solving a universal problem that previously had no solution. We could not have done it alone. After cleanup, the properties are ready for immediate development to generate state and local taxes.

The Ohio Department of Transportation has worked with TourismOhio to make the state more welcoming to the traveling public, often sharing costs to avoid duplicative spending.

The Department of Agriculture collaborates on marketing Ohio Grape Industries, Ohio-made products and agritourism. Collaboration with the Ohio Expositions Commission, the Ohio History Connection and the Ohio Arts Council, among so many others, provide a strong, consistent message driving an excitement about experiencing the new *Ohio. Find It Here.* brand, which is boosting the economic impact statewide and on local destination communities.

We are always on the lookout for opportunities to partner with other state agencies to reduce bureaucracy, eliminate duplicative spending and consolidate efforts into a unified and stronger performance by state government for the citizens for whom we work.

SupaFun Band performs at Ohio Tourism Day at the Statehouse.

Accountability

For decades, Ohio provided incentives for job creation, but there was no system to check that the money led to jobs. It was discovered that some companies had taken incentives without ever creating jobs. And worse, some companies had taken state money, closed their doors, and the state did not know.

To combat these issues, the Ohio Development Services Agency has implemented a system of monitoring, reporting and compliance to ensure a return on taxpayers' investment when public funds incentivize capital investment and job creation in Ohio.

Elson International

The most important test of economic development success is job creation. Again this year, companies will exceed the total job creation commitments. More jobs than promised is good for all Ohioans because a job is the first sign of a strengthening economy. A job means self-sufficiency and independence, and it makes families stronger and communities stronger.

Commitments to Opportunity for All Ohioans

The Governor has often said that every Ohioan should have the opportunity to share in Ohio's success. In 1980, the General Assembly passed a law to set aside 15 percent of state contracts for Minority Business Enterprises (MBE). This is the first administration to follow the law. And although accountability and oversight for meeting the law is managed at the Ohio Department of Administrative Services, our team in the Minority Business Development Division works closely with state agencies and companies to identify businesses with the capacity to take on state contracts and get them certified to do business with the state.

Strong Communities

The Development Services Agency assists Ohio communities to become strong and vibrant places.

Ohio is now recognized among the top five states in the nation for our system of benchmarks, created by the Community Development Division, for keeping local projects moving to be completed on time.

Federal funds for areas outside the metropolitan cities and urban counties are managed by the Agency. These can be used for neighborhood revitalization, economic development, and improved community facilities and services. Funds not spent or funds for projects not completed in a timely manner can be reallocated to cities and urban counties. On-time completion means more funding is available for rural areas and small towns for sewer and water projects as well as housing for low-income Ohioans (people living below 80 percent of the area median income) for both rental and rehabilitation.

Improving Ohio Communities

U.S. 52 is the Ohio River Scenic Byway, hugging the Ohio side of the river from Cincinnati to past Ironton.

In Manchester, Ohio, however, it has been dotted for decades by abandoned gas stations. When U.S. 52 was a main route from Canada and North Dakota to Charleston, S.C., those gas stations were thriving businesses.

Now, travelers take interstate highways, and the 11 gas station sites in a one-mile stretch of the Village of Manchester shut down decades ago, leaving behind blight and potential environmental hazards.

In 2016, the Ohio Development Services Agency launched a program to help communities across the state remove eyesores and clean contaminated soil.

The Abandoned Gas Station Cleanup Program is only a small part of the Development Services Agency's work. But the program shows our commitment to the Agency's mission: growing jobs, improving customer service and cutting bureaucracy.

The program was a perfect fit for the Development Service Agency's efforts to improve the lives of Ohioans and improve Ohio communities, and it came about as part of the creation of JobsOhio and the transition from the Department of Development to the Development Services Agency.

As JobsOhio took over a brownfield revitalization program, Development retained \$20 million that had to be administered by a state agency.

Director David Goodman saw an opportunity to help solve a problem he recognized growing up in Ohio – the problems created by abandoned gas stations.

Workers clean up the site of the former Palmer's Ashland gas station on East Second Street in Manchester, Adams County.

The Ohio General Assembly passed the legislation needed, and now the Development Services Agency is cleaning up as many as possible of the more than 500 sites around the state where the responsible party can't be found or can't pay for cleanup.

A new retail store now serves the community in Cleveland where an abandoned gas station had been an eyesore.

Holly Johnson, left, director of Economic and Community Development for Adams County, stands with Amanda Fraley, assistant director, at the cleaned-up site of the former Palmer's Ashland gas station in Manchester.

For the Village of Manchester, population about 2,000, the program has been a catalyst for change, says Holly Johnson, the Economic and Community Development Director for Adams County.

"We have been able to breathe some life back into Manchester," she says.

As work started, the people who live there took notice. The revitalization efforts are spreading as the village council takes a more proactive approach and town cleanups have been organized. Without the abandoned gas station grants, this wouldn't have happened, Johnson says.

"There's no way the Village of Manchester could have done this on its own," she says.

Communities across the state have been unable to tackle cleanup of the abandoned gas stations that are hard on the eye and bad for the environment. There's too much risk involved, so something had to change.

In the two years since the first grants were announced, the state has committed \$6.5 million in 53 grants to 38 communities, providing help across the state.

In June, Director Goodman traveled to Portsmouth, another community along the Ohio River Scenic Byway, where cleanup was getting started on an abandoned station. Development has committed

\$100,000 to the project, and Portsmouth couldn't have done the work without the grant. When the project is completed, the city expects to be able to sell the land for development for \$7,500 to \$12,000.

The state's investment, however, makes a key piece of property viable again and makes life better for residents.

"People across the street had to look at this eyesore for 20 years," Goodman says.

In the Village of Manchester, Johnson says the three abandoned gas station grants totaling about \$700,000 the village has received so far are helping turn things around. That's on top of earlier help the Development Services Agency provided to clean up and improve the village. It's helping dispel the idea that state government doesn't pay attention to small towns and rural areas.

"DSA has put a lot of money into the Village of Manchester," Johnson says.

Improving communities is a big part of the Agency's mission.

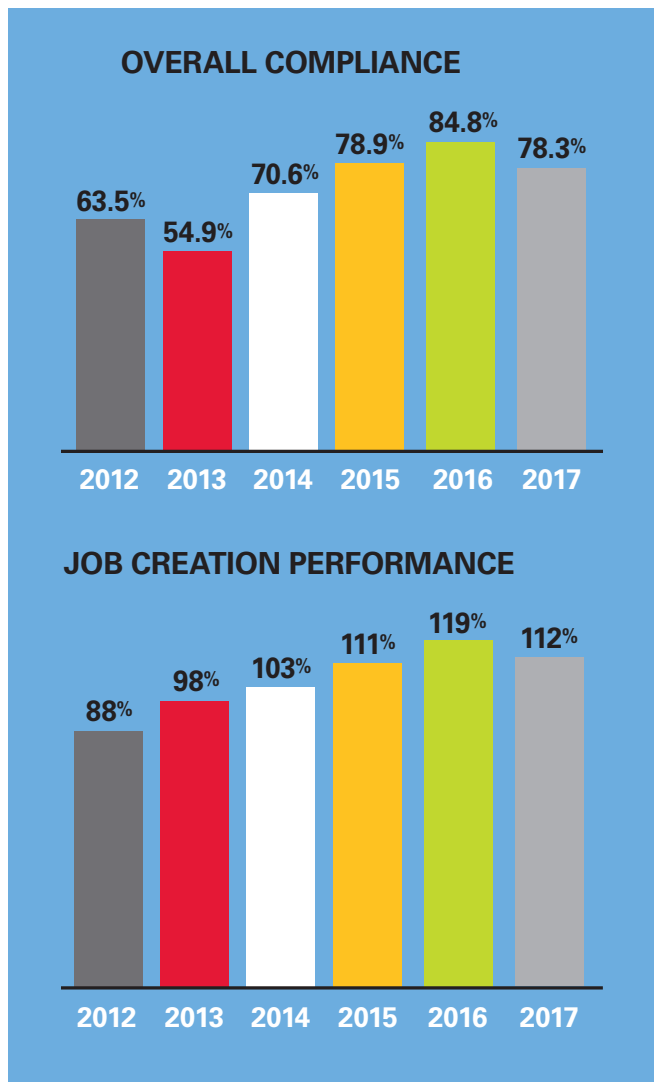

"Jobs aren't created if you don't have good, strong communities," says Mike Hiler, Chief of the Community Services Division, which runs the gas station cleanup program. "That's what we're all about."

Growing Jobs

Many programs in the Development Services Agency focus on helping businesses create jobs.

A critical improvement that this administration focused on making sure that companies receiving state economic development incentives are meeting their job-creation commitments.

Beginning in 2010, the legislature mandated an independent review of the performance of economic development incentives by the Office of the Attorney General. That first year, the Attorney General conducted a voluntary survey of incentive recipients. Participation was low, and no action was taken to determine compliance or recover taxpayer funds for those that were non-compliant.

Motion Picture Tax Credit

The Motion Picture Tax Credit was created in 2009 to encourage and develop a film industry in Ohio. The program provides a refundable, transferable tax credit equal to 30 percent of production, cast and crew wages plus other eligible in-state spending.

This is a performance-based incentive and no tax credits are issued until the project is completed and requirements of the program are met.

22
APPROVED
PROJECTS

\$39.9 MILLION
ALLOCATED

Now, reporting by companies that receive incentives is mandatory. Most incentives are now performance-based, so taxpayer funds are paid after jobs are created. Reporting is monitored for compliance. Monitoring allows us to anticipate when a company is not progressing toward commitments. For non-compliant companies, reducing terms or clawback of funds means taxpayers have less risk. This process improvement has created accountability, compliance has increased, and jobs are being created for Ohioans.

“When you get a tax credit from the state of Ohio or a loan, we have a team looking at that,” Goodman says, noting that was a change from previous administrations when the Agency didn’t hold companies accountable for their commitments or didn’t check on compliance.

In April 2012, the Reporting & Quality Assurance office was created to monitor agreements, and that was the beginning of the turn-around in culture and procedure in Development Services.

Now, most of the reporting is done electronically, simplifying the process for the companies and the Agency. It also allows the Agency to check a company’s history with the state when it is applying for a new economic incentive.

"Things are so much more streamlined and seamless," says Padmini Roy-Dixon, Chief of Business Services. "Starting from 2012 to now, we're just light years ahead."

The goal is to serve Ohio taxpayers better. Companies are being held accountable for their commitments, but if they are having difficulty meeting their obligations, the Agency works with them to improve their position.

"The accountability programs create a climate that's better for Ohio residents," she says. "After all, we're dealing with their dollars."

Job Creating Tax Credits

**THE TAX CREDIT AUTHORITY APPROVED
89 JOB CREATION TAX CREDIT AGREEMENTS**

10,446 NEW JOBS CREATED

11,771 JOBS RETAINED

\$486.7 MILLION IN NEW PAYROLL

\$2.57 BILLION IN FIXED ASSETS

For a list of Job Creation Tax Credits, see Appendix 1.

There were no new Job Retention Tax Credits in 2017. For a list of previously existing JRTCs, see Appendix 2.

There was one new Data Center Tax Exemption agreement approved in 2017. For a list of Data Center Sales Tax Exemptions, see Appendix 3.

Enterprise Zone

In calendar year 2017, 95 Enterprise Zones were certified with the Development Services Agency. Enterprise Zones are agreements between local communities and local businesses, and the agreements are filed with the Agency. It is the responsibility of Development Services to certify the zone or area, act as the repository for the agreements, and generate and collect annual reports. Additional information on this program can be found in Appendix 4.

Development Services also is helping to lead Ohio into the future. The state's first frontier was agriculture, the second frontier was industry, and Third Frontier is a commitment to building Ohio's technology economy and ensure jobs for the future.

Created in 2002, much of the early focus of Third Frontier was on research institutions where innovation was happening. It laid the groundwork and infrastructure for a high-tech economy, and in recent years, Third Frontier has transitioned from research to commercialization.

Today, Third Frontier is focused on supporting startup and early-stage technology companies, maximizing return on investment and encouraging entrepreneurs with a technology idea to grow the businesses of tomorrow.

Ohio Third Frontier

For Ohio entrepreneurs and startups, the Agency provides funding to help transform an idea into a profitable business. During Fiscal Year 2018, the Ohio Third Frontier Commission awarded \$46 million to support and accelerate the growth of new and diverse startup and early-stage technology companies. Entrepreneurs are building cutting-edge technology companies with support from Ohio Third Frontier and moving life-changing research out of Ohio's world-class hospitals and universities and into the marketplace. A list of Ohio Third Frontier awards is detailed in Appendix 5.

