## Protecting Ohio Insurance Consumers and Fostering Insurance Innovation

Insurance impacts the lives of so many Ohioans just as our work does at the Ohio Department of Insurance.

As a consumer protection agency, we monitor the operations and financial stability of the state's insurance industry. Ohio's insurance market is one of the most competitive and largest in the world. In addition to our regulatory work, we review insurance rates and products, educate consumers, and provide complaint-resolution services. We also prioritize job creation, working with industry leaders to bring new products to market, and fostering and supporting innovative insurance approaches.

Aside from our significant and crucial daily oversight duties, some highlights stood out.

Ohio's no surprise billing law became effective in January 2022. The department implemented the operational parts of the law and produced educational and compliance-assistance information for consumers, the insurance industry, and health care providers.

We strengthened our engagement with consumers, mental health advocates, health care professionals, employers, and other stakeholders providing educational information and services around helping Ohioans navigate their mental health insurance benefits to access care.

Another focus was supporting Ohio's upward trajectory as a hub of new insurance ideas and

# **Director's Message**

innovative growth through the department's Emerging Products and Innovation Initiative. An attractive business environment is bringing companies to Ohio and driving economic growth and technological advancement, including in the state's insurance industry.

On the national front, Ohio's rich insurance tradition was center stage as the host of a National Association of Insurance Commissioners (NAIC) national meeting. The NAIC provides expertise, data, and analysis for state insurance regulators to effectively regulate the insurance industry and protect consumers.

In addition, the department took on leadership roles within the NAIC, most notably in the areas of race and insurance, innovation and technology, and life insurance and annuities.

I am proud of the hard work and expertise the department's staff show each and every day. As we move forward, we will continue to support new concepts in the state's competitive and increasingly dynamic insurance marketplace. But we will always prioritize what is best for Ohio's insurance consumers.

Sincerely,

Sudith L. French

# About the Ohio Department of Insurance

The Ohio Department of Insurance provides consumer protection through education and fair, but vigilant, regulation while promoting a stable and competitive environment for insurance companies.

The department is charged under Ohio Revised Code Chapters 17 and 39 with the responsibility of regulating the activities of 1,712 insurance companies – nearly 280 of them domiciled in Ohio – that write more than \$121 billion in premiums. The department also monitors the conduct of 307,999 insurance agents and 21,307 insurance agencies doing business in Ohio.

In addition, the department examines the financial soundness of insurance companies, as well as investigates consumer complaints and insurance fraud. Further, the department determines if services and benefits offered by companies are consistent with insurance policy provisions and Ohio law. The department also reviews and approves more than 6,300 company filings per year for life, accident, health, managed care, and property and casualty insurance policy forms and rates.

The governor appoints the director of the department, which employs 231 fulltime permanent staff.

### **Agent Licensing**

Agent Licensing issues licenses to insurance agents, agencies, managing general agents, public insurance adjusters, reinsurance intermediaries, surety bail bond agents, surplus lines agents and agencies, third-party administrators, title agents and agencies, and viatical settlement brokers. Agent Licensing also oversees insurance prelicensing, testing, and continuing education compliance.

### **Captive Insurance**

The Office of Captive Insurance provides a structured regulatory process for the initial evaluation, licensing, reporting, analysis, and examination of captive insurance companies domiciled in Ohio. Captives are a form of self-insurance and a risk management tool for businesses. The office establishes standards for business and professional support organizations that work with captive entities. It also reviews captive insurance company strategies and their execution to assess and evaluate operational success and financial strength.

### **Consumer Services**

Consumer Services representatives respond to a variety of insurance inquiries from consumers and investigate complaints against insurance companies and agents.

Ohio law gives insurance consumers the right to file a complaint against insurance companies, health maintenance organizations (HMOs), and insurance agents and adjusters related to automobile, homeowners, renters, certain health, life, annuities, nursing home, credit life, credit disability, and pet insurance. The different types of insurance complaints received from Ohioans are often regarding cancellations, refunds, sales practices, misrepresentation, claim, and benefit disputes.

When Consumer Services receives a complaint against an insurance company, a representative communicates with the company requesting an explanation of its position. The representative will review the company's response to determine if the issue was correctly addressed in accordance with the policy, state insurance laws, and administrative rules before explaining the outcome of the investigation to the consumer.

