Ohio Educator Preparation Provider Performance Report

Muskingum University

Institution Profile

(Data Source: Muskingum University)

The mission of Muskingum University is to offer quality academic programs in the liberal arts and sciences in the setting of a residential, coeducational, church-related college and in the context of a caring community where individual fulfillment is encouraged and human dignity is respected. Its primary purpose is to develop intellectually, spiritually, socially and physically whole persons, by fostering critical thinking, positive action, ethical sensitivity and spiritual growth, so that they may lead vocationally productive, personally satisfying and socially responsible lives.

Educator Preparation Provider

Muskingum's purpose is to educate students through quality academic programs that prepare them to lead vocationally productive, personally satisfying, and socially responsible lives. The Department of Education offers a range of licensure and degree opportunities at undergraduate and graduate levels. Our faculty consists of professional educators known for teaching excellence, extensive professional experience, and innovative scholarship. For mutual benefit we work closely with LEAs, state agencies and IHEs on initiatives to enhance our programs for MU teacher and administrator candidates.

Ohio Educator Preparation Provider Performance Report
Muskingum University

**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared
by an Ohio Educator Preparation Provider at Muskingum University**

Reporting period from September 1, 2021 to August 31, 2022.
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2018, 2019, 2020 and 2021.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Completing Principal Preparation Programs at Muskingum University**

Reporting period from September 1, 2021 to August 31, 2022.

(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2017, 2018, 2019 and 2020.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Field and Clinical Experiences for Candidates at Muskingum University

Reporting period from September 1, 2021 to August 31, 2022.

(Data Source: Muskingum University)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs	
Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	N
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	114
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	219
Average number of weeks required to teach full-time within the student teaching experience at the institution	14
Percentage of teacher candidates who satisfactorily completed student teaching	98.8%

Principal Preparation Programs	
Field/Clinical Experience Element	Requirements
Total number of field/clinical weeks required of principal candidates in internship	52
Number of candidates who started internship	5
Number of candidates who completed internship	4
Percentage of principal candidates who satisfactorily completed internship	80%

**Value-Added Data for Students Taught by Teachers Prepared by
Ohio Educator Preparation Providers at Muskingum University**

Reporting period from September 1, 2021 to August 31, 2022.

Description of Data:

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2017, 2018, 2019 and 2020.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Pre-Service Teacher Survey Results

Reporting period from September 1, 2021 to August 31, 2022.

Description of Data:

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 2,514 respondents completed the survey statewide for a response rate of 51.6 percent.

Muskingum University Survey Response Rate = 160.78%

Statewide Survey of Ohio Resident Educators' Reflections on their Educator Preparation Program

Reporting period from September 1, 2021 to August 31, 2022.

Description of Data:

To gather information on alumni satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio Resident Educators who completed their preparation in Ohio receive an invitation to complete the survey in the fall semester as they enter Year 2 of the Resident Educator program. A total of 456 respondents completed the survey statewide for a response rate of 12.5 percent.

National Accreditation Status

Reporting period from September 1, 2021 to August 31, 2022.
(Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP).

Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Teacher Residency Program

Reporting period from September 1, 2021 to August 31, 2022.
(Data Source: Muskingum University)

Description of Data:

The Resident Educator Program in Ohio encompasses a robust four-year teacher development system. The data below show the persistence of Ohio Educator Preparation Provider graduates through the program.

Data from this table capture a year-to-year snapshot of the persistence of Ohio Educator Preparation Provider graduates through the program. Corrections to prior year reporting may be captured in the current year's reporting. Data used to create this "snapshot" table are sourced not only from the current year's resident educator completion data results, but also prior year results because a Resident Educator may fail to complete all the program year requirements within the same academic year.

Some of the scenarios addressed in the design of the table are as follows:

1. A normal scenario, where a student is reported each year and is listed as completed. In this case, we include them in only the Entering/Persisting counts for the current year.
2. A scenario where a student is reported as entering one year, but not as completed, but then reported the following year as completing the previous year and current year. In this case, we include them in the Persisting count for the previous year, but not the Entering count. We also include them in the Entering and Persisting counts for the current year.
3. A scenario where a student is not reported for one year, but reported with records for the previous year and the current year the following year (both as completed). In this scenario, we include them in both the Entering and Persisting counts for both years.
4. A scenario involving a registration fluke where a student completes Year 1 of the RE program with an issued RE license, but not an effective or valid license until the following school year. For example, a teacher has all the qualifications for a full license, but completed Year 1 under a sub-license (in which the work is counted) and Year 2 under a RE license.
