OFFICE OF FAMILIES AND CHILDREN
Families and Children Letter FCL #152

TO: Directors, Public Children Services Agencies

FROM: Jeffery Van Deusen, Deputy Director
Office of Families and Children

DATE: November 22, 2023

SUBJECT: Best Practice Incentives Data - Preview Draft November 2023

Background

As previously announced in Families and Children Letter (FCL) #133, on July 3, 2023, Governor DeWine signed Amended Substitute House Bill Number 33 (HB 33) of the 135th General Assembly. Within the Bill, the state appropriated funding for strengthening best practices to help achieve better outcomes for children, youth, and families. The Office of Families and Children (OFC) will continue the Best Practice Incentive Program; utilizing $5 million per State Fiscal Year (SFY) to incentivize best practice measures. A portion of SFY 2024 funds will be utilized to award the current Best Practice Incentive measures outlined in Families and Children Letter (FCL) #016. The aim is to incentivize agencies making marked improvements in achieving compliance with visitation and timely assessment/investigation measures. Advancements in these areas are critical to our state's success in making transformative change for families served by our child protection system.

Purpose

We are looking forward to sending out the next set of awards soon!

Attached you will find the draft data for your review prior to the next round of Best Practice incentives being issued. We are asking each county to please review the attached reports and note any discrepancies to your TAS by **close of business, November 30, 2023.**

- The most recent measurement period for achieving 95% in both measures was from April 1, 2023 – September 30, 2023.
- The measurement period for the "most improved" incentive in both measures was from October 1, 2022 – September 30, 2023.
- The deadline for entering data to be counted toward these awards was October 31, 2023.

Please note that the OFC Data and Reporting Team will send out the standard monthly report later this month. The data contained in the upcoming monthly report may vary slightly from the most recent six-month review period data that is attached, pending additional data entry from your county.

Contact

Please reach out to your Technical Assistance Specialist if you have questions or note any discrepancies within your reports.

This Visitation report is designed to deliver comprehensive person visitation data for all children and adults who need visits. In this extract, a composite score of monthly visitations met is calculated for the complete person population combining all children and all adults who need visits in the given month. A visit is called a completed visit, when the person needs a visit and the number of completed visits made is 1 or more or the number of attempted visits is 3 or more. Activity logs must be in completed status. The business rules for the calculation of the report population for persons who need monthly visits, and for the calculation of % of visits met are the same as the SACWIS online report - Comprehensive Visitation Report. The case activity log entries which are copied over from the provider activity log are excluded in this extract.

Composite Visits Met % = (Number of children and adults visited / Number of children and adults who need visits) * 100

The Knowledge Base Article can be found here: Keys to Populating Data to the Comprehensive Visitation Report.pdf (jfskb.com).

Percentages are statewide and by county/by agency for baseline and for each completed month within the review period. ODJFS will extract the data on a monthly basis any day between the 11th and 15th of each month and email it to agencies on the 15th or the first business day following the 15th if it is a holiday. Data must be entered in the SACWIS application by the 10th of each month for it to be included in the monthly interim extract.

Data Table Description

The first row of the data table represents statewide percentages; it is followed by county, agency data.

Counties are grouped by county size into 3 categories: Large, Medium, and Small. These groups correspond to the CPOE county size categories as follows: Major Metro, Metro, and Large are combined and reported under “Large” group; Medium are reported under “Medium” group; Medium Small and Small are grouped and reported under “Small” group. Counties are sorted in descending order by the Avg % of Visits Met for All Persons within each county size.

For Franklin County under Combined Franklin County Agencies, the % of monthly visits met for all persons is the average of monthly visits met by the 3 agencies namely Franklin County Children Services Board, Franklin County PFSN, and Franklin County NYAP. The combined value for Franklin County is used for the most improved and top performers calculations. There is also a drilldown view of the Franklin County combined agencies data to provide the break down by each of the 3 agencies in a separate tab named 'Franklin County Agencies'.

The ***Baseline for Most Improved Yearly Avg % of Visits Met Monthly*** column represent the yearly average of percentage of visits met monthly for all persons who needed visits.

- Baseline data pulled from 10/01/2020 to 09/30/2021 (Federal Fiscal Year 2021) will be used to calculate Most Improved measure for the evaluation period from 10/01/2021 to 09/30/2022.

- Baseline data pulled from 10/01/2021 to 09/30/2022 (Federal Fiscal Year 2022), will be used to calculate Most Improved measure for the evaluation period from 10/01/2022 to 09/30/2023.

Columns under ***% of Visits Met for All Persons (Adult + Children) who need visits*** merged header represents the percentage of visits met during each completed month of the current evaluation period. Cells representing % of Visits Met of 95% or higher display the data in green bold font.