These investments are bringing big wins for Ohio. Assurex Health in Mason was acquired by Myriad Genetics in 2016 for \$225 million, with the potential for an additional \$185 million contingent on future performance-based milestones. The company continues to grow in Ohio and helps doctors determine which treatments will work best for their patients with neuropsychiatric and other medical conditions.

CoverMyMeds in Columbus was acquired by San Francisco-based McKesson Corp. in 2017 for \$1.1 billion, with another \$300 million based on future financial performance. It is one of the largest exits ever for an Ohio technology startup. The company continues adding jobs and has helped more than 97 million patients get the medication they need.

People across the country are taking note of these successes that are building a new Ohio, attracting private investment from inside and outside the state. We have the resources, diverse talent, world-class research and medical institutions, access to customers and industry. Ohio's innovators are showing entrepreneurs and investors from coast to coast that this is an exciting time to build something in Ohio.

Ohio Venture Capital Authority

The Ohio Capital Fund was designed to provide investment capital for Ohio-based businesses in the seed or early stages of development. The Development Services Agency serves in an advisory role to the Ohio Venture Capital Authority and provides support and technical assistance, as required. In Fiscal Year 2018, the Ohio Venture Capital Authority issued \$15.35 million in tax credits to the debt-service reserve fund in accordance with the law establishing the Ohio Capital Fund. Ohio Export Assistance Facts

Ohio Export Internship Program Showcase

"We touch so many people's lives in the division – research hospitals, small businesses, tech startups," Roy-Dixon says. "It's about growing jobs, growing investments and improving lives. There's so much room out there to grow and make a difference."

Third Wave Water in Cedarville, for example, has grown with the help of the Ohio Small Business Assistance Center Export Assistance Network in Dayton. The company produces a unique product: packets of minerals that turn distilled water into the perfect liquid for brewing coffee. Founded in September 2016, the company already markets its product in all 50 states and more than 50 countries. In Spring 2018, company officials returned from a successful trade mission to China that had received support from our Dayton Export Assistance Director and in-market advisors retained by the state.

Third Wave also was helped by an innovative program the Export Assistance Network established, an internship program matching qualified college students with companies that want to enter international markets. The Agency partners with three state universities to provide export-related coursework and match the students with companies. Development pays for half of the intern's salary, and the business gets an employee trained in exporting.

The jobs and continued export growth results in some companies hiring their interns full time following the internship.

In 2013, the Minority Business Development Division was given increased importance, with its chief reporting to Director Goodman. The move elevated the business section that helps minority-owned and disadvantaged businesses learn about all the state has to offer to ensure everyone has an opportunity to participate in the state's growing economy.

It was part of a push from Governor Kasich for the state to comply with the 1980 Minority Business Enterprise law requiring that at least 15 percent of state purchases of goods and services come from certified Minority Business Enterprises.

After never providing more than a 5 percent opportunity to Minority Business Enterprises, the state met the requirement for the first time in Fiscal Year 2015 and is on track for a fourth year of compliance this fall.

The Development Services Agency provides advice, support and financial assistance to minority businesses every day. Minority Business Division Chief Jeffrey Johnson listens to business owners and asks, "Do you want to grow as a business? If you do, here's what we can do to help."

The division accomplishes its mission with the help of a network of Minority Business Assistance Centers across the state. Johnson says the division helps clients get Minority Business Enterprise contracts, but staff also advises clients they shouldn't rely only on a state contract. They urge clients to build a diversified base of contracts.

"It's truly about business development," Johnson says.

Minority Business Development Division Chief Jeffrey Johnson at the Cincinnati Minority Business Assistance Center.

Anchored by the launch of the *Ohio. Find It Here.* brand, which is resonating with consumers, the tourism industry is employing more people, drawing more visitors and those visitors are spending money in local communities in Ohio.

TourismOhio is a success story. We're getting more people to visit Ohio than ever before. Since 2012, the number of visits has increased 12 percent. In 2017, visits increased 3.3 percent, easily surpassing the national increase of 2.1 percent. Ohio had 219 million tourism visits in 2017, resulting in \$44 billion in visitor spending. The industry supported 428,000 jobs in 2017.

The program has been successful because of tourism marketing, attracting more visitors, but more importantly, bringing more of their dollars into the state and increasing the number of Ohio residents working in the hospitality industry.

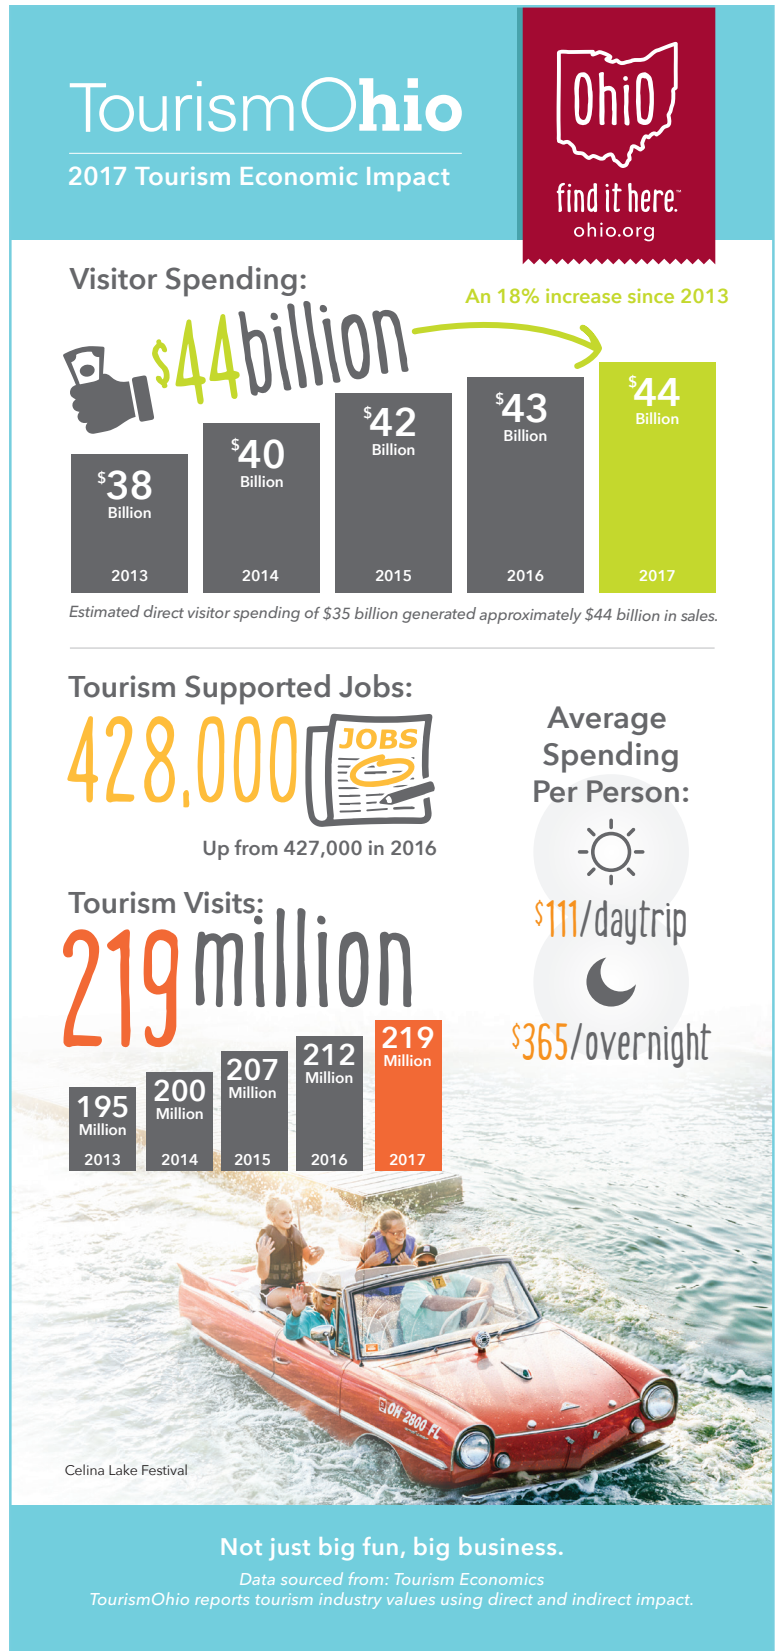

Spending for TourismOhio has increased from \$5 million per year at the start of the administration to \$10.3 million today.

"With those dollars, we're getting the word out to more people than ever," says Matt MacLaren, Chief of TourismOhio.

TourismOhio has long marketed Ohio in-state and to areas of Michigan and western Pennsylvania, markets from which Ohio has received strong numbers of overnight visitors. This year, Ohio's tourism campaign extended its out-of-state presence to Indiana, Kentucky and West Virginia with a focus on increasing the number of overnight stays which generate three times more revenue than day visits.

In addition to an increased geographic visibility, the additional funding also has allowed for advertising for spring, summer, fall and winter campaigns – leveraging the fact that Ohio is a year-round travel destination.

The increased funding also led to TourismOhio's emotional and experiential new brand: *Ohio. Find It Here.* The agency will have new music that will become one of Ohio's distinctive brand assets. The new sound will extend TourismOhio's marketing campaign by allowing greater use beyond its television campaign.

Our fan following has grown not only in actual visits, but through social media as well. In 2010, TourismOhio's Facebook page had 3,500 fans. Today, it has 205,000. Twitter followers numbered 4,900 in 2010, and today, our tweets are followed by 42,600.

Collaboration with partners will be a key to continued growth. An *Ohio. Find It Here.* commercial runs next to a commercial for Cedar Point amusement park, and the agency is collaborating with Bob Evans Restaurants and Marathon Petroleum Corp. to market the state. The partnerships allow us to promote our complimentary commercials, at half the cost, leaving money to extend the marketing elsewhere.

This year, TourismOhio also is celebrating trails throughout the state. Beyond hiking trails and scenic byways, we're directing visitors and residents to trails.ohio.org where you can find the Ohio Adventure Trails:

- Food – The Butler County Donut Trail, Ohio's Ice Cream Trail, Lorain County's Ice Cream Trail, the Ohio Burger Trail, the Hocking Hills Comfort Food Cruise, and the Put-in-Bay Foodie Trail.
- Drink – The Columbus Coffee Experience, the Joe in the YO Coffee Trail, the Three Rivers Wine Trail, the Darke County Whiskey, Wine & Ale Trail, Brewed on the Bikeway, Gahanna's Herbal Cocktail Trail and more.
- Shopping – Made in Wayne County Trail, Coshocton Antique & Unique Shopping Trail, and Made in CBUS Trail.
- Sights – There are several, including the Clermont County Freedom Trail, the Fulton County Play Trail, the Lake Erie Birding Trail, and the Hopalong Cassidy Trail.
- History – The Dayton Aviation Trail and the John Hunt Morgan Heritage Trail.

Ohio.org is the call to action for all advertising, encouraging consumers to find more – from events to festivals, attractions to lodging or retail. Ohio.org is a venue for thousands of Ohio businesses to create free listings about their attractions and events that inspire users to plan a visit.

"We care about our partners," MacLaren says. "There's the support here to help people be able to grow."

Chillicothe, Ross County

Each Ohio community has a unique history, and the Historic Preservation Tax Credit Program provides communities and developers the opportunity to bring a piece of the community's history back to life. A complete list of the Historic Preservation Tax Credits can be found in Appendix 6.

Improving Customer Service

Focusing on taxpayers as customers has been a hallmark of the Development Services Agency throughout this administration. The goal is to be accountable and transparent, and a highly visible illustration of that is on the Agency's homepage at development.ohio.gov where you can find the "Easy Program Finder."

The Program Finder makes information about taxpayer-funded incentives easily available to the public. Clicking on any program type will bring up a simple description of the program along with the eligibility requirements. Most importantly, customers also will see the name, email address and phone number of a staff member who can assist with any questions, rather than being directed to a nameless and impersonal toll-free number.

