

Notice of Intent (NOI) Instructions for coverage under Ohio EPA Industrial Storm Water General Permit (OHR000005)

What is a NOI Application Form?

NOI stands for Notice of Intent. It is a one-page application form to request initial coverage or to renew coverage under a general permit. The applicant must certify their intention to comply with a general permit by submitting a complete NOI. The application shall be submitted to Ohio EPA's Central Office.

Who Must File an Industrial Storm Water NOI Application Form?

Any discharge of water, with certain exceptions for storm water, from a point source must be covered by a permit from Ohio EPA. Federal regulations at 40 CFR 122 and the Ohio Revised Code at section 6111.04 prohibit point source discharges to waters of the state without first obtaining a National Pollutant Discharge Elimination System (NPDES) permit. This includes point source discharges of storm water associated with industrial activity.

Consistent with federal regulations [40 CFR 122.26(b)(14)(i)-(xi), OAC 3745-39-04(B)(15)] identifies 11 categories of storm water discharges associated with industrial activity that are subject to NPDES storm water permitting. Subject facilities are required to obtain NPDES permit coverage or certify a condition of no exposure. There are two types of NPDES permits; 1) individual permits and 2) general permits. A facility with a discharge must apply for one of these permits using either this NOI application form (for industrial storm water general permit coverage) **OR** Form 1 and the appropriate supplementary forms (for an individual permit, which can be written for any type of discharge). If a facility applies for coverage under this general permit, and if all of the eligibility requirements of this general permit are not met, the facility will be required to submit an application for an individual permit. If a facility is eligible to be covered under the general permit and has additional waste streams that are not covered by this general permit, it is preferred that all discharges be covered by one permit (i.e., the individual permit).

Each applicant must meet the eligibility requirements found in Part 1.1 of the NPDES industrial storm water

general permit. Do not submit the NOI application form unless you meet all of those requirements.

Where to File NOI Application Form?

The application is required to be submitted online in the Ohio EPA eBusiness Center. If unable to send online, thus demonstrating a hardship, hard copies may be mailed to:

Ohio Environmental Protection Agency
Office of Fiscal Administration
P.O. Box 1049
Columbus, OH 43216-1049

Completing the Form?

All responses must be typewritten or printed legibly in the appropriate areas only. Please place each character slightly above the appropriate line on the NOI application form. If necessary, abbreviate to stay within the space allowed for each item. Use only one space for breaks between words. Do not include any symbols or punctuation marks unless otherwise noted in these instructions. Each NOI application form must be accompanied by a \$350.00 check for payment of the application fee. **Be sure to read the instructions printed at the top of NOI application form before completing the form. NOIs transmitted by FAX will not be accepted. Incomplete NOI application forms, including those submitted without the application fee, will be returned to the applicant for resubmission.**

Section I. Applicant Information/Mailing Address

- **Company Name:** Fill in the legal name of the firm, person, public organization, or other entity that operates the facility or site described in this application. The name of the operator may or may not be the same as the facility. The company name is the name of the responsible party that is the legal entity that controls the facility's operation rather than the plant or site manager.
- **Mailing Address:** Enter the complete mailing address; including street address, city, state, and zip code. The permit and any correspondence will be mailed to this address.
- **Contact Person:** Give the name of a contact person who is responsible for addressing NPDES requirements.
- **Phone and Fax:** Provide the contact person's phone

NOI Instructions - Industrial Storm Water General Permit (OHR000005)

and fax numbers.

- **E-Mail:** Enter the contact person's e-mail address.

Section II. Facility/Site Location Information

- **Facility Name:** Enter the facility or site's official or legal name. The facility/site is the location of the operation and discharge to be covered by the general permit. Do not use a colloquial name.
- **Facility Address/Location:** Enter the facility or site's complete physical address, including number and street, city/township, state, zip code, and county. **Do NOT** enter P.O. Box numbers.
- **Facility Contact Person:** Give the name of the person who is responsible for the facility/site.
- **Phone and Fax:** Provide the facility contact person's phone and fax numbers.
- **Facility Contact Email:** Provide the facility contact person's e-mail address.
- **Latitude/Longitude:** Provide the latitude and longitude of the facility on the NOI form. Your coordinates should be taken from the approximate center of the facility. The latitude and longitude must be provided in decimal format (6 decimals) as indicated in the following example (i.e., Latitude: 39.958832, Longitude: -83.001022). These coordinates can be determined through the use of global positioning system (GPS) receivers and web-based tools. An example of a web-based tool to determine your site's latitude and longitude is Google Maps. Here are instructions for Google Maps:
 - Go to <http://maps.google.com>
 - Zoom the map to the location of your site
 - Right-click on the map at the approximate center of your site
 - Select "What's here?" from the context menu
 - Left-click on the green arrow. The latitude and longitude of your site will be displayed in the box
- **Receiving Stream or MS4:** If a facility discharges directly to receiving water(s), enter the name of the receiving water. If the initial receiving water(s) does not have a name, then write as "unnamed tributary to" first subsequent water that has a name. It is important that the name of the receiving waterbody where the discharge directly goes is listed. If a facility discharges to more than one receiving stream, list all receiving streams (if necessary, attach a separate sheet of paper). An MS4 is defined as "a conveyance that is owned or operated by a state, city, town, township, county, district, association, or other public entity that is designed or used for collecting or conveying storm water." If you discharge storm water to an MS4, then enter the name of the operator of the municipal separate storm sewer system (MS4) (e.g. municipality name, county name, etc.).

