Well Visits for Preventive Health Care

Details and Best Practices from Ohio Medicaid Managed Care Plans

Sick to Well Visits and Once a Calendar Year Scheduling

Key Details for Improving Well Visits

All five Ohio Medicaid Managed Care Plans allow a sick visit and a well visit on the same day for patients 2 years of age and older.

(NEW) Well Visits can now be scheduled every Calendar Year for patients of all five Ohio Medicaid Managed Care Plans.

- ✓ Allows Members and Providers to schedule Well Visits when it is more convenient.
- ✓ Removes Barrier of previous policy if a Sick Well Visit opportunity was prior than 365 days since last Well Visit.

Here are some points to keep in mind with them:

- ✓ If it's the first time a patient will be seen in your office, only one of the two billed visits can be billed as a new patient visit.
 - For example, if a new patient is seen and both a well visit and a sick visit are appropriately received, only one service is a new patient visit. The other is an established visit
- ✓ As long as the provider's documentation supports services for a well visit and a sick visit (with no overlapping documentation components), then separate reimbursement is both warranted and supported.
- ✓ When billing a sick visit on the same day as a well visit, bill the appropriate evaluation and management code (i.e., 99201-99215) with modifier-25 and preventive code (i.e., 99381-99397).

Best Practices

- ✓ Consider every visit an opportunity for a well visit *and* an immunization.
- ✓ Review patient charts prior to appointments and allow extra time to complete a well visit with a sick visit or sports physical.
- ✓ Schedule the next well visit during check out.
- ✓ Provide appointment reminders by text or mobile app.
 - Medicaid patients generally need 48 hours to arrange for transportation, so send reminders 48 to 72 hours prior to the appointment.
- ✓ Send reminder letters or call your attributed patients who are due for a well visit - even when patients haven't been seen in your office. These patients either chose your office or were assigned to it.
- ✓ Collaborate with your EHR vendor to incorporate pop-up alerts for preventive services.

Completing a Well Visit during a Sick Visit

Did you know the five Ohio Medicaid Managed Care Plans pay for a well visit to be completed on the same day as a sick visit? The well visit and sick visit will both be paid at 100% with the addition of a modifier 25.

Children will often only visit their provider when sick. Caregivers may experience barriers to scheduling a well visit such as being unable to miss work. Completing the well visit during the sick visit may be the only opportunity the provider has to complete a well visit during the year and give any immunizations the child needs. Therefore, all Medicaid Managed Care Plans provide payment for a combination of certain services on the same day including: sick visits, well visits, immunizations, labs (including lead).

How to Bill

When a patient is seen in the office for a well visit as a new or established patient, providers can bill that diagnostic exam as an E&M-25. Providers should reference the most up-to-date sources of professional coding guidance for valid CPT/HCPCS codes.

In order to receive payment, follow the billing guidelines below:

Visit Type	ICD-10 codes	CPT codes	Modifiers
Well Visit	Z00.129	(99381-5 or 99391-5)	None
Well + immunizations	Z00.129, Z23	(99381-5 or 99391-5)	25
Well + Sick	Z00.121 AND appropriate sick ICD-10 code	(99381-5 or 99391-5) and 9921x	25
Well + Sick + Immunizations	Z00.121, Z23, AND appropriate sick ICD-10 code	(99381-5 or 99391-5) and 9921x	25 for sick and 25 for immunizations

BEST PRACTICES FOR IMPROVING WELL VISITS IN YOUR PRACTICE

- ✓ Consider every visit an opportunity for a well visit and an immunization visit.
- ✓ Schedule the next well visit during check out.
- ✓ Collaborate with your EHR vendor to incorporate pop up alerts for preventive services.
- ✓ Check payer specific provider portal when a member presents to your office without their insurance card.
- ✓ Clarify payer procedures for covering well visits every calendar year, not every 365 days.

Early and Periodic Screening, Diagnostic, and Treatment (EPSDT)/Medicaid's Healthchek Program This program ensures that members under age 21 have access to services that are available in accordance with federal EPSDT requirements found at 42 U.S.C. 1396d(r) as amended. This includes medically necessary services covered by Ohio Medicaid, as well as any medically necessary screening, diagnostic and treatment services available to Medicaid consumers that go beyond the applicable coverage and limitations set forth in Division 5160 of the Ohio Administrative Code (OAC). Screening components, frequencies, and indications of need for further evaluation are in accordance with the most current American Academy of Pediatrics recommendations for pediatric preventive health care. Prior authorization and coverage determinations are based on medical necessity.

Thank you for your support!

Prenatal Risk Assessment Form (PRAF)

A complete PRAF helps Moms receive the best support for a healthy pregnancy

Provider Benefits of submitting a PRAF

The electronic PRAF 2.0 has multiple benefits with one, simple submission:

- o Automatically notifies the Ohio Department of Job and Family Services County Office, Managed Care Plan, and Home Health Care provider of the pregnancy, need for progesterone and any other need indicated on the form.
- o Allows for an Ohio Board of Pharmacy approved Progesterone prescription to be printed and faxed to the appropriate pharmacy.
- o Allows provider staff updates by multiple users prior to submission.
- o Maintains a pregnant woman's Medicaid eligibility without disruption in coverage-equating to prompt provider payment for services throughout mom's pregnancy.

Payment for Completing the PRAF

After completing the PRAF, submit a claim based on the guidelines below

Code + modifier	Description	Fee Schedule Amount*
H1000 + 33 modifier (add modifier 1/1/2022)	Electronic PRAF submission	\$90.00
H1000	Paper/Faxed version	\$12.11

**Providers contracted rate would be applied to the fee schedule amount to determine final payment. Health Plans will pay no additional incentives for PRAF submissions.*

Ensuring Prompt Care

Every pregnant woman with Medicaid coverage should be linked to needed services on her very first prenatal visit. An online PRAF 2.0 submission ensures:

- o Medicaid coverage for Mom and baby without disruption through the immediate post-partum period.
- o Serves as pregnancy notification to managed care plans and initiation of timely health care and connection to added resources, like care management, important for at-risk pregnancies.

Submitting the PRAF 2.0 using NurtureOhio is Easy!

1. Open the NurtureOhio website to access the PRAF: <http://www.nurturohio.com>
2. Instructions can be found at: <http://medicaid.ohio.gov/Provider/PRAF>
3. Users must be registered in the Medicaid Information Technology System (MITS). For username or password issues: <http://www.ohmits.com/>
4. Difficulties with NurtureOhio, email: Progesterone_PIP@medicaid.ohio.gov

2022 DIABETES BENEFITS (continued)

• Diabetes Self-Management Education Covered by all Ohio Medicaid Managed Care Plans

Summary of Diabetes Education		
	Diabetes Self-Management Education (DSME)	Medical Nutrition Therapy (MNT)
Description	“Ongoing process of facilitating the knowledge, skills, and ability necessary for diabetes self-care, and activities that assist with implementing and sustaining the behaviors needed to manage his or her condition on an ongoing basis, beyond or outside of formal self-management training.” The ADA recommends four critical times to evaluate the need for DSME: at diagnosis, annually &/or when treatment targets are not met, when complicating factors develop, and when transitions of life/care occur.	Defined as a “nutrition-based treatment provided by a registered dietitian nutritionist.” It includes “a nutrition diagnosis as well as therapeutic and counseling services to help manage diabetes.
Program components	Core Content including Diabetes pathophysiology and treatment options, and seven self-care behaviors: <ul style="list-style-type: none"> • Healthy eating • Physical activity • Medication usage • Monitoring and using patient health data • Preventing, detecting, and treating acute and chronic complications • Healthy coping with psychosocial issues and concerns • Problem solving 	An intensive comprehensive service: <ul style="list-style-type: none"> • Involves in-depth individualized nutrition assessment • Relies heavily on follow-up to provide repeated reinforcement to aid with behavior change • Establishes goals, a care plan, and interventions • Plans for follow-up over multiple visits to assist with behavioral and lifestyle changes relative to each individual’s nutrition problems and medical condition or disease
Program Benefits	Improves health outcomes as patient maintains better control of A1c	Focuses on nutrition component for diabetes and A1c management
Frequency	<u>Initial year:</u> Up to 10 hours of initial training within a continuous 12-month period; or <u>Subsequent years:</u> Up to 2 hours of follow-up training each year after the initial year *Telehealth DSME is covered	<u>Initial year:</u> Up to 3 hours <u>Subsequent years:</u> 2 hours
Provided by	Diabetes educators: Medicaid provider, ADA-recognized and/or ADCES-accredited DSME Program. Refer to member’s Managed Care Plan for local network providers.	Registered dietitians or nutritional professionals Go to the <i>Academy of Nutrition and Dietetics</i> website to find a local registered dietitian: https://www.eatright.org/find-an-expert
Codes	Individual: G0108 Group (2 or more): G0109	Individual: 97802 (Initial) and 97803 (subsequent) Group: 97804

Transportation Information	<p>UnitedHealthcare Community Plan provides 30 one-way less than 30 mile trips per calendar year for covered medically necessary services (ie: medical, dental, vision, WIC and Medicaid renewal appointments) each calendar year. Additionally, UHC-CP covers trips where members must travel more than 30 miles where a closer provider is not available as well as trips by ambulance and paratransit. Trips must be scheduled 48 hours in advance. Exception to 48 hour advance notification for: same day sick visits, pregnancy related visits, hospital discharges and transfers.</p> <p>Unlimited trips are permitted for the following trip types: dialysis, oncology, wound care, chemotherapy, substance use disorder, NICU, Wheelchair transport, pregnancy related trips, diabetes management and OhioRise appointments. UHC-CP is contracted with Lyft for on-demand transportation needs and offers a post authorization process for ambulance only trips.</p>