The ***Avg % of Visits Met for All Persons column*** represents the average of percentage of visits met monthly for all persons (adult + children), during completed month(s) of the current evaluation period. Cells representing averages of 95% or higher are highlighted in green; cells representing averages of 90% or higher, but lower than 95% are highlighted

Best Practice Incentive Program Category - Achieving 95% Compliance			
Evaluation Period	**Duration**	**Data Entry To Be Completed by EOB On:**	**Award Date**
1	10/01/2021 - 03/31/2022	04/30/2022	May, 2022
2	04/01/2022 - 09/30/2022	10/31/2022	November, 2022
3	10/01/2022 - 03/31/2023	04/30/2023	May, 2023
4	04/01/2023 - 09/30/2023	10/31/2023	November, 2023

Most Improved column lists the % of improvement for each county and statewide; it is calculated by taking an average of monthly percent of visits met during 12 months evaluation period and subtracting from this average the Baseline for Most Improved Percentage Value.

A positive value in this column indicates that the average of monthly % of visits met is higher than the baseline; 0 indicates that the average of monthly % of visits met is the same as that of the baseline, and a negative number indicates that the average of the monthly % of visits met is lower than that of the baseline.

Top 3 highest values of most improved % in each county size group are highlighted in green.

This measure will be updated monthly as additional months' data becomes available. Evaluation periods for this measure are listed below:

Best Practice Incentive Program Category - Most Improved

Timely Assessment/Investigation Completion

This report lists the percentage of Assessment/Investigation completed on-time for Child Abuse and/or Neglect and Stranger Danger intakes that have Assessment/Investigation due per period. Intakes with approved extensions and waivers for A/I are included in the timeliness calculation.
For screened in Intakes, intake AI is considered "On-time" if the Intake AI completion date occurs within 45 days or less of the screening decision date. If a 15-day extension is approved, the Intake AI completion date must occur within 60 days or less of the screening decision date.

For screened in AR Intakes, intake AI is considered "On-time" if both the below criteria are satisfied:
1. Disposition is set within 45 days of the screening decision date. If a 15-day extension is approved, then the Disposition date must occur within 60 days or less of the screening decision date.
2. Intake AI completion date (i.e. the Final approval) occurs within 3 working days of the Disposition due date calculated in step 1.

Percentages are statewide and by county/by agency for baseline and for each completed month within the review period. ODJFS will extract the data on a monthly basis any day between the 11th and 15th of each month and email it to agencies on the 25th or the first business day following the 25th if it is a holiday. Data must be entered in the SACWIS application by the 10th of each month for it to be included in the monthly interim extract.

Data Table Description

The first row of the data table represents statewide percentages; it is followed by county, agency data.

Counties are grouped by county size into 3 categories: Large, Medium, and Small. These groups correspond to the CPOE county size categories as follows: Major Metro, Metro, and Large are combined and reported under “Large” group; Medium are reported under “Medium” group; Medium Small and Small are grouped and reported under “Small” group. Counties are sorted in descending order by Avg % of Intake Assessment/Investigation Completed On-Time within each category.

The ***Baseline for Most Improved Yearly Avg % of Assessment/Investigation Completed On-Time*** column represent the yearly average of percentage of Assessment/Investigation Completed On-Time.

- Baseline data pulled from 10/01/2020 to 09/30/2021 (Federal Fiscal Year 2021), will be used to calculate Most Improved measure for the evaluation period from 10/01/2021 to 09/30/2022.
- Baseline data pulled from 10/01/2021 to 09/30/2022 (Federal Fiscal Year 2022), will be used to calculate Most Improved measure for the evaluation period from 10/01/2022 to 09/30/2023.

Columns under ***% of Assessment/Investigation Completed On-Time*** merged header represents the percentage of Assessment/Investigation Completed On-Time during each completed month of the current evaluation period. Cells representing % of Assessment/Investigation Completed On-Time of 95% or higher display the data in green bold font.

The ***Avg % of Assessment/Investigation Completed On-Time column*** represents the average of percentage of Assessment/Investigation Completed On-Time, during completed month(s) of the current evaluation period. Cells representing averages of 95% or higher are highlighted in green; cells representing averages of 90% or higher, but lower than 95% are highlighted in yellow. This measure will be updated monthly as additional month’s data becomes available. Evaluation periods for this measure are listed below:

Best Practice Incentive Program Category - Achieving 95% Compliance			
Evaluation Period	**Duration**	**Data Entry To Be Completed by EOB On:**	**Award Date**
1	10/01/2021 - 03/31/2022	04/30/2022	May, 2022
2	04/01/2022 - 09/30/2022	10/31/2022	November, 2022
3	10/01/2022 - 03/31/2023	04/30/2023	May, 2023
4	04/01/2023 - 09/30/2023	10/31/2023	November, 2023

Most Improved column lists the % of improvement of timely assessments and investigations for each county and statewide; it is calculated by taking an average of monthly percent of Assessment Investigations completed on time during 12 months evaluation period and subtracting from this average the Baseline for Most Improved Percentage Value.

A positive value in this column indicates that the average of monthly % of Assessment/Investigation Completed On-Time is higher than the baseline; 0 indicates that the average of monthly % of Assessment/Investigation Completed On-Time is the same as that of the baseline, and a negative number indicates that the average of the monthly % of Assessment/Investigation Completed On-Time is lower than that of the baseline.

Top 3 highest values of most improved % in each county size group are highlighted in green.

This measure will be updated monthly as additional months’ data becomes available. Evaluation periods for this measure are listed below:
