

## June Sandata System Releases

Release Date	System	Issue Type	Description
6/26/25	EVV / Aggregator	Report Update	The 'Discipline' column which is not used for the program has been removed from the Individual Client Activity report.
6/26/25	EVV	Fix	In the Recipients module, the save and add new buttons have been fixed.
6/26/25	EVV / Aggregator	Fix	Resolution for issues where the user's session is interrupted and the user is forced out of the system.
6/26/25	EVV	Enhancement	When creating a manual visit or manual call, the Service field is now required, ensuring all entries are complete and aligned with provider documentation standards.
6/26/25	EVV / Aggregator	Enhancement	All Reports with Reason Codes will now include a Legend at the end of the report defining the Reason Codes. These reports are used in both EVV and in Aggregator, and availability depends on program configuration.
6/26/25	EVV	Fix	In Visit Maintenance, there is now a 256-character limit when providing a Reason Note in the Reason Note field. This proactive validation allows users to correct input before submission, ensuring a smoother and more intuitive experience.
