# College Scholarship Opportunities

*in environmental science and  
environmental engineering*

## Who is eligible?

Up to \$5,000 is available for students entering their final year in four-year and five-year programs. Up to \$2,500 is available to second year students in two-year degree programs at public or private technical and community colleges in Ohio.

## Majors we look for

environmental science	forestry
biology	geology
botany	laboratory sciences
chemistry	natural resource conservation
chemical, civil and environmental engineering	wildlife management
environmental health and safety	zoology and related fields

## Scholarship goal

Merit-based, non-renewable scholarships are offered to encourage students to complete degrees and enter careers in environmental science and engineering fields.

## Requirements

Applicants must have an overall GPA of at least 3.0 plus recommendation letters and evidence of career motivation.

## Application Deadline: April 15