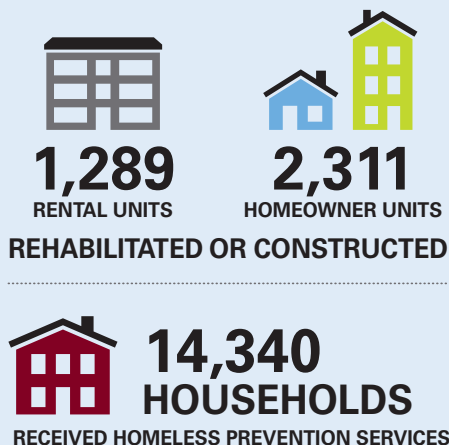

"You can find what you need and the people you need to talk to," Director Goodman says.

development.ohio.gov "Easy Program Finder"

Community Resources

Ohio Housing Trust Fund

The Ohio Housing Trust Fund, a public/private partnership administered by the Development Services Agency, invested \$46 million to increase and improve the housing stock for low- to moderate-income Ohioans and address the needs of homeless Ohioans. The Housing Trust Fund served 37,000 households, 1,018 senior citizens and 238 businesses. A full report on the programs and services administered by the Ohio Housing Trust Fund can be found in Appendix 7.

Ohio Coal Development Office

The Ohio Coal Development Office (OCDO) funds a range of projects from applied research to deployment of full-scale demonstration projects that enhance the viability of Ohio coal while reducing environmental impact and maintaining affordability. During State Fiscal Year 2018, the OCDO awarded \$1.43 million for Ohio Coal Research Consortium program projects. Details about funded projects are available in Appendix 8.

Community Services Block Grant

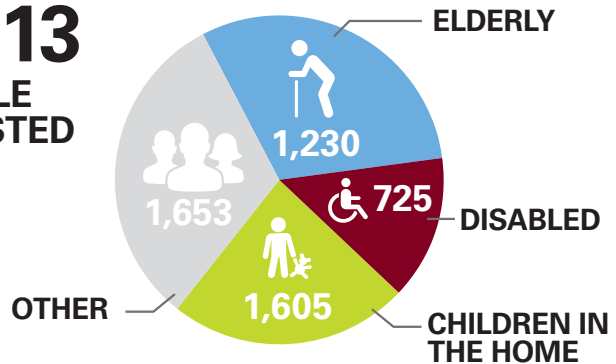

Community Action Agencies across the state work with the Development Services Agency to address poverty in Ohio communities. In calendar year 2017, Development used the Community Services Block Grant to work with 48 local agencies, administering more than \$26 million and serving more than 240,000 Ohio families. A full report on the program and services provided can be found in Appendix 9.

In the Community Services Division, the Agency has made several strides in easing the application process for programs benefiting communities and residents. Many of the processes have turned from paper-based applications to electronic forms, and disbursements of grants also are done electronically. For a system that used to take weeks from application to funding, the time has been cut at least in half. In addition, the process increases accountability and saves taxpayer dollars.

Some programs, such as the Community Housing Impact and Preservation Program, have eliminated application deadlines, allowing communities to apply for funding throughout the year. The new process allows the Agency to fund more impactful projects.

The division is involved in a variety of efforts to improve Ohio communities and the lives of Ohio residents:

- Water line projects that help rural low- and moderate-income residents.
- Housing rehabilitation to fight homelessness.
- Streetscaping projects and façade improvements in downtown areas.
- Energy and weatherization programs to help needy Ohioans stay warm in the winter and comfortable in the summer.

The Agency also improved the internal processes used to determine the money needed to pay for two ratepayer-funded programs: the Percentage of Income Payment Plan and the Electric Partnership Program. By analyzing trends, we were able to reduce the energy bills for Ohio consumers.

“We are constantly looking at ways to make our programs more efficient and effective,” says Mike Hiler, Chief of the division.

Cutting Bureaucracy

Improving compliance with job creation isn't the only way Development Services has become a better steward of taxpayers' money during this administration. The Agency now routinely bids contract opportunities when they come up for renewal. The request for proposals process can be time-intensive for Agency staff and Agency partners, but the result is the state and our residents get the best service possible at a competitive price.

The Agency's commitment to cutting bureaucracy and serving Ohio's taxpayers is illustrated clearly by voluntarily cutting its budget during this administration. In Fiscal Year 2012, the Department of Development's budget was \$1.8 billion. Today, in the Development Services Agency, it's \$1.1 billion, a decrease of \$633 million, or 53 percent.

"We have shrunk the size of the Agency while still providing quality services to Ohio and Ohioans," says Matt Peters, the Agency's assistant director. "We have found efficiencies, and we have streamlined operations across the Agency."

In Manchester, the rejuvenation going on now is possible because three agencies got together to cut through bureaucracy that was inhibiting cleanup. They're working together for the good of local communities.

Development Services worked with the Ohio Department of Commerce Division of State Fire Marshal, Bureau of Underground Storage Tank Regulation, known as BUSTR, and the Ohio Environmental Protection Agency to make the abandoned gas station cleanup possible.

"It's been a great thing," says Holly Johnson, the Adams County economic official. "I can't say enough good things about the program."

Manchester, Adams County

Abandoned Gas Station Site - Manchester

Boards and Commissions

Home Weatherization Assistance Program Advisory Council – The Home Weatherization Advisory Council provides advice to the Ohio Development Services Agency to ensure that energy services are provided to low-income consumers.

Minority Business Advisory Council – The Minority Business Advisory Council advises and assists the Directors of the Development Services Agency and Department of Administrative Services in matters affecting the economic vitality of Ohio’s minority business community.

Minority Development Financing Advisory Board – The Minority Development Financing Advisory Board assists the Development Services Agency in creating employment opportunities and wealth in the minority business community. The Minority Development Financing Advisory Board does this by reviewing and making recommendations on loans and surety bond requests.

Ohio Coal Development Technical Advisory Committee – The Ohio Coal Development Technical Advisory Committee reviews and makes recommendations concerning Ohio coal development project proposals, governance matters and other topics related to Ohio coal development.

Ohio Housing Trust Fund Advisory Board – The Ohio Housing Trust Fund Advisory Board is charged with assisting the Ohio Development Services Agency in defining housing needs and priorities, recommending program updates to effectively benefit low-and moderate-income persons, and advising the Development Services Agency Director on the distribution of money from the Ohio Housing Trust Fund.

Ohio Tax Credit Authority – The Ohio Tax Credit Authority is charged with reviewing and approving applications for select tax credit assistance programs.

Ohio Third Frontier Advisory Board – Ohio Third Frontier Advisory Board provides guidance to the Ohio Third Frontier Commission. The members of the Board represent leaders from industry, academia, and government, who advise on strategic planning, general management and coordination of programs associated with the Ohio Third Frontier.

Ohio Third Frontier Commission – The Ohio Third Frontier Commission is responsible for the allocation of funds appropriated by the Ohio General Assembly to support programs and activities associated with the Ohio Third Frontier.

Ohio Venture Capital Authority – The Ohio Venture Capital Authority oversees the Ohio Capital Fund.

Public Benefits Advisory Board – The Public Benefits Advisory Board ensures energy services are provided to low-income consumers in Ohio in an affordable manner.

TourismOhio Advisory Board – The TourismOhio Advisory Board is responsible for advising the Director of the Development Services Agency and the Chief of the Office of TourismOhio on strategies for promoting tourism in Ohio.

Workers’ Compensation Board of Directors Nominating Committee – The Workers’ Compensation Board of Directors Nominating Committee makes recommendations to the Governor for the appointment of members of the Bureau of Workers’ Compensation Board of Directors.

Appendix 4

Enterprise Zone Tax Credits

In Calendar Year 2017, as reported to the Ohio Development Services Agency (ODSA) for all active agreements, local communities collected over \$343.3 million in real property taxes associated with the real property investments made in conjunction with the enterprise zone agreements and abated over \$300.2 million in potential real property tax. For those agreements that also provide an incentive for personal property taxes (for companies that are still obligated to pay personal property taxes), in 2017 \$128,114 in personal property taxes associated with those agreements' personal property investment was collected and over \$558,000 of potential personal property tax collection was foregone. Additionally, \$16.4 Million in "Other Incentives" (as defined by the local jurisdictions) were provided in 2017 in conjunction with the enterprise zone agreements. A total of 34,668 full-time permanent jobs have been created in conjunction with the active enterprise zone agreements, as reported by the local jurisdictions in their 2017 annual reports.

In 2017, ODSA received two applications for the Ohio Enterprise Zone Program Tax Incentive Qualification Certificates (Tier II). Of these applicants, two were awarded tax certificates. These awarded tax certificates allow the taxpayer to reduce its corporate franchise tax obligation (or personal income tax obligation, for pass-through entities) by reducing amounts included in the computations for the property factor and the payroll factor as well as some additional credits against qualified employees. As a result of the historical changes to the corporate and personal income tax structure in Ohio, the number of annual applications has decreased dramatically since 2005.

In 2017, ODSA did not receive any applications regarding the incentives available under ORC Section 5709.66 (Tier III). The only applications received in conjunction with this benefit were received in 1995, and only one of the five applications received that year was certified. While limited inquiries into the program continue, no certifications have been issued since 1995.

Ohio Housing Trust Fund State Fiscal Year 2018 Awards

Prepared By:
Ohio Development Services Agency
Community Services Division
Office of Community Development

John R. Kasich, Governor of Ohio
David Goodman, Director
Ohio Development Services Agency

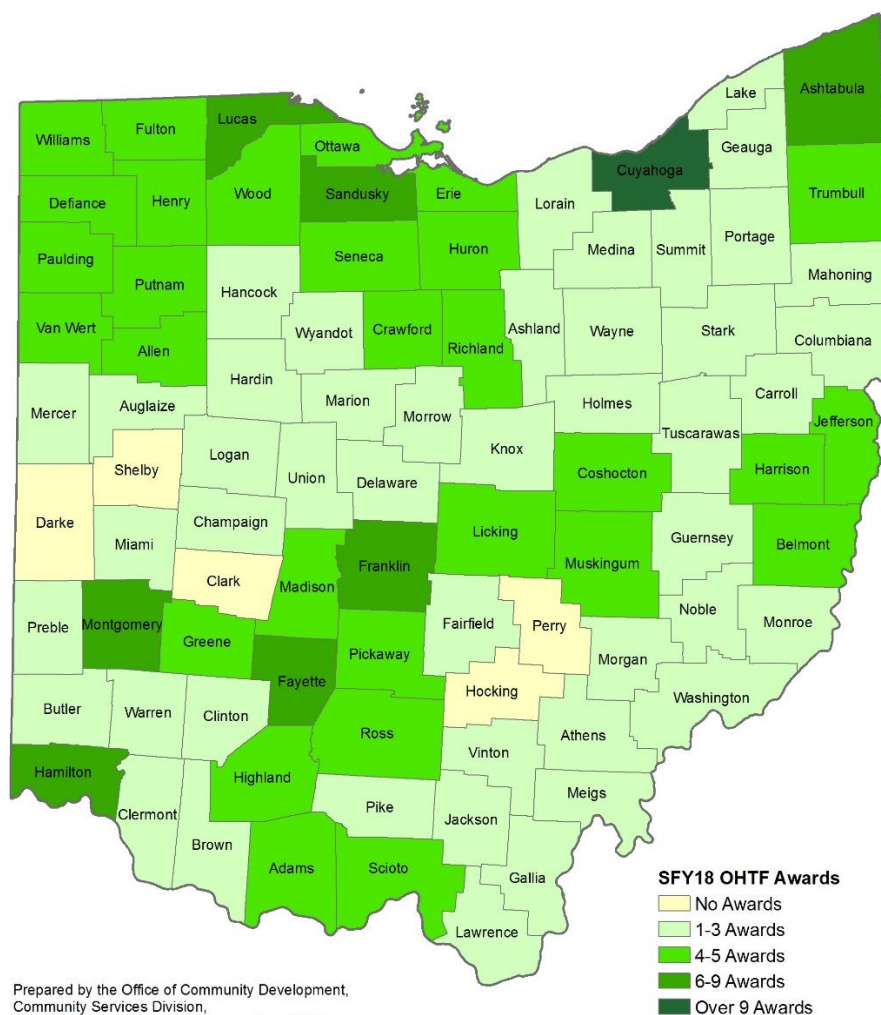

Eligible Housing and Housing Assistance Award Recipients and Activities

The Ohio Housing Trust Fund provides funding to nonprofit organizations, public housing authorities, private developers and lenders, local governments, and consortia of eligible applicants that are interested in increasing affordable housing opportunities, expanding housing services, and improving housing conditions for low- and moderate-income residents in Ohio.

