## Report Overview

Ohio recognizes that high-quality teachers come from high-quality teacher preparation programs. To help improve the quality of educator preparation programs in Ohio, H.B. 1 of the 128th General Assembly directed the Chancellor of the Ohio Department of Higher Education to develop a system for evaluating Ohio's educator preparation programs (ORC section 3333.048).

The Metrics Report requirements were developed in collaboration with the leaders of both the public and private educator preparation programs. Approved Ohio Educator Preparation programs are required to complete the report between October 1-November 30, annually.
Components of the Educator Preparation Reports

The Ohio Department of Higher Education works with the State Board of Education, the Department of Education and Workforce, and higher education institutions to collect data on the following identified metrics for the annual reports:
• Licensure Test Pass Rates
• Ohio Teacher Evaluation System (OTES) Results of Program Graduates
• Ohio Principal Evaluation System (OPES) Results of Program Graduates
• Value-added Data (EVAAS)
• Candidate Academic Measures Considered for Program Admission
• Field/Clinical Experiences
• Pre-Service Teacher Candidate Survey Results
• Resident Educator Survey Results
• Principal Intern Survey Results
• Principal Mentor Survey Results
• Resident Educator Persistence Data
• Excellence and Innovation Initiatives
• National Accreditation

Limitations of the Report
• Principal licensure pass rate data are reported by each institution and have not undergone the rigorous verification and matching process required by Title II.

**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers
Prepared by an Ohio Educator Preparation Provider at Cedarville University**

Reporting period from September 1, 2022 to August 31, 2023.
(Data Source: State Board of Education)

**Description of Data:**
Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Note that the data on this page is not a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:
1. The information in the report is for those individuals receiving their licenses within the previous four effective years.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

## Ohio Principal Evaluation System (OPES) Results for Individuals Completing Principal Preparation Programs at Cedarville University

Reporting period from September 1, 2022 to August 31, 2023.
(Data Source: State Board of Education)

**Description of Data:**
Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses within the previous four effective years.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

## Value-Added Data for Students Taught by Teachers Prepared
## by Ohio Educator Preparation Providers at Cedarville University

Reporting period from September 1, 2022 to August 31, 2023.

**Description of Data:**
Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:
1. The information in the report is for those individuals receiving their licenses with the previous four reporting effective years.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

## Teacher Residency Program

Reporting period from September 1, 2022 to August 31, 2023.
(Data Source: Cedarville University)

**Description of Data:**

The Ohio Resident Educator (RE) Program is a comprehensive, two-year initiative to assist beginning teachers with mentoring and professional development as they start their education careers. Requirements of the program include successful completion of two years of locally determined mentoring activities as well as the Resident Educator Summative Assessment (RESA), and it results in eligibility for professional licensure. The RE Program is designed to improve teacher retention, enhance teacher quality, and result in improved student achievement. Prior to the 2023-2024 school year the RE Program was a four-year initiative.

Data from this table capture a year-to-year snapshot of the persistence of Ohio Educator Preparation Provider graduates through the program. Corrections to prior year reporting may be captured in the current year's reporting. Data used to create this "snapshot" table are sourced not only from the current year's resident educator completion data results, but also prior year results because a Resident Educator may fail to complete all the program year requirements within the same academic year.

Some of the scenarios addressed in the design of the table are as follows:

1. A normal scenario, where a student is reported each year and is listed as completed. In this case, we include them in only the Entering/Persisting counts for the current year.

2. A scenario where a student is reported as entering one year, but not as completed, but then reported the following year as completing the previous year and current year. In this case, we include them in the Persisting count for the previous year, but not the Entering count. We also include them in the Entering and Persisting counts for the current year.

3. A scenario where a student is not reported for one year, but reported with records for the previous year and the current year the following year (both as completed). In this scenario, we include them in both the Entering and Persisting counts for both years.

4. A scenario involving a registration fluke where a student completes Year 1 of the RE program with an issued RE license, but not an effective or valid license until the following school year. For example, a teacher has all the qualifications for a full license, but completed Year 1 under a sub-license (in which the work is counted) and Year 2 under a RE license.
