# Ohio's State Opioid Response (SOR) Project 2.0

The Substance Abuse and Mental Health Services Administration (SAMSHA) awarded the State of Ohio approximately \$96M through the federal fiscal year (FFY) 2020 SOR program to develop tailored approaches to prevention, treatment, and recovery from opioid use disorders and/or stimulant use disorders. This is the second round of grant funding awarded through the SOR program. This new round of funding will allow the State of Ohio to expand upon the efforts planned for and implemented through the initial SOR 1.0 grant awarded in 2018.

The SOR 2.0 project is focused on building a community system of care that emphasizes integration between physical health, emergency health care, behavioral health care, criminal justice, and child welfare. These programs and services will build upon the work established by [Ohio's 21st Century CURES State Targeted Response Initiative](#).

## Implementing SOR 2.0

SOR 2.0 funding will be distributed through state and local partnerships as pre-approved by SAMSHA. The majority of the funding will be used to reimburse local Alcohol, Drug Addiction, and Mental Health Services (ADAMHS) Boards for continuum of care projects based on requests for proposal (RFPs) submitted to the Department from a list of local funding priorities, found [here](#).

The grant will also be used to fund key state agency partnerships highlighted below.

- Ohio Department of Health: \$6.15M for overdose prevention strategies
- Ohio Board of Pharmacy: \$650K to address the misuse and diversion of prescription drugs through Ohio's prescription drug monitoring program
- Ohio Department of Veteran Services: \$1M to support training for veteran peers and outreach to connect veterans unable to access VA services
- Ohio Department of Job and Family Services: \$1.5M to support the OhioSTART program (Sobriety, Treatment and Reducing Trauma)
- Interagency Development: \$700K to enter into additional partnerships with state agencies or community partners

### Planned Community Investment

| Categories                            | Amount                 | Explanation   |
|---------------------------------------|------------------------|---|
| Administration                        | \$1,115,886.00         | Cost of positions required by SAMSHA for the administration of the SOR 2.0 grant.   |
| Grant Evaluation                      | \$1,022,049.00         | Cost of a third-party to evaluate grant impact and outcomes.  |
| State-to-State Partnerships           | \$7,960,280.06         | Support RecoveryOhio strategies across state agencies such as distribution of naloxone to reverse overdoses, expanding Fentanyl awareness campaigns, supporting Ohio's prescription Drug monitoring system, and bringing together child-serving agencies to assist families struggling with a substance use disorder. |
| Local ADAMH Board Projects            | \$57,586,749.25        | Funds local ADMAH Board efforts to support key SOR 2.0 priorities at the local level.   |
| Community Provider Projects           | \$5,379,924.06         | Implements Community stakeholder partnerships to target engagement and retention efforts to best serve Ohioans most in need of treatment. The funds will support initiatives that provide peer support, re-entry supports, recovery housing, and culturally appropriate services.                                     |
| Innovation Initiatives                | \$9,755,144.49         | Identify and deploy innovative technology to manage behavioral health conditions, including the use of Android and iOS apps and medical devices.  |
| Early Identification and Intervention | \$2,270,373.00         | Better connect families to care through increased early screening, assessments, and onboarding to treatments in behavioral health, primary care, and educational settings.  |
| MOMS Projects                         | \$2,100,000.00         | Funding for Maternal Opiate Medical Supports (MOMS) programs to support pregnant women and those with young children.   |
| Faith-Based and HECC Projects         | \$2,500,000.00         | Stigma reduction in communities through faith-based engagement.   |
| Awareness Campaigns                   | \$2,000,000.00         | Raise public awareness about addiction treatment and harm reduction resources to prevent overdose.  |
| OhioMHAS Strategic Priorities         | \$4,538,023.14         | Targeted strategies including crisis supports, rapid responses, and other community service needs.  |
| <b>Total Budget</b>                   | <b>\$96,228,429.00</b> |   |

| SOR 2.0 Investment                  | \$2,051,788.00   |              |  |
| SOR 2.0 Direct Funded               | N/A              |              |  |
| Total SOR Investment in the County* | \$2,051,788.00   |              |  |

\*Funding amounts listed are pulled from point in time reports which are subject to change as grants are awarded.

### SERVICE OVERVIEW

#### TREATMENT

QRT/OCRT: respond to opioid overdoses to provide on scene screenings, treatment referrals, MAT linkage and crisis placement.