Grants, loans, loan guarantees, and loan subsidies may be used for:

- Acquiring, financing, constructing, leasing, rehabilitating, remodeling, improving and equipping publicly or privately-owned housing;
- Providing matching money for federal funds received by the state, counties, municipal corporations, and townships;
- Providing to counties, townships, municipal corporations, and nonprofit organizations technical assistance, design and finance services, and predevelopment consultation and payment and administrative costs related to any of the activities listed above; and
- Providing supportive services related to housing and the homeless, including counseling.

SFY 2018 OHTF Awards to Benefit Counties

Community Development Corporation Set Aside Program

No more than 5 percent of the current year appropriation authority (\$53 million) shall be allocated between grants to community development corporations for the community development corporation grant program and grants and loans to the Ohio Community Development Finance Fund, a private, nonprofit corporation. In SFY 2018 a total of \$2,250,000 was awarded to the Ohio CDC Association and the Community Development Finance Fund, which represents 4.2% of the current year appropriation.

CDFF – \$1,600,000

The Ohio Community Development Finance Fund (CDFF) will assist community-based non-profit development organizations undertaking housing, economic development, and commercial revitalization projects. The Pre-Development Program funds feasibility studies, environmental review, legal research, engineering/architectural drawings and site plans, business plans, market studies, and zoning and permit fees. The Economic Development Program funds community-based non-profits that create long-term private-sector jobs. The Linked Deposit Program provides access to affordable financing from local lenders for housing and economic development projects. Funds will assist 5 businesses/organizations and 160 households.

Ohio CDC Association – \$500,000

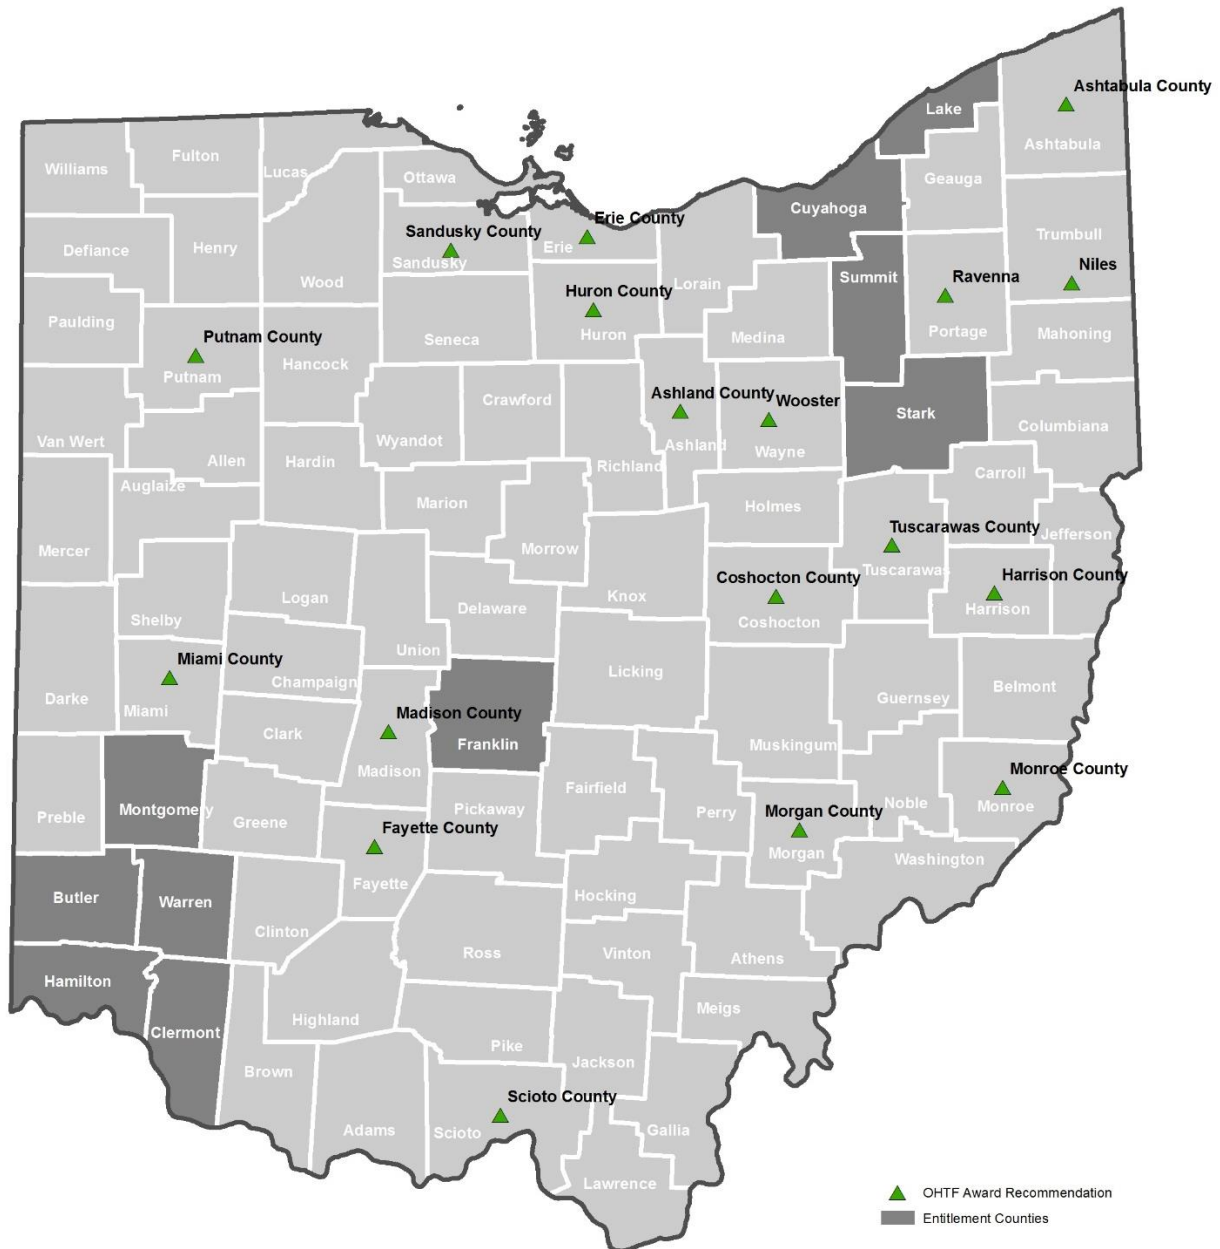

The purpose of the Ohio Microbusiness Development Program is to provide funding for community development corporations (CDCs) to further develop a local delivery system that encourages microbusiness development, provides low- and moderate-income households with access to capital for business development and self-employment, and creates and retains long-term jobs in the private sector. Additional information can be found in the PDF application attached to this digital OCEAN application.

Ohio CDC Association – \$150,000

OCDCA will provide cost-effective, high-quality training and technical assistance to community development professionals across the state. The activities have led to increased capacity in the community development industry that includes CDCs, community-based groups, local units of government, and the private sector. The resource allows OCDCA and the industry to respond to topical concerns and industry needs allowing for greater impact, effectiveness, and efficiency across the state of Ohio. An estimated 300 LMI individuals will benefit from housing training and technical assistance; an additional 300 LMI individuals will benefit from community development training and technical assistance.

Community Housing Impact and Preservation Program

The Community Housing Impact and Preservation Program provides funding for a flexible, community-wide approach to improve and provide affordable housing for low- and moderate-income people, and strengthen neighborhoods through community collaboration. The program goals are achieved through project activities such as private owner rehabilitation; rental rehabilitation; homeownership; home repair; new housing construction through Habitat for Humanity; homelessness prevention, and tenant-based rental assistance. In SFY 2018, a total of \$1,400,000 was awarded to communities primarily for home repair activities.

Prepared by the Office of Community Development,
Community Services Division,
Ohio Development Services Agency (October 2017)

Ashland County – \$50,000

Ashland County has applied for \$850,000 through the Community Housing Impact and Preservation (CHIP) Program. Western Reserve Revitalization Management Company – \$1,000,000

Riverside Park Phase II is a multifamily bond, housing tax credit development that involves the renovation of 60 buildings and a total of 203 units located in Cleveland, Cuyahoga County. The project was originally Section 9 and is going through the HUD Rental Assistance Demonstration Program. When complete, all units will have project-based subsidy under a Section 8 HAP contract. OHFA will monitor for five Assisted Units.

YWCA Dayton – \$350,000

Dayton YWCA PSH is a housing tax credit development that involves the substantial rehabilitation of a seven-story, 96 unit SRO building with a Section 8 Mod Rehab subsidy located in Dayton, Montgomery County. The renovation will create 52 efficiency units and 13 one-bedroom units. After completing the HUD required RAD 2 process, all units will have project-based subsidy under a Section 8 HAP contract. OHFA will monitor for four HDAP assisted units.

Resident Services Coordinator Program

The Ohio Department of Aging administers the Resident Service Coordinator Program. OHTF dollars have been awarded to ten organizations to provide part-time service coordinators for 16 properties that were part of the Ohio Housing Finance Agency's project-based Section 8 portfolio or recipients of Ohio Housing Tax Credit financing. The goal of the program is to help elderly and disabled low-income tenants identify and obtain services and benefits available in the local community. Service coordinators interact with residents, residents' families, property management and community service providers. As a result of the program, tenants have increased access to services and benefits, are able to maintain their apartments, comply with the lease terms and continue to live independently. Service coordinators reduce the burden on property managers by dealing with tenant issues and help decrease move-outs and unit turnover. Ohio Department of Aging received \$12,500 to administer the program.

Area Agency on Aging District 7 (Glendale Apartments) - Adams County - \$15,176

Area Agency on Aging District 7 (McArthur Park) - Vinton County - \$9,475

Area Agency on Aging District 7 Hurth (Rivertown) - Scioto County - \$13,267

Area Agency on Aging Region 9 (Colony Terrace II Apartments) - Muskingum County - \$11,904

Area Agency on Aging Region 9 (Kontogiannis Terrace Apartments) - Belmont County – \$11,904

Area Office on Aging of NW Ohio (The Renaissance) – Cuyahoga County – \$14,109

Residential Administrators – \$53,500

Residential Administrators, Inc. will provide 24 units of permanent supportive housing for homeless households with children with at least one adult having a disability of a severe and persistent mental illness who are at or below 35% of Area Median Income in Champaign and Logan counties. The project includes 62 beds and has a capacity of 24 households. Funds will be used for program operations. The program will serve 27 households consisting of 71

persons during the 2-year period. The program projects that 90 percent of persons will exit to or retain permanent housing, and 85 percent of adults served will receive non-cash benefits.

St. Vincent De Paul Social Services – \$377,000

St. Vincent De Paul Social Services, Inc. will provide permanent supportive housing for homeless persons with a disability with household income at or below 35 percent of Area Median Income in Montgomery County through the 25-unit Kettering Commons project and the 26-unit De Paul Center. Kettering Commons will serve individuals and households with children and the De Paul Center will serve homeless men. Kettering Commons includes 70 beds and has a capacity of 25 households and the De Paul Center includes 26 beds with a capacity of 26 households. Kettering Commons will serve 45 households consisting of 130 persons and the De Paul Center will serve 55 households/55 persons during the 2-year period. Both programs project that 96 percent of persons will exit to or retain permanent housing. Kettering Commons projects that 40% of percent of adults served will receive non-cash benefits and the De Paul Center projects 75% for that measure.

St. Vincent De Paul Social Services – \$125,000

St. Vincent De Paul Social Services, Inc. will provide transitional housing for homeless men and women with a disability with household incomes at or below 35 percent of Area Median Income in Montgomery County through the two-unit Safe Haven project and the 13-unit DePaul Center. Safe Haven includes 13 beds with a capacity of 13 households and the De Paul Center includes 13 beds with a capacity of 13 households. Funds will be used for program operations and supportive services. Safe Haven will serve 65 households/persons and the De Paul Center will serve 34 households/persons during the 2-year period. Both programs projects that 92% percent of households will exit to a permanent destination and a median length of stay for leavers of 110 days. The DePaul Center projects that 75% percent of adults served will receive non-cash benefits and Safe Haven projects that 90% of adults served will receive non-cash benefits.

VOA - Greater Ohio – \$274,400

Volunteers of America of Greater Ohio will provide three permanent supportive housing (PSH) projects for homeless persons with a disability with household income at or below 35% of AML in Franklin and Lucas counties. Chestnut Hill will provide 40 units for single homeless persons in Lucas County with a capacity of 40 beds/households. Family Services will provide 38 units for homeless households with children in Franklin County with a capacity of 130 beds and 38 households. Van Buren Village will provide 60 units for homeless singles in Franklin County with a capacity of 60 beds/households. Funds will be used for program operations at all locations plus supportive services at Family Services. The programs will serve 164 households during the 2-year period. The programs project that 90% of persons will exit to or retain permanent housing, and non-cash benefits will be received by 90% of adults served in Lucas County and at Family Services and 70% of adults served at Van Buren.

YWCA - Canton – \$306,000

YWCA Canton. will provide 26 units of permanent supportive housing for homeless males, females, and households with children wherein the head of household has a disability and a household income at or below 35 percent of Area Median Income in Stark County. The project includes 35 beds and has a capacity of 26 households. Funds will be used for program operations. The program will serve 35 households consisting of 41 persons during the 2-year period. The program projects that 96 percent of persons will exit to or retain permanent housing, and 85 percent of adults served will receive non-cash benefits.

YWCA - Columbus – \$220,000

The Young Women's Christian Association will provide 91 units of permanent supportive housing for homeless persons with a disability and a household income at or below 35 percent of Area Median Income in Franklin County. The units include 91 beds and have a capacity of 91 households. Funds will be used for program operations and supportive services. The program will serve 109 households/persons during the 2-year period. The program projects that 90 percent of persons will exit to or retain permanent housing, and 70 percent of adults served will receive non-cash benefits.

YWCA - Elyria – \$54,400

The YWCA of Elyria will provide 14 units of permanent supportive housing for homeless women with a disability and a household income at or below 35 percent of Area Median Income in Lorain County. The project includes 14 beds and has a capacity of 14 households. Funds will be used for program operations. The program will serve 18

persons/households during the two-year period. The program projects that 90 percent of persons will exit to or retain permanent housing and 50 percent of persons will obtain non-cash benefits.

YWCA - Elyria – \$105,500

The YWCA of Elyria will provide 12 units of transitional housing for homeless females and households with children with high barriers for attaining permanent housing who are at or below 35 percent of area Median Income in Lorain County. The project includes 19 beds and has a capacity of 12 households. Funds will be used for operating expenses and supportive Services. The program will serve 50 households consisting of 96 persons during the two-year period. The program projects that 83 percent of households will exit to a permanent destination, and 55 percent of adults served will receive non-cash benefits. The program projects an average length of stay for leavers of 244 days.

YWCA - Van Wert – \$99,500

The Young Women's Christian Association of Van Wert County, Ohio will provide nine units of permanent supportive housing for homeless, disabled women and households with children and a household income at or below 35 percent of Area Median Income in Allen, Auglaize, Mercer, Paulding, Putnam, and Van Wert counties. The project includes 20 beds and has a capacity of nine households. Funds will be used for program operations, administrative costs, data collection and evaluation, and supportive services. The program will serve 9 households consisting of 20 persons during the two-year period. The program projects that 90 percent of persons will exit to or retain permanent housing, and 85 percent of adults served will receive non-cash benefits.

YWCA - Warren – \$66,800

The Young Women Christian Association of Warren Ohio will provide 6 units of permanent supportive housing for disabled, homeless women and households with children with a household income at or below 35 percent of Area Median Income in Trumbull County. The project includes 14 beds and has a capacity of 6 households. Funds will be used for program operations. The program will serve 12 households consisting of 28 persons during the 2-year period. The program projects that 90 percent of persons will exit to or retain permanent housing, and 85 percent of adults served will receive non-cash benefits.

Target of Opportunity Grant Program

The Target of Opportunity Grant program, administered by the Ohio Development Services Agency's Office of Community Development, provides funding for target of opportunity projects and innovative proposals that will principally benefit persons with incomes at or below 50 percent of the area median income and meets the Ohio Housing Trust Fund rules and requirements. Projects or activities must be supported by statewide or regional organizations that serve multiple counties, or provide statewide services. In SFY 2018 a total of \$997,500 was awarded to 8 grantees for statewide projects.

Aurora Project – \$19,300

Aurora Project, Inc. will replace the existing boiler at its transitional housing facility located at 1035 N. Superior Street in Toledo. The project includes demolition of the existing unit, installation of a new, 95% high efficiency boiler as well as reconnection of piping and electric. Aurora Project, Inc. expects to assist 48 households during the 12-month grant period.

COHHIO – \$165,000

COHHIO will conduct quarterly Ohio Preservation Network meetings for housing preservation stakeholders, assist 2,000 callers from the Housing Information Line with information about fair housing and/or reasonable modifications/accommodations requests, conduct twelve housing training and technical assistance opportunities in-person or through webinars, continue creating the youth housing standards for the Balance of State, and provide six training and technical assistance opportunities for ways to bridge housing, services, and supports for homeless transition aged youth, in addition to prioritizing homeless youth and young adults in CoC planning, to provide best practice housing strategies and interventions.

COHHIO – \$250,000

COHHIO will improve, expand, and manage existing regional and local coordinated entry systems and processes in alignment with the Ohio Balance of State Continuum of Care Coordinated Entry Systems Standards, implement an evaluation plan of regional coordinated entry systems, and provide 40 homeless and affordable housing program trainings regarding Continuum of Care, Housing Crisis Response, Supportive Housing, and Transition Aged Youth programs, evidence-based practices, and deliver technical assistance on-demand through site visits, coalitions, workshops and seminars, and meetings.

Habitat For Humanity – \$200,000

Habitat For Humanity of Ohio will distribute \$180,000 to eligible affiliates throughout Ohio to construct/rehabilitate 20 single family homes benefitting 60 persons. Each benefitting family will have income at or below 50% of the area median income and provide sweat equity. This \$200,000 grant will leverage \$1,020,000 of other funds, labor, and materials. Since 2004, Habitat for Humanity affiliates have used this funding to build over 220 homes for over 500 individuals. The grant has allowed Habitat for Humanity of Ohio to leveraged over \$10 Million through volunteer labor, financial contributions and in-kind donations.

Liberty Center Sandusky County – \$16,900

The Liberty Center will use grant funds to replace the shelter's only first-floor, mobility-accessible shower, as well as an air conditioner on the first floor where residents receive case management and where mobility-impaired clients receive shelter. The agency expects that the project will impact 120 households.

Licking County Housing – \$125,000

Licking County Coalition for Housing (LCCH) will provide rapid re-housing assistance and case management to families throughout the 80-county Balance of State region. LCCH will coordinate with existing emergency shelters in this region to determine household eligibility as part of HUD's Family Homelessness Demonstration Program that requires persons to have at least one dependent child and to have been homeless for at least seven days. The program expects to assist 400 households consisting of 920 persons during the two-year grant period. LCCH's program provides improved customer services by partnering with local agencies that provide additional services and enable local gaps to be filled. Grant funds will be used for limited administrative costs and supportive services, including case management.

Ohio CDC Association – \$130,000

The OCDCA VISTA Project demonstrates innovation through its unique relationship with CNCS. OCDCA exists as an intermediary for CNCS by placing VISTA Members at OCDCA member sub-sites across the state of Ohio. Each VISTA recruitment round OCDCA releases and selects sub-site organizations through a competitive request for proposal (RFP) process that evaluates member organizations interested in seeking VISTA Member support. VISTA recruitment occurs after sub-site selection with VISTA placement at the sub-site organization to follow. OCDCA was recently approved for the grant continuation of 39 VISTAs, the greatest amount to date, from the CNCS Ohio State Office to serve CDCs across the state from Summer 2017 – Summer 2018. Ten (12) of the 39 VISTA slots are designated as Cost-Share VISTAs. Two (2) of the cost-share slots comes from United States Agriculture Department (USDA) funding for rural community development initiatives. Cost-Share VISTAs provide OCDCA the leverage for 27 more slots.

Ohio CDC Association – \$91,300

The program will provide participants with case management, personalized financial planning, credit counseling, financial coaching training, homebuyer education, and post-purchase counseling. Savers will save between \$500 and will receive an 8:1 match to provide down-payment and assist with reasonable closing costs. To be eligible, participants must be first-time homebuyers, earn less than 200% of the federal poverty line, and have less than \$10,000 in net assets (as defined by the Assets for Independence Act). 26 enrollees are expected to complete the required financial literacy training workshop, and 26 individuals are expected to purchase a home.

Purpose

The Ohio Coal Development Office was established in 1984 to address the environmental impediments to Ohio coal utilization. The office provides support for research projects that address the needs of the Ohio coal industry. Research and Development projects supported by the office develop technology that will utilize Ohio coal in an environmentally sound manner and will:

- Help meet new and existing federal regulations.
- Allow fuel and electricity prices to remain low and stable.
- Ensure that infrastructure and investments are not stranded and retired early, helping to ensure that Ohio's electric generation fleet remains diversified.

Governor John Kasich, working with energy stakeholders — from energy producers to environmentalists to energy consumers, developed a comprehensive energy policy for Ohio. One of the 10 pillars addresses coal. It says:

“Ohio is rich with coal, and it’s a critical resource for our state’s energy needs. However, it’s important that we pursue new technologies that reduce coal’s impact on the environment.”

A tugboat moves barges filled with coal on the Ohio River.

Established under Section 1551.35 of the Ohio Revised Code, the Ohio Coal Technical Advisory Committee is an 11-member group that reviews and makes recommendations concerning Ohio coal research and development project proposals, governance matters and other topics related to Ohio coal development. Six of the members are appointed by and serve indefinitely at the pleasure of the Director of the Ohio Development Services Agency, four members are appointed by the General Assembly, serving for the duration of the term in office, and one ex officio member is from the Ohio Environmental Protection Agency.

The current members of the Ohio Coal Technical Advisory Committee are:

- | | |
|---|---|
| • Larry Ward, United Mine Workers of America | • Representative Al Landis, Ohio House of Representatives |
| • Commissioner Thomas Johnson, Public Utilities Commission of Ohio | • Representative Jack Cera, Ohio House of Representatives |
| • James J. Reuther, former Battelle employee, Non-university Research and Development | • Craig Butler, Director, Ohio EPA, Ex-Officio |
| • Timothy Riordan, American Electric Power, Electric Utilities | • Vacant, Ohio Senate |
| • Joseph Shields, Ohio University, State University Research and Development | • Senator Troy Balderson, Ohio Senate |
| • Michael Carey, Murray Energy Corporation, Coal Production Company | |

Programs

Article VIII, Section 15 of the Ohio Constitution authorizes the state to issue bonds and other obligations to support coal research and industry development. Additionally, the state may take an equity position and accept royalty payments for funded technology that reaches commercialization.

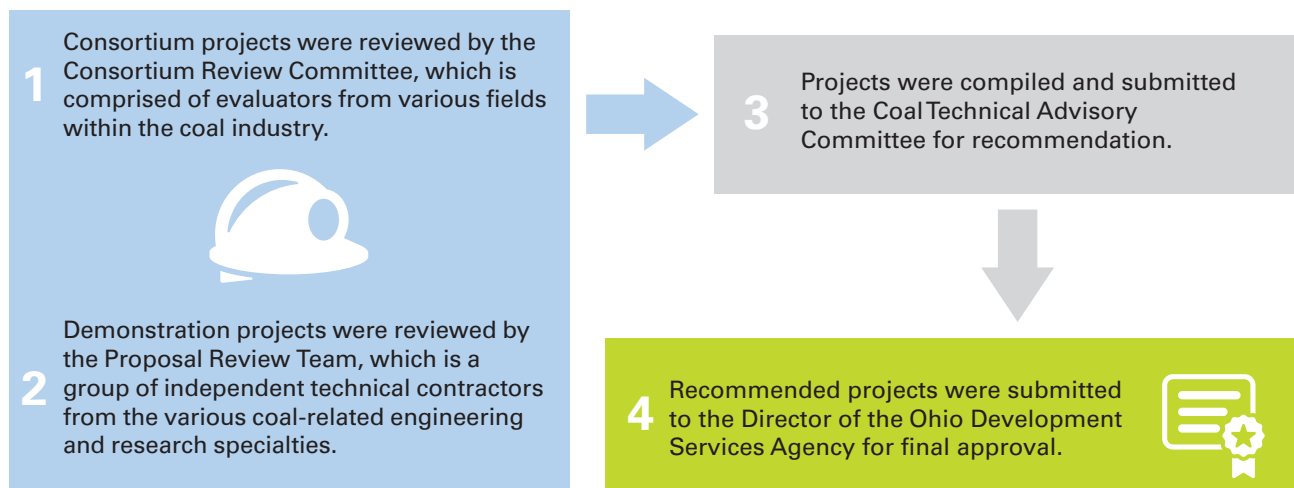

Funding priority was given to projects that provide:

- Improvements or reconstruction of existing facilities and equipment.
- Construction and operation of commercial-scale demonstration facilities.
- Technologies, equipment and other techniques that maximize the use of Ohio coal in an environmentally acceptable and cost-effective manner.

