Insurance

Disaster Preparation and Recovery

insurance.ohio.gov | 800-686-1526

Review your insurance. Know what is and what isn't covered.

Talk with your agent, family, and/or employer about insurance protection and needed adjustments. Flood, auto, homeowners, renters, health, and life insurance all deserve evaluation.

Flood insurance is not always included in a homeowners policy. It can be purchased through an agent or the National Flood Insurance Program (NFIP) in qualifying areas.

Conduct an **inventory of your possessions**. Download a free inventory app on our website. Securely store important financial and insurance info. Provide copies to family members.

After a disaster strikes, **immediately document your losses** and contact your agent or insurer. Make sure you have the right types and amounts of insurance.

Utilize the Ohio Department of Insurance's Severe Weather Toolkit at insurance.ohio.gov. **Department experts can also answer your insurance questions.** Call 800-686-1526.