Residential Services: Ohio Valley Physicians to offer 3.5 and 3,7 level of care residential substance use disorder services.

MAT and Treatment Services: Shawnee Family Health will offer MAT and additional services in Lawrence county.

#### RECOVERY SUPPORTS

TCC Vocational program: offers vocational training for clients alongside treatment services and education.

Housing program: Initiate supports for Level III housing for substance use disorder clients.

Peer Support: Thrive will offer peer supports throughout the board area.

Providers: The Counseling Center, Shawnee Family Health Center, THRIVE peer support, Ohio Valley Physicians.

Highlight Innovative Programs: The Success Center developed to assist persons pre and post release from settings of incarceration. The curriculum focuses on skill building for job readiness, financial education, and life skills in courses such as workplace etiquette, backing, building credit and more. Courses support certification and employment in electric, plumbing, equipment operations, construction, auto mechanic, deck handing, and environmental services.

Highlight Cross System Collaborations: Building on the Quick Response Team integration of the Southern Ohio Medical Center and the Adams County Regional Medical Center with the existing Counseling Center 24/7 response team to include the Portsmouth Fire Department as a new partner. Persons who refuse medical care or Emergency Department transport will be offered a brief screening, referral to treatment, MAT linkage or other crisis placement services. The expansion will allow access to a larger proportion of the community missed in the current Emergency Department response.

\*Funding amounts listed are pulled from point in time reports which are subject to change as grants are awarded.

## SERVICE OVERVIEW

### TREATMENT

Court Intervention: Expand access to MAT while addressing social determinants of health and focusing on causal factors that trigger and exacerbate the disease cycle of addiction through assessment and evidence-based programming for justice involved clients.

Residential TREATMENT Expand access through OTP and residential support creating multiagency pathway to treatment including through the emergency department, overdose response team and harm reduction program. Further expand services to adolescents and their families through residential treatment and clinical support services.

MOMS (Maternal Opiate Medical Supports): provide MAT and clinical support wrap-around services to pregnant and post-partum women diagnosed with opioid or stimulant use disorder.

### RECOVERY SUPPORTS

QRT/Peer Support: utilize a rapid access model combined with support to develop authentic relationships and facilitate referrals to community providers.

Housing Supports: aid clients in gaining and maintaining housing in recovery housing, sober living settings and independent community living environments. Targeting both single adults and women and children.

### PREVENTION/EARLY INTERVENTION

Athens Adolescent Outpatient Program: expand the existing, evidence-based program to provide early intervention/outpatient services, clinical support, and wrap around services to Appalachian students.

Providers: Athens Mental Health Inc., dba The Gathering Place; Serenity Grove; The John W. Clem Recovery House; Integrated Services for Behavioral Health (ISBH); Hopewell Health Centers, Inc. (HHC); TASC; Health Recovery Services (HRS)

Highlight Innovative Programs: The Health Recovery Services Athens Adolescent Outpatient Program (AAOP) offers ASAM Level 1 outpatient care and will expand to support early intervention, clinical support and wrap around services through a multidisciplinary, trauma informed team. The AAOP reduces transportation barriers and supports families who lack financial means and Medicaid support for services. The program works collaboratively with the school system to identify eligible families and children and overcomes barriers created by poverty and a family history of substance use.

Highlight Cross System Collaborations: Partnership between ISBH and the Vinton County Drug court for county, felony, and juvenile courts. Aid in finding housing, employment, and treatment for addiction to participants in the Drug Court Programs.

Partnership between O'Bleness Hospital emergency department, peer supporters and Hopewell Health Center to implement timely engagement and individualized care including induction onto MAT, engagement with peer support and build authentic relationships to support recovery.

### SERVICE OVERVIEW

#### RECOVERY SUPPORTS

Peer Support: THRIVE peer support to engage persons in emergency departments after an overdose and those who are incarcerated. ASCENT will also provide non-clinical assistance for all residents through weekly peer supports and crisis prevention services.

Treatment and Recovery Resources Application: Using the GetHelpNow platform to provide information to first responders and the community regarding available treatment and supports. It provides quick access to crisis lines and connections to providers based on user input regarding location and services desired.

