

Huron County

Management Agencies Responsible for Sewage Collection and Treatment (includes prescriptions for sewage treatment options)

The Agency’s review of water quality conditions and present wastewater facility needs indicates that large scale regional planning of sewer and treatment capacity is unnecessary at this time in northwest Ohio counties (see Chapter 8). The existing Management Agencies responsible for Publicly Owned Treatment Works in Huron County are listed below. The generic prescriptions regarding wastewater collection and treatment responsibilities reflect existing legal authorities and responsibilities under State laws and regulations (generic prescriptions found on page 3). Local communities may elect

to update facility planning information and request different specific prescriptions in subsequent State 208 Plan updates. Refer to the Introduction on page 1 for more information on the Table’s content.

In 2024, the Southern 5 Sewer District was established under Ohio Revised Code 6119. The Southern 5 Sewer District is the management agency for wastewater planning and providing sewere service within New Haven, Greenfield, Norwich and Richmond Townships.

Huron Co. Community	Management Agency / Type of Jurisdiction	Categories of Responsibility	Treatment Facility	Permit #	Defined FPA?	Map #	Comments / Applicable Prescriptions