The Ohio Coal Development Office encumbered more than \$8.1 million through the Ohio Coal Research and Development Program during Fiscal Years 2017–2018. This program provided funding for research and development of technology that results in the maximum conversion or use of Ohio coal as a fuel or chemical feedstock in a cost-effective manner. Projects in the program were divided into two initiatives: the Coal Demonstration and Pilot grants and the Coal Research Consortium grants.

For both initiatives, projects were received through a Request for Proposal process. Once projects were received, they were reviewed by a third-party evaluator. Qualified proposals were submitted to the Ohio Coal Technical Advisory Committee for recommendation. The Ohio Coal Technical Advisory Committee then recommended projects for funding to the Director of the Ohio Development Services Agency.

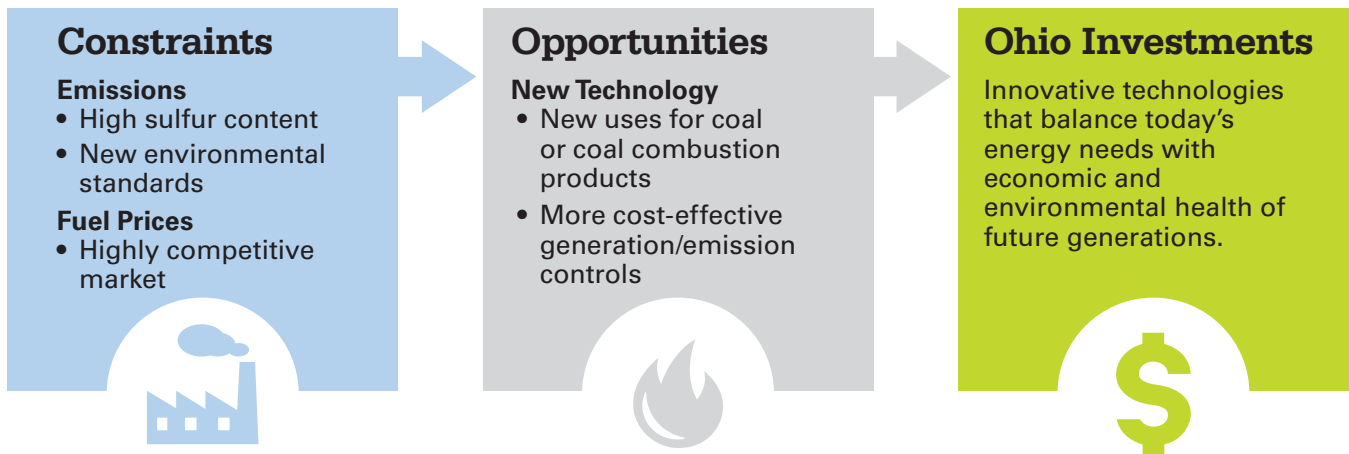

- Ohio Coal Demonstration and Pilot Program provided grants for the discovery and implementation of new technologies to utility power producers, technology developers, research and development firms, and Ohio colleges and universities. Funding can be applied toward research or the demonstration of technologies that enable better, more cost-effective utilization of Ohio coal under current and anticipated environmental regulations.
- Ohio Coal Research Consortium provided grants to Ohio colleges and universities to study mechanisms related to emission formation and methods of control. Additionally, funding can be used for researching feasible uses of coal as a chemical feedstock or for other purposes.

Market Opportunities and Constraints

As environmental regulations place constraints on the use of Ohio coal, new technologies are being deployed to reduce the environmental impact of coal.

The Ohio Coal Development Office continues to invest in innovative technologies that will balance today's energy needs with economic and environmental health. Investments through the office focus on technologies that provide affordable solutions to capturing and reducing pollutants, so that power plants can operate longer and electricity can be less expensive, more diversified and more stable.

New Technology for Ohio Coal

The Ohio Coal Development Office invests in technology to create new markets for Ohio coal (Ohio Coal-based Composite Plastics), cost-effectively reduce carbon dioxide emissions (Coal-to-Liquids for Jet Fuel), capture emissions from coal-fired generation (Capture of Heavy Metals and Wastewater Recovery), and address CO₂ storage options. The goal of the program is the commercialization of technologies and adoption of technologies by the market. The following are projects in which the office invested over the past two years.

Recovery of Rare Earth Elements from Coal

Rare earth elements are required for many modern applications including semiconductors, sensors, rechargeable batteries, catalysts and magnets. There are currently no mines or production facilities for rare earth elements in the United States. This leaves the U.S. wholly dependent on foreign sources for these strategic and critical materials. Approximately 80 percent of rare earth production occurs in China. Battelle Memorial Institute developed a process to recover rare earth elements from coal ash generated by power generation facilities using acid digestion.

Residual coal ash prior to rare earth extraction testing.

Reclamation of Ohio Coal Mine Sites Using Coal Combustion Products

Flue gas at most Ohio electric generation units are scrubbed to remove sulfur dioxide. This produces a large amount of byproduct material that needs to be placed in a landfill. The Ohio State University sought to show that this material and fly ash (that is produced during the combustion of coal for electric generation) could be used to improve the environmental quality, land use and safety of previously disturbed mined lands located in Ohio. One portion of the project was conducted at American Electric Power's (AEP) Conesville coal-fired power plant and demonstrated the beneficial use of 1.7 million tons of coal combustion materials to help reclaim abandoned mine land. The project also conducted multi-year tests at AEP's Cardinal power plant for mine reclamation and conducted tests at AEP's Gavin Plant using coal combustion material to reduce acid mine drainage impacts. Water quality was found to be similar to background levels and environmentally benign for these demonstrations. The project showed that coal combustion materials could be used to provide an economically feasible and environmentally viable alternative to landfill disposal, which promotes the continued use of Ohio coal.

(Pictured left to right) Professor Tarunjit Butalia (OSU), John Massy-Norton (AEP), OSU President Michael Drake, and State Representative Al Landis during a tour of AEP's former surface mine that used coal combustion products to help reclaim the land.

Ohio Coal-based Composite Plastics

Ohio University had previously demonstrated that a combination of Ohio coal and thermoplastic resin has similar physical properties to commercially available wood plastic composites. Now the team at Ohio University is improving the performance of the product to meet commercial decking composite specifications, increasing its opportunity for commercialization, and creating a new market for Ohio coal.

Ohio University coal plastic composite materials; including source coal, compounded coal plastic composite material, and specimens for testing.

Lakin Phillips, a graduate student, works on the Ohio Coal based Composite Plastics project. Phillips received a Master's degree from Ohio University in Fall 2017.

Coal-to-Liquids for Jet Fuel

Battelle Memorial Institute has demonstrated a direct coal-to-liquids process for producing jet fuel from biomass-derived coal solvents. The new process offers a significant reduction in capital and operating costs and a substantial reduction in greenhouse gas emissions compared to coal-to-liquid production using the Fischer-Tropsch process. Furthermore, a detailed economic analysis showed that the jet-fuel selling cost at the refinery using the Battelle coal-to-liquids process is \$61/bbl (\$1.45/gallon), and it produces less greenhouse gas emissions compared to jet fuel that is produced from petroleum.

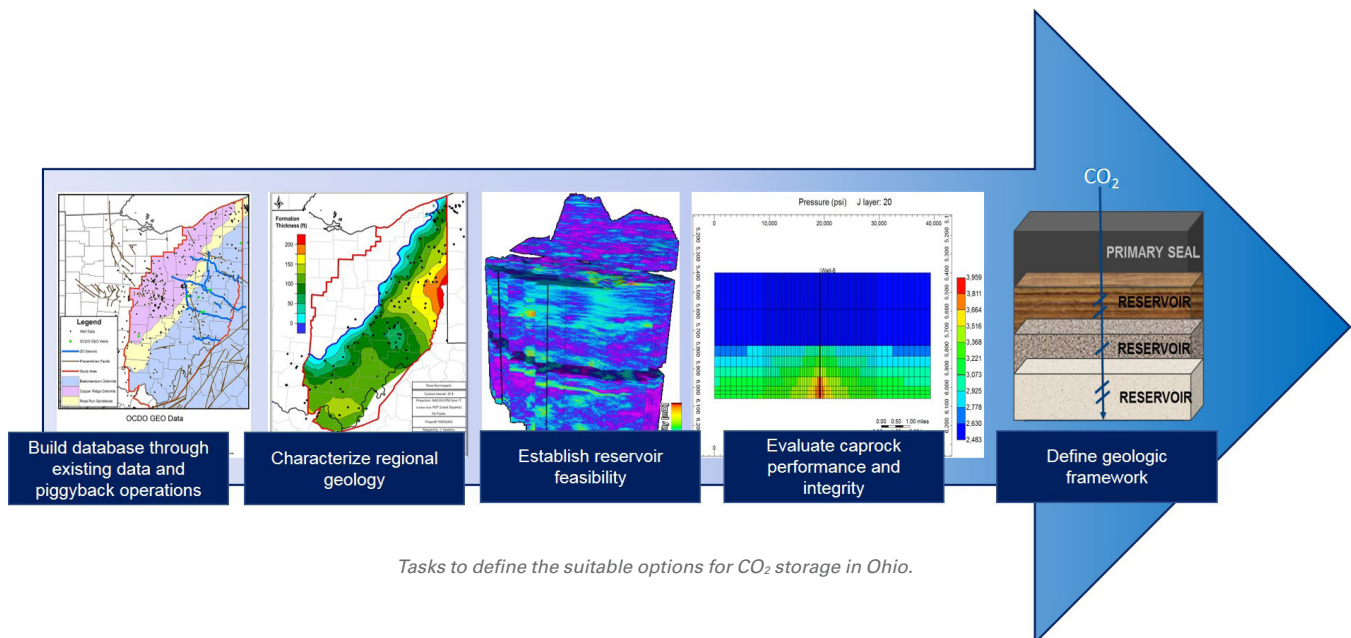

Quantex pre-pilot plant facility used to produce liquefied coal (syncrude) for Coal-to-Liquids for Jet Fuel project.

Capture of Heavy Metals and Wastewater Recovery

The University of Cincinnati tested the feasibility of a membrane technology to recover coal-fired power plant wastewater while also removing heavy metals. The project showed the ability of the membrane to recover 90 percent of clean water from wastewater while simultaneously concentrating residual heavy metals 10-fold so that it could be captured, reducing the impact of these heavy metals on the environment.

CO₂ Storage Assessment

Battelle Memorial Institute completed a multi-year study of Ohio's carbon dioxide capture utilization and storage potential. It concluded that Ohio has the geologic storage capacity for several decades worth of CO₂ emissions from all fossil-fueled power plants located in Ohio. Detailed mapping and capacity estimates have narrowed down potential geologic storage areas and have primed the pump for future site-specific investigations.

Future Investment

The Demonstration and Pilot Program targets investment in coal-related technologies. The priorities are listed below. Persons (individuals and businesses) doing business in Ohio or educational or scientific institutions that are located in Ohio are eligible to receive funding through this program.