#### PREVENTION/EARLY INTERVENTION

Universal and Indicated Strategies for youth: Family Recovery Center will engage is coordinated prevention programming using the Strategic Prevention Framework to implement community prevention strategies. Data collection, partnerships with law enforcement, establishing a community drug prevention coalition and provide drug free workplace training.

Providers: Family Recovery Center, Ascend Innovations, Ascent powered by Sober Grid, THRIVE

Highlight Innovative Programs: The GetHelpNow application will be designed through partnerships with the board and treatment providers to ensure local providers of services across the continuum are available to all persons within the board area. The application provides information to support law enforcement and first responders who often desire to refer residents to services but are often unsure of the appropriate organization to contact. Using the direct interface through a mobile application will allow residents, first responders and law enforcement to access available resources at the moment they are needed.

Highlight Cross System Collaborations: THIRVE peer support will partner with area hospitals to engage with persons in the hospital struggling with opioid and/or stimulant use disorders. Thrive will also provide peer supporters to the three county jails for both male and female incarcerated individuals. The connection will continue through release from the hospital or the jail to assist in treatment, recovery supports and other services engagement.

## SERVICE OVERVIEW

### TREATMENT

Family Recovery MAT/Outreach provides transportation and telehealth resources to provide medication assisted treatment to clients who have opiate use disorders.

Eastern Ohio Corrections Center MAT/Pre-release program: the naltrexone reentry program allows those incarcerated or on work release to participate in medication assisted treatment.

### RECOVERY SUPPORTS

Ascent: providing personalized peer coaching services 24/7 supporting access to additional treatment and recovery support services through referral.

Providers: Family Recovery Center, Eastern Ohio Corrections Center, Ascent

Highlight Innovative Programs: Family Recovery Center engages rural and historically underserved communities in the region through transportation and telehealth treatment supports. This overcomes the isolation and barriers to receiving need medication assisted treatment and other behavioral health treatment often found in rural communities.

Highlight Cross System Collaborations: Ascent peer support will connect clients across community systems including treatment centers, drug courts and recovery organizations. In-reach will link hospitals, treatment centers and first responders. The peers will assist in education agencies and organizations on peer recovery supports, client engagement strategies and resources available within the community.

## SERVICE OVERVIEW

### TREATMENT

Quick Response Team: Collaborative effort between local law enforcement, treatment providers, and peer support specialists to save lives, reduce harm, and increase hope of recovery for individuals experiencing OUD.

Kinship Navigation: Increase services to Kinship Families impacted by OUD/SUD involved with County PCSAs.

Withdrawal Management: Provide stabilization, begin MAT induction if warranted, and connect to outpatient treatment and supports.

Criminal Justice Linkage: Provide case management services focused on providing linkage to treatment and recovery support services for individuals with opioid and stimulant use disorders.

### PREVENTION

Latino Outreach Ministry: Provide education focused on addiction resources and services for the Latino Community via presentations.

African American Church Outreach and Education Program: Provide faith-based community conversations surrounding opioid use disorder.

PAX Good Behavior Game: Provide PAX training to local school districts.

Messaging/Media: Provide opioid and stimulant prevention and awareness messaging.

Providers: Adelante Inc., Arnita Pittman Community Recovery Center, Crawford County JFS, Marion County Children Services Board, Together We Hurt Together We Heal, Maryhaven, Marion Area Counseling Center, Recovery Works

Highlight Innovative Programs: Prevention projects leverage existing SOR direct funds and expand the work already being done for the Latino and African American ministries.

## SERVICE OVERVIEW

### TREATMENT

MAT expansion for indigent clients. Hospital referral to treatment program. Utilize Alternative Paths as a residential/detox and referral base to other appropriate levels of care in partnership with a QRT team. Creation of open access MAT access. Ohio Guidestone will implement a partial hospitalization program and expand IOP treatment.

### RECOVERY SUPPORTS

Specific peer training for crisis programming, recovery house programming and jail programming; family support peer training for family members of a person diagnosed with opiate and/or stimulant use disorders.

Expansion of recovery housing. Creation of a recovery services navigator at Ohio Guidestone.

Crisis peer support programming. Ohio Guidestone 24-hour crisis care services to include crisis navigators.

### CHILDREN AND FAMILIES

Medina County Family Support Program will be a collaboration between Robby's Voice (RV) and Hope Recovery Community (HRC). RV and HRC will work together to train up to five family members as a team of Family Support Specialists. This program will serve families and loved ones of those struggling with an opiate and/or stimulant use disorder.

