## **What does OAC Chapter 3745-1 cover and what do these rules do?**

Ohio Administrative Code (OAC) Chapter 3745-1 contains Ohio's standards for water quality. The rules in Chapter 3745-1 contain the following: terms and definitions; methods used to quantify water quality and the biological community; beneficial use designations including aquatic life, water supply, and recreation; numeric levels and narrative statements (water quality criteria) protective of the beneficial use designations; and an antidegradation policy.