Section III. General Permit Information

- **General Permit Number:** The general permit number for the NPDES industrial storm water general permit is OHR000005. This number is already on the form.
 - **Initial/Renewal Coverage:** The NOI form may be submitted to initiate first-time coverage under a general permit or to continue coverage under a renewed general permit. Place an "X" in the appropriate space.
 - **Existing NPDES Permit Number(s):** If the facility identified in Section II of this application has ever been issued an individual NPDES permit and/or general permit coverage(s), enter the (facility specific) permit number(s) here. In the case of an individual NPDES permit, give the permit number (e.g. 31A00555*AD). In the case where general permit coverage is being renewed, it is *extremely important* to give the individual Ohio EPA general permit identification number assigned in the previous approval for coverage letter received from Ohio EPA. An example of such numbers is: 0GR00999*DG.
 - **Primary SIC Code:** Identify the 4-digit standard industrial classification (SIC) code that best describes the principal product or services provided at the facility identified in Section II of this application. SIC code number may be found at the following website provided by the Occupational Health and Safety Administration:
<https://www.osha.gov/data/sic-search>
- For industrial activities identified in 40 CFR 122.26(b)(14)(i)-(ix) and (xi) by narrative description, use the following 2-character codes in the space provided:
- **HZ** = Hazardous Waste Treatment, Storage, or Disposal Facilities, including those that are operating under interim status or a permit under subtitle C of RCRA [40 CFR 122.26(b)(14)(iv)];
 - **LF** = All Closed Landfill, Land Application Sites and Open Dumps [40 CFR 122.26(b)(14)(v)];
 - **SE** = Steam Electric Generating Facilities, including coal handling sites [40 CFR 122.26(b)(14)(vii)]; or
 - **TW** = Treatment works treating domestic sewage or any other sewage sludge or wastewater treatment device or system used in the storage, treatment, recycling, and reclamation of municipal or domestic sewage [40 CFR 122.26(b)(14)(ix)].
- **Outfall Information (Complete only if subject to benchmark and/or effluent monitoring):**
 - **Outfall:** A number is provided to identify each outfall (example: 001, 002, etc.) associated with industrial activity. If you have six or more outfalls, please list the additional outfalls on an

NOI Instructions - Industrial Storm Water General Permit (OHR000005)

additional sheet. An outfall is the point source discharge of storm water leaving your site that will be entering a surface water body and does not enter a sewer system tributary to a publicly-owned sewage treatment plant. An outfall could be a pipe, ditch, channel, or other conveyance leaving your site.

- **SIC Code:** Provide the industrial SIC code for the area draining to the outfall. You can use the OSHA website address provided above to find the appropriate SIC code.
- **Subsector:** Identify the subsector for the industrial SIC code for the outfall. A list of SIC codes and the associated subsector is found in Attachment A. Check your subsector in Part 8 of the permit to determine if benchmark monitoring is applicable.
- **Effluent Limitations:** If an outfall will have discharges subject to any of the national storm water-specific effluent limitations guidelines listed in Part 1.1.2.4 of the permit, click onto the drop-down arrow and select the appropriate discharge. Possible industrial subsectors that may need to comply with federal effluent limitations are: A1, A2, A3, A4, A5, D1, E2, J1, J2 and O1. If federal effluent limitations are not applicable, select "Not Applicable" from the drop-down menu.
- **Latitude/Longitude:** Provide the latitude and longitude of the point of discharge (outfall). Provide coordinates as: degrees minutes seconds using 2 digits in each space; e.g. latitude 40 15 35, longitude -80 41 22; do not use symbols. You can follow the instructions provided above (see "Section II. Facility/Site Location Information, Latitude/Longitude on p. 3 of these instructions) to determine your outfall's coordinates.

Section IV. Payment Information

Payments should be made directly through the ePayment system in the Ohio EPA eBusiness Center. Alternatively, a \$350.00 check can be made payable to "Treasurer, State of Ohio" must accompany all NOI applications. The check number and check date must be on the NOI to ensure complete processing. Provide dates as: month day year using two digits in each space (e.g. September 28, 1994 = 09 28 94); do not use symbols. This fee can be found in paragraph (S)(1) of Ohio Revised Code (ORC) Section 3745.11.

Certification

Type or print the name and title of the person who will sign the form. Next, sign and date the form. Federal and State statutes provide for severe penalties for submitting false information on this application form. Federal regulations require this application to be signed as follows:

For a corporation: by a responsible corporate officer, which means: (1) a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation; or (2) the manager of one or more manufacturing, production, or operating facilities, provided, the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

For a partnership or sole proprietorship: by a general partner or the proprietor; respectively, or

For a municipality, state, or other public facility: by either a principle executive officer, the ranking elected official or other duly authorized employee.
