Separation Information Exchange

The SIDES Separation Information Exchange is used by employers to process over 31% of UI claims nationwide. The separation information request is triggered by the states when a worker files an initial claim or reopens an existing claim. Since the request is sent electronically, employers do not need to wait for the request to arrive by mail. This allows for more time to complete a detailed and timely response.

Preparing to Respond to a Request for Separation Information

Gather detailed, pertinent information about the claimant's separation and payments made after the separation:

- Employer contact information
- Dates of employment
- Details of separation
- Relevant prior incidents and warnings
- Supporting documentation
- Monies paid after separation