Consumer Services also manages an external review process that provides consumers the opportunity to request a contractual review to challenge an adverse health insurance benefit determination and to appeal, through an independent review organization, the denial, reduction, or termination of certain health care services made by their plan.

Consumer Services provides assistance through a toll-free hotline, written correspondence, social media, community outreach, and individual meetings. Consumer Services also helps monitor companies' compliance with Ohio insurance laws and regulations.

### Executive

The Office of the Director includes Policy, Legislative Affairs, and Communications staff. Staff oversee agency operations, develop policies on insurance matters, work in collaboration with the Ohio General Assembly and the United States Congress, engage with stakeholders, and manage the department's internal and external communication, including public education initiatives.

The Legal Services, Information Technology and Security, and Fiscal and Human Resources teams handle important support functions at the Ohio Department of Insurance.

Legal Services manages regulatory transactions, administers public hearings on insurance agent and company license and enforcement issues, and provides legal assistance to other department divisions.

Information Technology and Security assist the department's regulatory oversight responsibilities through the design, implementation, and maintenance of technology infrastructure and programs. Staff also are involved with facility management and security.

The Fiscal and Human Resources teams provide operational support handling accounts payable and receivable, and budgeting as well as consulting on personnel, benefits, labor, and timekeeping and payroll.

### **Fraud and Enforcement**

Fraud and Enforcement is responsible for investigating allegations of unlicensed insurance activity, agent misconduct, and insurance fraud.

Classified as a criminal justice agency, Fraud and Enforcement work jointly with other state, federal, and local regulatory and law enforcement agencies when allegations are multijurisdictional in nature. In addition to investigating licensed insurance agents and agencies, staff investigate consumers, medical providers, and third parties suspected of defrauding Ohio insurance companies.

Confirmed insurance law violations are referred for administrative and/or criminal prosecution, and staff offer testimony regarding investigations conducted.

### **Market Conduct**

Market Conduct monitors insurance company compliance with Ohio insurance laws and regulations by examining their business practices, such as underwriting, marketing, and claims handling.

Staff are responsible for gathering industry information from a variety of sources, including consumer complaints, company filings, and the National Association of Insurance Commissioners. The information is analyzed to determine if companies need further scrutiny. Market Conduct can require companies to take corrective action.

### **Ohio Senior Health Insurance Information Program (OSHIIP)**

The Ohio Senior Health Insurance Information Program (OSHIIP), funded in part by a federal grant, provides Ohioans receiving Medicare and their caregivers with objective health insurance information, individual counseling, and complaint resolution.

OSHIIP staff and a statewide network of certified counselors and other partners educate consumers about Original Medicare, Medicare supplemental insurance, Medicare prescription drug coverage, Medicare Advantage plans, Medicare Savings Programs, subsidies, long-term care insurance, and other health insurance matters.

Consumers receive assistance through a toll-free hotline, individual counseling, educational seminars, webinars, community engagement, educational materials, and social media. OSHIIP resolves complex casework, enrollment, and coordination of benefit issues for Ohio's aged and disabled population. OSHIIP's work has earned national acclaim for excellence and performance.

### **Product Regulation and Actuarial Services**

Product Regulation and Actuarial Services reviews policy forms, endorsements, contractual provisions, and manual rules and rates for products marketed to Ohio consumers by Ohio licensed property and casualty and life and health insurance companies, and their related lines of insurance business. Policy language is reviewed for clarity and compliance with Ohio laws and rules. Rates are reviewed to ensure they are not excessive, inadequate, or unfairly discriminatory. Staff participate in risk assessment examinations to evaluate monetary reserves to pay claims, pricing, underwriting, and other insurance company financial risks.

### **Risk Assessment**

Risk Assessment monitors the financial solvency of Ohio-based (domestic) insurance companies and monitors and coordinates regulatory oversight of the financial condition of out-of-state (foreign), international (alien), surplus lines, and captive insurance companies.

Staff analyze financial information provided by Ohio-licensed insurance companies and review complex transactions. They also calculate and certify to the Ohio Treasurer the domestic and foreign insurance premium tax owed to the state. In addition, Risk Assessment monitors company statutory and solvency compliance. Examinations of a company's financial condition and affairs are conducted as often as the Ohio Department of Insurance director deems appropriate, but at a minimum of once every five years, as required by statute.