Demonstration and Pilot Program RFP Priorities:

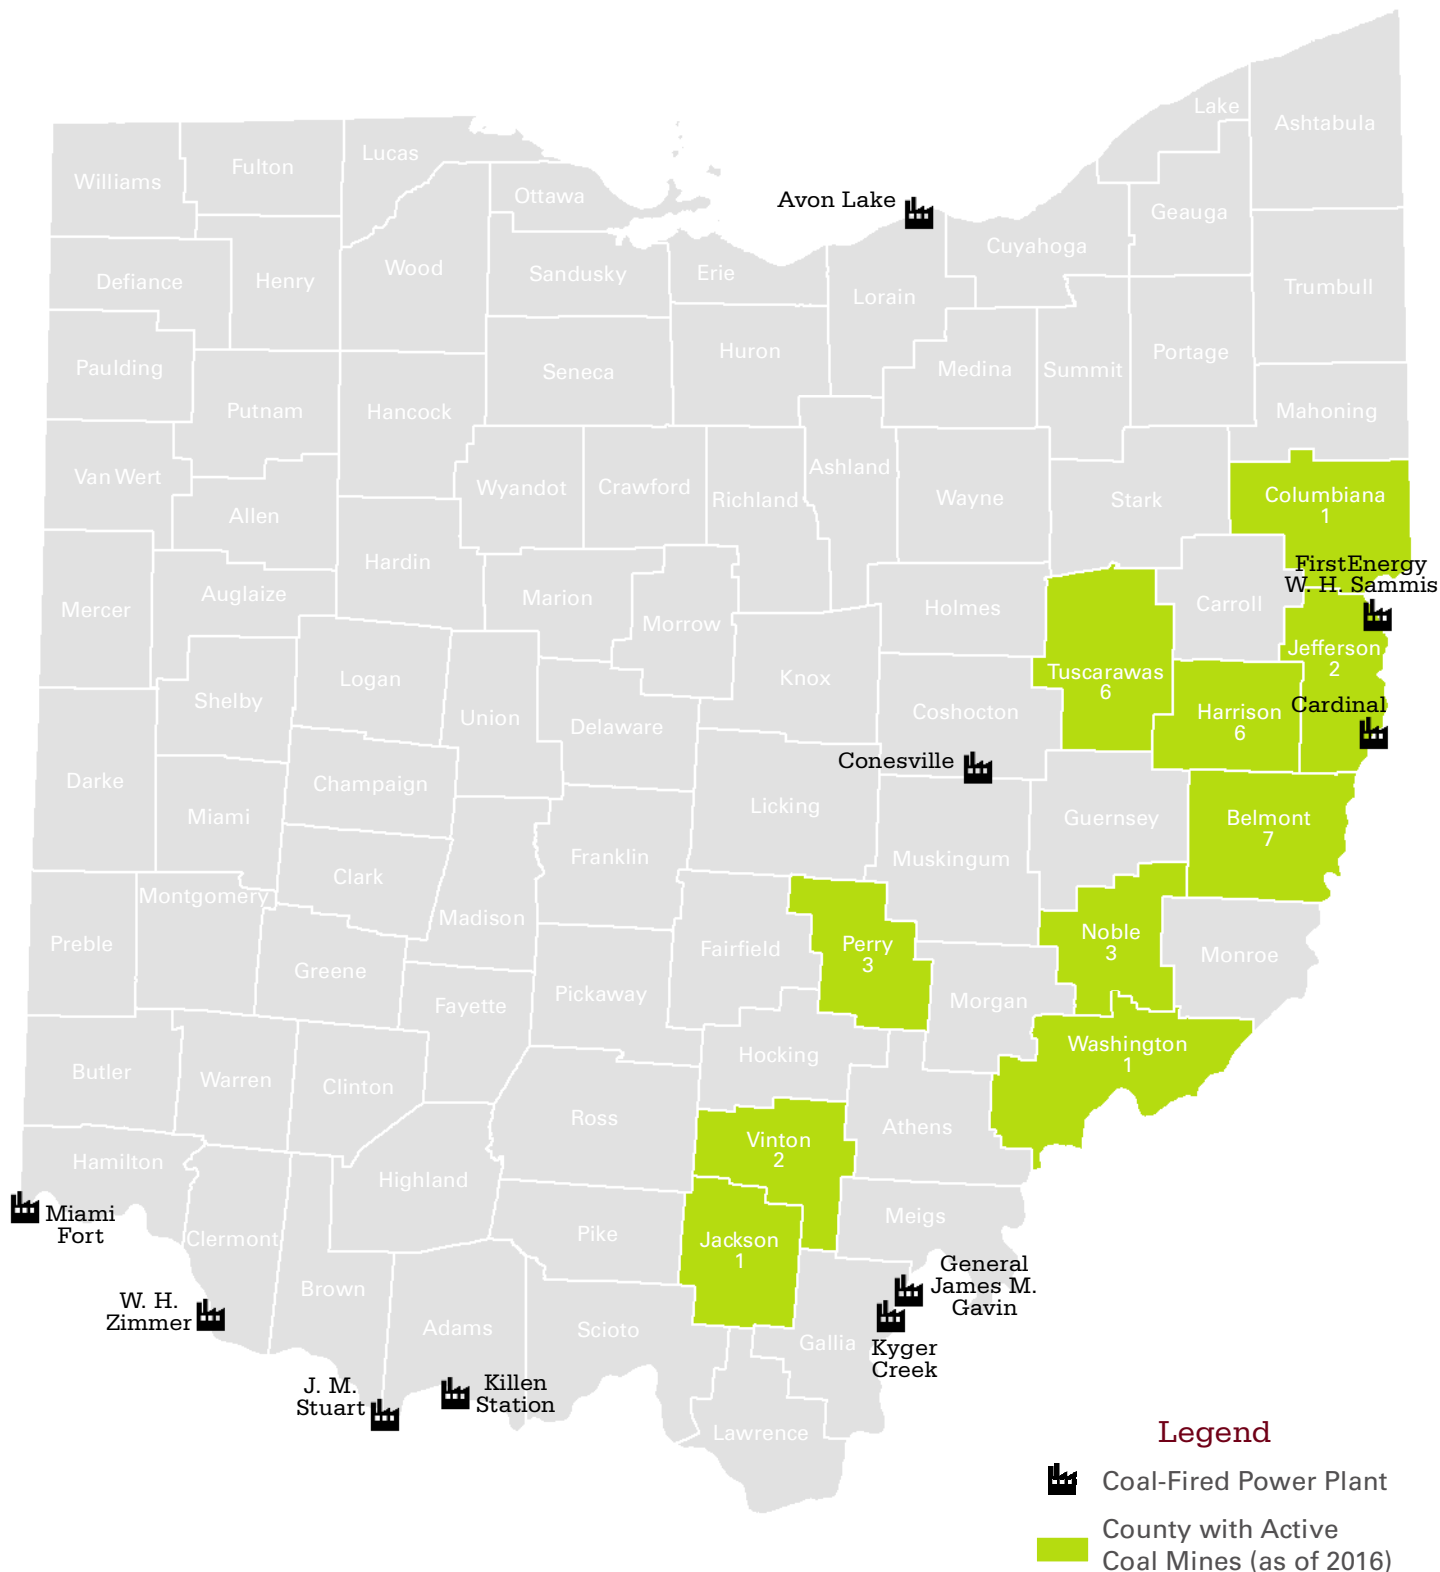

1. Development/deployment of advanced coal-based power and fuel producing systems (e.g. integrated gasification combined cycle, oxy-combustion systems, chemical looping systems, etc.) that will reduce carbon and other emissions and/or lower their cost of operation.
2. Improved technologies applicable to coal combustion technology systems: to increase generating efficiency in order to significantly reduce carbon dioxide emissions that also reduces the fixed costs and/or variable operating costs, maintenance costs, or other means for existing and new systems; and to reduce parasitic loads of pollution control technologies.
3. Cost-effective carbon dioxide capture and sequestration through improving capture technology and development of carbon dioxide transport mechanisms.
4. Analysis of the costs of retrofitting existing power plants with carbon dioxide capture technologies that are not “carbon capture ready”, compared to the costs of retrofitting facilities that are “carbon dioxide capture-ready.” Must include a commitment of data support from a major Ohio electric utility.
5. Coal technologies/processes that lower the cost of supplying the energy needs of Ohio’s industrial complex.
6. Cost-effective improved retrofit technologies to reduce emissions of criteria air pollutants, including sulfur dioxide, nitrogen dioxides/oxides, mercury and air toxins.
7. Improved technologies/processes that enable the more efficient conversion of Ohio coal to a chemical feedstock, liquid, or gas.
8. Coal combustion products: High volume fly ash and flue gas desulfurization utilization that reduces liability/disposal costs (excluding projects related to agricultural augmentation with FGD gypsum). These projects must clearly show the economic and annual usage volume advantages over current end uses.
9. Analysis of the potential impact on the Ohio coal industry of increased electrification of the ground transportation sector and identification of opportunities to advance Ohio coal so that the state can optimize environmental and economic benefits.

These program priorities take into consideration the needs of the Ohio coal industry in the face of existing and proposed environmental regulations, including the market realities of competing fuel sources, with input from Ohio Technical Advisory Committee members and industry stakeholders. Moving forward the Ohio Coal Development Office will focus its resources on demonstration and pilot projects that have potential for commercialization and adoption by the market.

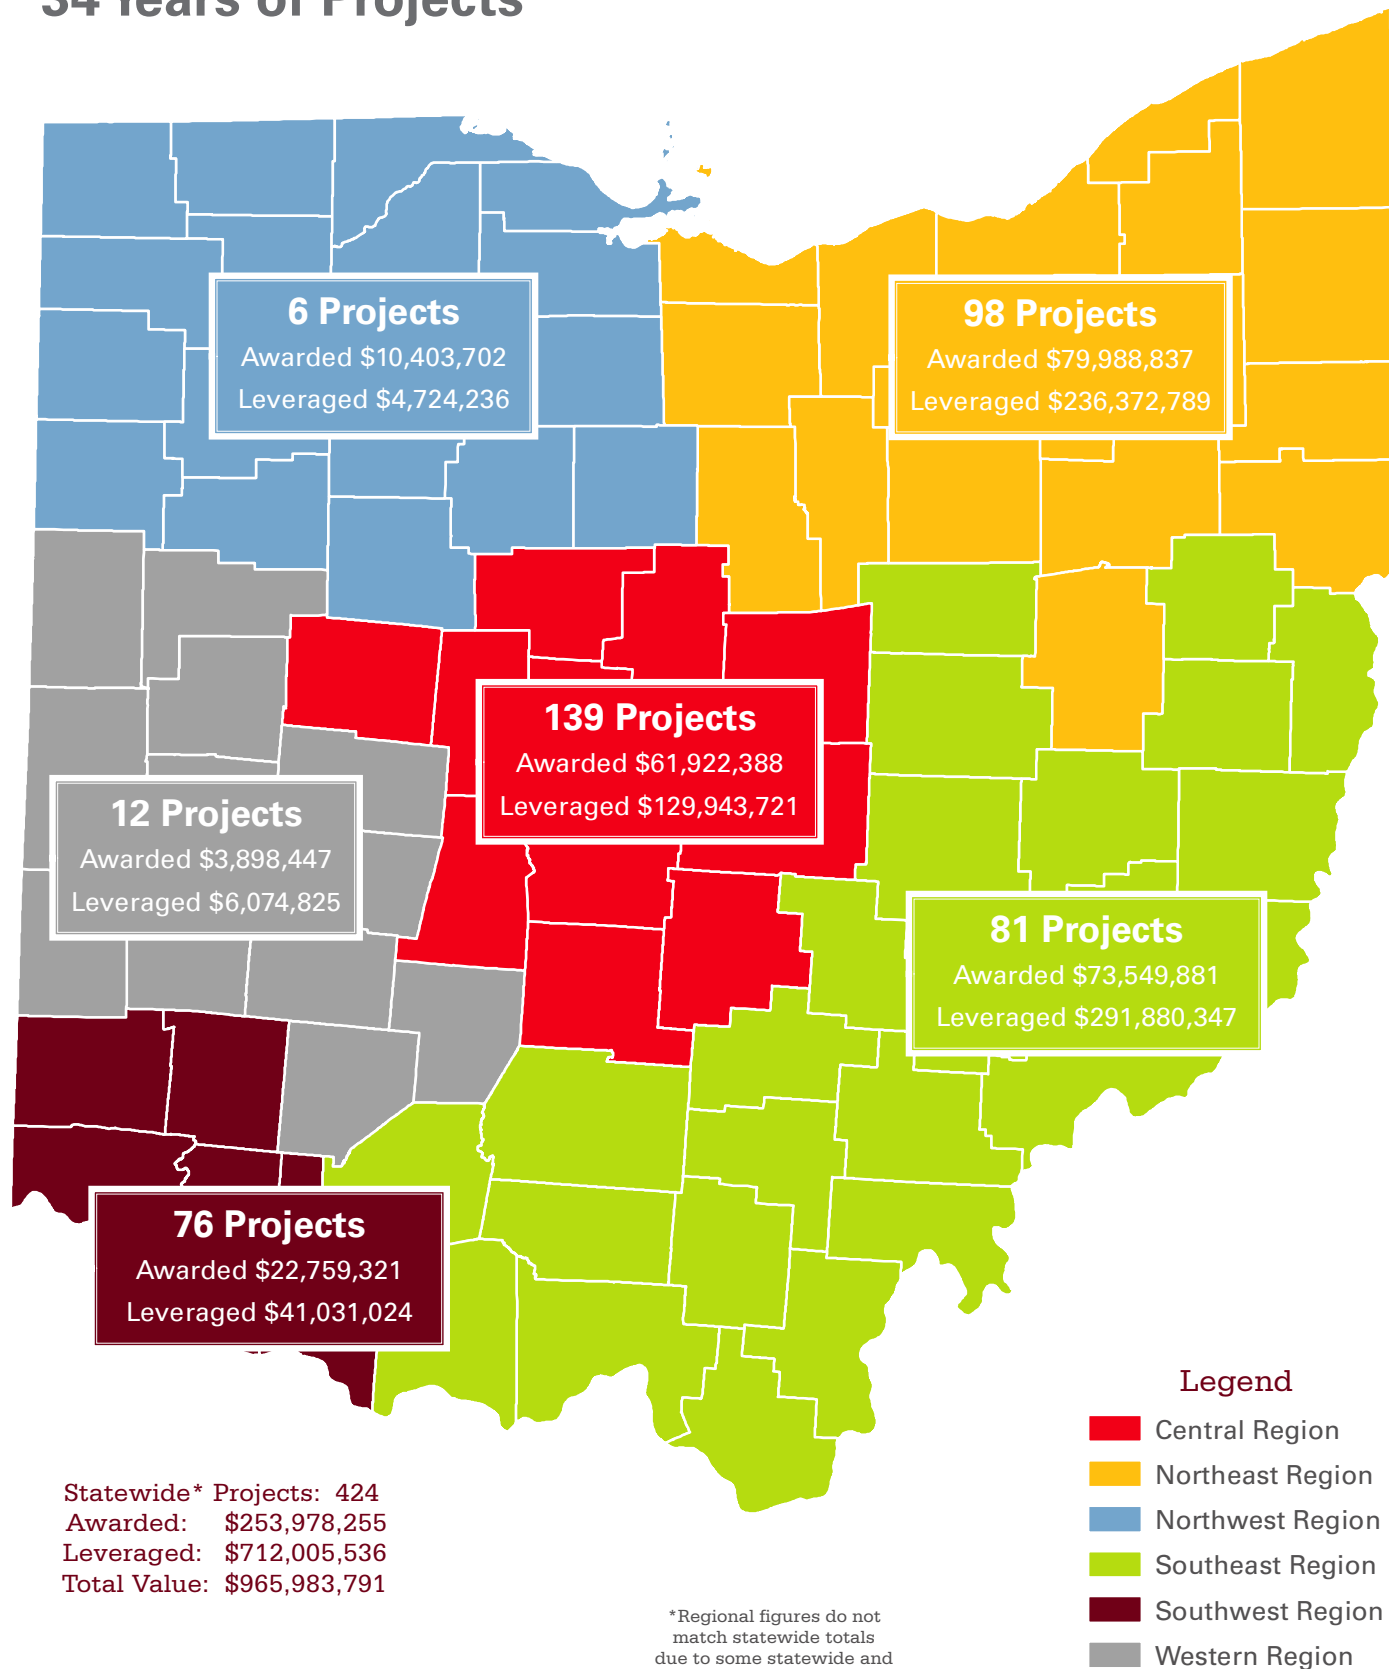

A river barge with loads of coal passes under the Daniel Carter Beard Bridge on the Ohio River in Cincinnati.

Coal-Fired Power Plants and Counties with Active Coal Mines

The number indicates how many active coal mines are in each county as of 2016.

Appendix D
Criteria Used to Select Office's Specific Types of Projects

Ohio Coal Demonstration and Pilot Program Proposal Evaluation Sheet
--

Each section of scoring is based on a scale of 0 to 5, where 0=unacceptable, 3=average, and 5=excellent. For the total score, the weighting factors for each of the individual sections are combined out of a total of 100 points.

Score		Weighting Factor		Weighted Score	Maximum Score
-------	--	------------------	--	----------------	---------------

Technical (40 Points)

1.	Clarity and specificity of objective(s)		x	1.5	=		7.5
2.	Technical merit		x	3.0	=		15
3.	Statement of Work		x	1.5	=		7.5
4.	Addressing of environmental issues		x	2.0	=		10

Financial/Experience (35 Points)

5.	Reasonableness of the budget		x	2.0	=		10
6.	Cost-share		x	2.0	=		10
7.	Technical and management competence		x	3.0	=		15

Marketability (25 Points)

8.	Applicability to Ohio coal/likelihood of market		x	2.0	=		10
9.	Identification of issues/cost effectiveness		x	1.0	=		5
10.	Marketing plan		x	1.0	=		5
11.	Use of Ohio coal		x	1.0	=		5

Weighted Total Score

100

Ohio Coal Research Consortium Program Proposal Evaluation Sheet

Criterion 1:

The overall merit of the proposed project (0 to 5 points). The research represents a significant contribution to expanding the base of knowledge in the defined focus area. The proposed approach is innovative and represents a significant departure from state-of-the-art approaches to the described problem and has the potential to significantly increase the use of Ohio coal in an environmentally acceptable manner. An awareness of the current state-of-the-art in related areas of coal research is demonstrated.

Criterion 2:

The proposal contains a preliminary capital and total annual cost analysis of the process as configured (0 to 5 points). The basis shall be 7,446 hours of operation per year, 500 MW equivalent if electric generation is the purpose or 250 tons of coal per hour if a byproduct or other product is the objective.

Criterion 3:

The stated objectives and feasibility of achieving those objectives (0 to 5 points). The application clearly addresses a problem, concept or question described within the research areas defined above. A well-defined, logical statement of work is provided to effectively address the technical issues. An approach is described that is scientifically sound, well planned and uses current methods (or methods adequate to solve the problem) in the investigation.

Criterion 4:

Leveraging of cost sharing funds from industry or government sources (0 to 3 points). One goal of the OCRC program is that OCRC support will be used as cost share in proposals submitted to other sources of government and industrial funding. The college/university would be expected to maintain its cost share at 20 percent (or greater) of ODSA's contribution to the project. The outside funds would be used to either expand the program or reduce ODSA's contribution to the project. Executive summaries of companion proposals must be attached as an appendix to demonstrate the attempt to leverage third party funding. ODSA staff will assign scores on this criterion as follows:

Points	Criteria Description
0	No effort was made to obtain outside funding
1	Project can demonstrate attempt(s) were made to receive outside funding, but were declined
1	Project can demonstrate attempt(s) were made to receive outside funding, but have not received a decision
3	Project has received outside funding

Criterion 5:

The facilities or specialized equipment and techniques are available to the PIs to meet the project objectives (0 to 2 points). Zero if key equipment or techniques are not available or not included in the list of equipment to be purchased by the project. Two points if equipment is available.

Criterion 6:

Publication of research in peer-reviewed journals and applications for patents (0 to 2 points). For projects that have received OCRC funding for a number of years, it is expected that by the end of the third year that a paper has been submitted to a peer-reviewed journal for publication and/or a patent application has been filed. Reviewers will assign scores on this criterion as follows: two for the filing of a patent application; or two for peer-reviewed paper submissions for publication; and zero if after completion of three years of work, no patent application has been filed and a peer-reviewed paper has not been submitted for publication.

Criterion 7:

Relevance (0 to 3 points). The project has a high transferability to consumers of Ohio coal, will lead to increases in the use of Ohio coal in an environmentally acceptable manner and has the potential to improve Ohio’s economy.

Criterion 8:

Applicability (0 to 2 points). Overall how well the project relates to each the four purposes of the OCRC listed on page 2 and 3 of the RFP.

Criterion 9:

Collaboration (0 to 2 points). Demonstrated financial and/or strategic partnerships with industry producers and/or end users that will increase the likelihood that the technology/results of the project will have a pathway towards further development and eventual field deployment.

Final Scoring – based upon completeness of proposal and supporting documentation provided	
1. Overall merit	____ (0 to 5 Points)
2. Capital and total annual cost analysis	____ (0 to 5 Points)
3. Objective feasibility	____ (0 to 5 Points)
4. Leveraging	____ (0 to 3 Points)
5. Equipment and techniques availability	____ (0 to 2 Points)
6. Publication and patent applications	____ (0 to 2 Points)
7. Relevance	____ (0 to 3 Points)
8. Applicability	____ (0 to 2 Points)
9. Collaboration	____ (0 to 2 Points)
Total Score	____ (0 to 29 Points)

Appendix 9

Community Services Block Grant Program Summary

Ohio Community Action Agencies' Performance Outcomes

The efforts and outcomes of CSBG are monitored through six national goals. These goals were designed to highlight the achievements of the programs, as well as monitor success in three areas:

promoting self-sufficiency, family stability, and community revitalization.

Below is how Ohio performed in 2017.

GOAL 1 Low-income people become more self-sufficient

50% OF PROGRAM PARTICIPANTS OBTAINED AN INCREASE IN EMPLOYMENT INCOMES AND/OR BENEFITS

50 PROGRAM PARTICIPANTS PURCHASED A HOME WITH INDIVIDUAL DEVELOPMENT ACCOUNT FUNDS OR OTHER SAVINGS

1,905 PROGRAM PARTICIPANTS OBTAINED A JOB

GOAL 2 The conditions in which low-income people live are improved

39,000+ COMMUNITY MEMBERS PARTICIPATED IN COMMUNITY REVITALIZATION AND ANTI-POVERTY INITIATIVES

179+ ACCESSIBLE, SAFE AND AFFORDABLE CHILD CARE OR CHILD DEVELOPMENT PLACEMENT OPPORTUNITIES FOR LOW-INCOME FAMILIES CREATED OR SAVED FROM REDUCTION OR ELIMINATION

51 NEW INITIATIVES FOR ACCESSIBLE, NEW OR EXPANDED TRANSPORTATION RECOURCES WERE CREATED

GOAL 3 Low-income people own a stake in their community

1.4M+ LOW-INCOME RESIDENTS VOLUNTEERED IN THEIR COMMUNITIES

59 LOW-INCOME RESIDENTS PURCHASED THEIR OWN HOME IN THEIR COMMUNITY AS A RESULT OF COMMUNITY ACTION ASSISTANCE

800+ LOW-INCOME RESIDENTS PARTICIPATED IN FORMAL COMMUNITY ORGANIZATIONS, GOVERNMENT, BOARDS OR COUNCILS THAT PROVIDE INPUT TO DECISION-MAKING AND POLICY SETTING IN THE COMMUNITY

GOAL 4 Partnerships among supporters and providers of services to low-income people are achieved

6,900+ ORGANIZATIONS, BOTH PUBLIC AND PRIVATE, DEVELOPED PARTNERSHIPS TO EXPAND RESOURCES AND OPPORTUNITIES TO ACHIEVE FAMILY AND COMMUNITY OUTCOMES

GOAL 5 Agencies increase their capacity to achieve results

158,000+ HOURS DEDICATED BY COMMUNITY ACTION AGENCIES TO TRAINING LOCAL GOVERNING BOARDS, WHICH SUPPORT EFFORTS IN PROVIDING SERVICES IN THE COMMUNITY

GOAL 6 Low-income people, especially vulnerable populations, achieve their potential by strengthening family and other supportive systems

550,000+ INDIVIDUALS PROVIDED EMERGENCY FOOD SERVICES

100,000+ INDIVIDUALS PROVIDED EMERGENCY TRANSPORTATION SERVICES

12,000+ CHILDREN OBTAINED AGE APPROPRIATE IMMUNIZATIONS, MEDICAL AND DENTAL CARE

Community Services Block Grant Snap Shot

MORE THAN 590,000
INDIVIDUALS AND 240,000
FAMILIES WERE SERVED IN 2017

MORE THAN 12,000 INFANTS AND
CHILDREN OBTAINED IMMUNIZATIONS,
MEDICAL, AND DENTAL CARE

**MORE THAN
1.6 MILLION VOLUNTEER
HOURS DONATED**

MORE THAN 380,000
BOXES OF FOOD WERE PROVIDED
TO FAMILIES IN NEED

MORE THAN 1.1 MILLION
RIDES WERE PROVIDED TO INDIVIDUALS OR FAMILIES

If you have questions about the Community Services Block Grant, please contact **Toski Flemister**, CSBG Manager at (614) 466-4394 or at Toski.Flemister@development.ohio.gov
