

National Provider Identifier (NPI)

REFERENCE GUIDE

THE OHIO DEPARTMENT OF MEDICAID

NOTICE: Ohio Administrative Code (OAC) rule [5160-1-17](#) took effect on November 25, 2019 and requires all providers to obtain a National Provider Identifier (NPI) number. In accordance with paragraph (D) of the rule, any provider identified by the National Uniform Claim Committee (NUCC) with a provider taxonomy number must obtain an NPI and report it to ODM upon enrollment. If you currently **do not** have an NPI, the following information is a guide to help you understand and obtain your required NPI.

What is NPI: The NPI is a unique identification number for covered health care providers. The NPI is a Health Insurance Portability and Accountability Act (HIPAA) Administrative Simplification Standard and must be used in lieu of payer specific legacy provider identifiers in the HIPAA standards transactions. For more information about the NPI, please visit the Centers for Medicare and Medicaid Services (CMS) [website](#).

There is no fee associated with obtaining your NPI. Therefore, this will not be an additional cost to you as a provider.

How to obtain your NPI - Apply Online: The application process can take less than 5 minutes to submit and can be found at the [National Plan and Provider Enumeration System website](#).

1. You will initially be directed to create a Username and Password in the *Identity and Access* website before you can apply.
2. Once you have created a Username and Password, use the link listed above to login to submit your application.

This screenshot displays where you will need to create your account and login to register for your NPI. You can find helpful hints and a FAQ located on the "Resources" at the bottom center of the website.
