Re: GenOn Energy Services, LLC

Dear Ms. Handberg:

We are providing this letter to update you on the actions affecting the Avon Lake Generating Station. We initially notified you on June 29, 2021 that we are implementing a "plant closing" of our Avon Lake facility on September 15, 2021, or within 14 days thereafter. The Company has additional foresight as to business circumstances, and has made the decision to postpone the facility's closure date to April 1, 2022. We will provide notice of the new closure date in compliance with Final Rule Implementing the Worker Adjustment and Retraining Notification Act (WARN) and Section 3(a) of WARN.

For further information, please contact Daniel Rogatto, Plant Manager, at 330-233-4661.

Yours truly,

Mark Gouveia
Senior Vice President, Plant Operations
GenOn Energy Holdings, Inc.
