Thank you

[11:16 AM] Bryant, Theresa

Please submit questions in the chat.

[11:17 AM] Unknown User

Can we talk about OBR Rosters? I was able to pull an OBR Roster Eligibility for OCOG for 2425 and was told after that the records are not good and that I shouldn't use them. Is that true?

[11:17 AM] Unknown User

Do we know when the window for Summer OCOG payment submissions will be open?

[11:18 AM] Unknown User

The same question for War Orphans. Is the eligibility roster for 2425 good to use?

[11:18 AM] Unknown User

Is ODHE looking to use the same reporting format across state programs? Preferably CSV.

like 2

[11:18 AM] Unknown User

Is there an easy way to see the formatting for HEI certification submissions? Additionally is there an easy way to see what submission errors are? As a new person I am very confused!

[11:20 AM] Michael Light (Miami University) (Guest)

Excellent question, Kelly! This happens often for us also and causes much confusion...glad to hear insights into this!

[11:21 AM] Unknown User

Andy Porter from Univ of Cincinnati. I do Facilities reporting. How does HEI/ODHE use the facilities data. I am aware that historically "aged space" data was used to state capital funding. Thanks,

**Ring, Timothy R (Unverified)**

Is ODHE looking to use the same reporting format across state programs? Preferably CSV.

I agree this would be helpful, rather than having different record layouts for each program. However, COF and GM reporting is very tedious, so hopefully those would not be used as the model

[11:23 AM] Unknown User

I have a question on the Fee & Inventory file. Housing changed the allocation between housing and meals and we could not get our file to submit last year. We put the allocation back to the old allocation to allow it to submit. How should we do it this year?

[11:23 AM] Unknown User

When will all students show on the OCOG eligibility roster for 24-25? The Dept of Ed has indicated that all bad ISIRs have been reprocessed

[11:23 AM] Unknown User

CCP follow-up question - when a student has enrollment at both a regular school and a CT center, we should generally submit for the regular school, is that correct?

[11:24 AM] Unknown User

My question is related to GMF, as Spring 2024 will be our first semester to report. We have to provide the Fiscal and Program Data Collection spreadsheet, as well as report to the state - are these combined? Or does that spreadsheet go directly to Lauri White and then we submit data the standard way (.txt file). And when submitting, are we submitting under the Standard Application or the Certificate Application?

[11:25 AM] Unknown User

Are there any recommended resources for CCP data reporters to help de-mystify HEI and ODDEX. I feel like I struggle my way through reporting every semester and like I am not knowledgeable enough to answer questions for our partner high schools. I have been data reporting for CCP for right at 2 years but there is no one at my institution who has ever done it for my role. It is a very intimidating process.

Is ODHE looking to use the same reporting format across state programs? Preferably CSV.

Yes, please.

[11:26 AM] Unknown User

It may make sense for future meeting to concentrate on one/two reporting categories, (e.g. facilities, enrollment, financial.)

like 3

[11:29 AM] Unknown User

Any talk to update Second Chance Grant to allow for an upload file for reporting instead of manually entering in data for each individual student? This program requires a lot of manual processing and multiple touches on a student record in HEI.

[11:29 AM] Dudley

I have a question relating to header format in CCP data reporting...warning...entering the weeds

[11:31 AM] Unknown User

I've had the opposite problem- I always receive errors when submitting a CSV file for COF so I submit everything via text files.

[11:31 AM] Unknown User

I vote text files myself.

[11:32 AM] Unknown User

Also, my understanding is Displaced Worker is no longer on the 2024-25 FAFSA but is a current reporting criteria for COF and Great Minds Fellowship. Will this be removed for reporting effective Summer 2024?

[11:32 AM] Unknown User

Great Minds was difficult to submit based on the nuisances for that program that don't really align with COF, but big thanks to Lauri White for all the help she provided.

[11:34 AM] Unknown User

Focusing on one or two areas helps us target exactly who should be attending any given meeting.

Is it possible to do a training on the SSI funding model?

like 4

[11:50 AM] Unknown User

+1

[11:51 AM] Unknown User

Given the time, this might be for a future meeting, but I would be interested in best-practices around students who change identifiers - particularly in situations where we aren't always aware that an update has been made (e.g., a corrected SSN or a student going from an institutional identifier to an SSN).

Related to this, looking up a student in the HEI system to see what identifier may have been previously reported in previous submissions is cumbersome - are there plans to improve this process?

[11:51 AM] Bryant, Theresa

**Kelly Burt**

XR file - Warning A46 states "Host Inst is an Ohio public inst but the Course Id does not match a Course Id at the inst. Course will not be subsidized." If that institution has not yet submitted their Course Inventory yet, how can we fix this? The course is found on their website course catalog and was submitted correctly.