## Accomplishments

#### Helped Ohians Understand and Access Mental Health Insurance Benefits

The Ohio Department of Insurance continued its prioritization of helping Ohioans understand and navigate their mental health and substance use disorder insurance benefits to access medical treatment. The department did this through direct engagement with consumers, informational material for different audiences, and stakeholder interaction, among other strategies.

The department enhanced its Mental Health and Substance Use DisorderToolkit content, including the creation of new material geared to employers and employees. The content provides insights and information that employers can utilize to promote mental health wellness success, reduce the stigma associated with mental health challenges, and explain mental health and substance use disorder insurance benefits to empower employees to access treatment.

The department worked in close collaboration with businesses across the state, RecoveryOhio, which is Governor DeWine's initiative focused on effective prevention, treatment, and recovery outcomes for Ohioans, and the Ohio Department of Mental Health and Addiction Services, on the toolkit content.

In addition, the department strengthened its stakeholder partnerships in the mental wellness space. These partnerships comprise government entities, mental health advocates, behavioral health providers, health insurers, employers, legislators, and the organizations that support these groups. The interactions involved meetings, specialized webinars, and the department providing educational materials for use.

The department's services include answering questions about insurance and treatment access, and addressing consumer insurance complaints, such as if someone feels wrongly denied of coverage or they received reduced insurance benefits for care.

The department closely monitored insurance company compliance with mental health parity laws, and observed certain data to determine potential further investigation into company practices.

### Protected Consumers Under New Surprise Billing Law

Ohio's surprise billing law, which Governor DeWine signed into law in 2021, became effective in January 2022.

The law protects patients from receiving and paying surprise medical bills above the patient's innetwork rate from health care providers for emergency care or, in certain circumstances, unanticipated out-of-network care, such as at an in-network health care facility from an out-of-network provider and including lab/pathology services. Cost sharing amounts, which include coinsurance, copayments, and deductibles, are limited to the patient's lower in-network amounts.

The department collaborated with stakeholders to create rules that made the law operational and is responsible for administering and enforcing many of the law's provisions. The department also addresses complaints from consumers who receive surprise medical bills.

The department conducted a statewide consumer education campaign informing consumers of their rights under the new law, encouraged them to contact the department with questions and complaints, and created educational information. This included an online surprise medical billing toolkit to help consumers, and also, health care providers, health insurers, and other stakeholders understand the law and its requirements, and to access the department's surprise billing services.

The department established a payment reconciliation process, through an online portal accessible on the department's website, for health care providers and health insurers to work through billing discrepancies instead of surprise billing the patient.

A federal surprise medical billing law, called the No Surprises Act, went into effect on Jan. 1. The federal law and Ohio's law work together to protect consumers in surprise billing situations.

The department has the authority to investigate complaints from consumers due to suspected noncompliance situations.

### Further Established Ohio as a Leader in Insurance Innovation

The Ohio Department of Insurance, with its Emerging Products and Innovation Initiative, put significant emphasis on further establishing Ohio as an insurance leader by helping cultivate an environment that brings new insurance-related ideas and associated technologies to market. This focus is in line with the state's InnovateOhio program, which fosters an environment where existing companies can create new opportunities to grow, and startups can experiment and thrive.

Department staff engaged with InsureTech representatives of start-ups, early growth, and legacy businesses and insurance companies in Ohio and those who want to come to the state, providing regulatory insights, and discussing insurance concepts and approaches.

Department staff serve as points of contact to answer questions, provide regulatory navigation help, and review laws, rules, and regulations. Staff listen to the interests and needs of companies and startups to figure appropriate approaches while ensuring the strongest of consumer protections remain in place.

The Emerging Products and Innovation Initiative for Ohio has four guiding principles: Ensure the highest-level consumer protections. Benefit consumers with robust competition, lower costs, and choice. Keep pace with innovation, a changing marketplace, and consumer expectations. Collaborate with existing insurance companies, entrepreneurs, and the industry.

#### Hosted National Insurance Meeting, Appointed to Leadership Roles

The Ohio Department of Insurance hosted the National Association of Insurance Commissioners (NAIC) Summer National Meeting in Columbus. The event was another milestone in Ohio's rich insurance history and a special moment for the department.

Insurance regulators, insurance company representatives, consumer advocate groups, and media convened in a hybrid format to discuss and analyze the many insurance issues and topics that have state and national impacts.

The Ohio Department of Insurance, as a leader in insurance industry regulation and consumer

protection, is a proud and engaged member of the NAIC, which celebrated its 150th anniversary during the fiscal year. The NAIC is the U.S. standard-setting and regulatory support organization created and governed by insurance regulators from the 50 states, the District of Columbia, and five U.S. territories. The NAIC provides expertise, data, and analysis for state insurance regulators to effectively regulate the insurance industry and protect consumers.

Also during the fiscal year, the NAIC selected Ohio Department of Insurance staff for NAIC committee and task force leadership roles in 2022.

Director French was named chair of the Life Insurance and Annuities Committee and as a member of the new Innovation, Cybersecurity, and Technology Committee. The new committee provides a forum for state insurance regulators to discuss cybersecurity, innovation, data security, and privacy protections. In addition, members focus on emerging technology issues and their impacts on the insurance regulatory framework, the use of innovation technologies by the industry, and appropriate government oversight.

In total, department staff were chosen to represent Ohio on 21 committees and task forces to address such issues as consumer protection, industry innovation and regulation, sensitive information security, product pricing, fraud and misconduct, insurance company financial monitoring, and more.

### Health Insurance Decision Appeals Process Recovered \$34.1 Million for Ohioans

Ohio law affords consumers the opportunity to appeal a health insurance decision made by their insurance company. Consumers have the right to request the health plan issuer reconsider their decision, also known as an adverse benefit determination. An adverse benefit determination is a decision made by the health plan issuer, including denying, reducing, or terminating a requested health care service or payment in whole or in part.

During the fiscal year, the Ohio Department of Insurance issued its 2020 Annual Health Claims External Review Report. In 2020, 536 cases, involving more than \$8.6 million in health care benefits and services, were submitted for review by an Independent Review Organization (IRO) to determine the appropriateness of a health plan's adverse benefit determination. The health plan's determination was reversed by the IRO in 38 percent of these cases, saving Ohio health insurance consumers more than \$2.45 million.

When a health plan's internal appeal process results in an adverse benefit determination that is based on a contractual issue (not involving medical judgment or medical information), an external request may be submitted by the health plan for contractual review by the Ohio Department of Insurance.

In 2020, the department completed a contractual review of 164 cases, involving over \$1,571,200 in health care benefits and services. Forty-one of the 164 cases reviewed by the department resulted in the reversal of previously denied benefits, recovering almost \$329,395 in additional benefits for Ohio consumers.

Since the 1999 enactment of Ohio's external review law, 9,140 cases have been reviewed by the department and/or IROs, recovering more than \$34.1 million in previously denied health care benefits and services for Ohio consumers.

### **Ohio Adopted Annuity Transactions Regulation to Protect Consumers**

Ohio was one of the first states to adopt an enhanced annuity transactions model regulation, which was crafted in partnership between the Ohio Department of Insurance and the National Association of Insurance Commissioners.

The consumer protection regulation clarifies that all recommendations by insurance agents and insurance companies must be in the best interest of the consumer and that agents and companies may not place their financial interest before the consumer's interest. Agents and companies are required to act with reasonable diligence, care, and skill in making recommendations to consumers.

Also incorporated is a "best interest" standard mandating agents and companies satisfy requirements outlined in a care obligation, disclosure obligation, conflict-of-interest obligation, and documentation obligation.

As part of the regulation enhancement, agents are required to complete specific training requirements prior to engaging in the sale, solicitation, or negotiation of annuity products in Ohio. The department created a questions and answers page on its website to provide training clarity for agents.

### **Investigated Insurance Fraud and Professional Misconduct to Protect Ohioans**

Insurance fraud impacts all Ohioans in the form of excess premiums. The Ohio Department of Insurance, through its Fraud and Enforcement Division, works with federal, state, and local prosecutors to bring those who commit insurance fraud to justice.

Common insurance fraud allegations in Ohio involve false and inflated homeowner and automobile claims as well as allegations of arson, staged auto accidents, car thefts, and burglaries, intentional damage to property, slip and fall claims, and fraudulent billings by medical providers.

Allegations commonly received and investigated by the Enforcement Unit include premium theft, unauthorized surrenders made against consumer insurance policies, submission of forged applications, financial exploitation of seniors, intentional misrepresentation of insurance products, annuity suitability, title agent escrow theft, bail agent misconduct, and unlicensed insurance activities.