Providers: Alternative Paths, Ohio Guidestone, Cathy's House, Hope Recovery Community

Highlight Innovative Programs: Alternative Paths will use QRT teams for referrals.

Highlight Cross System Collaborations: Training of family support peers through a collaboration between two agencies. Using navigators at an after-hour referral center to connect people to appropriate levels of care 24/7.

## SERVICE OVERVIEW

### TREATMENT

Maternal Health Case Managers: provide a continuum of services to pregnant and post-partum women include case management, education, referrals, and other supports related to pregnancy.

Medication Assisted TREATMENT Access to MAT will be supported through provision of transportation, clinical services, and financial supports to include medical appointments, lab work and medications including all three forms of FDA approved MAT.

Integrative Family and Systems Treatment (I-FAST): the IFAST model will be used within the partner agencies in an evidence supported family treatment model that provides wrap around treatment services for families struggling due to an opioid addiction.

Treatment Navigation: A treatment navigator will support Cambridge Municipal Court involved individuals in receiving treatment services including medication assisted treatment.

### RECOVERY SUPPORTS

Peer RECOVERY SUPPORTS ensure participants have access to needed resources and provide guidance, support, and evidence-based education for participants and families. Recovery housing will continue to be provided through referrals. Also included is a job coach to assist clients and families through specific, measurable, and individualized services.

Parent/Child Coach: a coach will aid in resolving parenting and family issues alongside transportation to assist in overcoming barriers related to a lack of public transportation and a rural environment.

Recovery Housing: provide financial assistance for recovery housing to those individuals unable to afford it. Provision of safe and affordable housing for individuals and families includes subsidized rent throughout the six-county board region.

### PREVENTION/EARLY INTERVENTION

Healthy Parenting Education: Using the Love and Logic and Family Wellness: Survival Skills for Healthy Families education programming will support parenting skills and education including those within recovery housing and all participating partners in the communities.

Providers: Cambridge Municipal Court, Allwell, Guernsey Health Department, Muskingum Health Department, Perry Behavioral Healthcare, Muskingum Behavioral Health, Guernsey Behavioral Health, Coshocton Behavioral Health Choices.

**Highlight Innovative Programs:** The Maternal Health Case Managers program creates a unique source of support for parenting and post-partum women by leading with health department staff who engage potential clients across the community. The health department is uniquely positioned to engage with multiple systems within the county including hospitals, physician offices, housing resources, child welfare systems and family courts. Case managers provide engagement within the community by seeking out women who may need potential services for substance use disorders and who are pregnant or post-partum. After engagement the case managers support women throughout their pregnancy and delivery becoming a support and an advocate to ensure a healthy, stable family for the newborn.

**Highlight Cross System Collaborations:** New partnerships through the collaborative approach taken across the six-county region include partnerships with Muskingum County Adult and Child Protective Services and the Muskingum County Juvenile Court. Within the region medical providers serve as both referral sources and partners including Genesis Health care System, Southeastern Med, Coshocton Regional Medical Center, and county health departments. Integration with county courts and child welfare partnerships exist across the region and provide referrals to participating agencies and collaborative support for participants.

| SOR 2.0 Direct Funded               | N/A            |              |  |
| Total SOR Investment in the County* | \$1,381,486.00 |              |  |

\*Funding amounts listed are pulled from point in time reports which are subject to change as grants are awarded.

### SERVICE OVERVIEW

#### TREATMENT

Provide coverage for indigent clients not accessible through peer support to include MAT. Richland county is home to a newly built free-standing withdrawal management facility. Adolescent SUD treatment is being offered. There has been expansion of trauma-based treatment services.

#### RECOVERY SUPPORTS

Expand peer support treatment and recovery. Provide employment gap services including vocational training.

Family Recovery Housing & Maternal Recovery Housing: Provide recovery supports for indigent clients and families to include MAT.

HOUSING: Expansion of numerous recovery housing beds for emergencies.

MINORITIES: Richland county has numerous grants that focus on treatment, recovery, and housing assistance for minorities.

#### PREVENTION/CHILDREN AND FAMILIES

Expansion of community outreach, case management, and treatment for high-risk children and families. Family waiting rooms have been added in some treatment facilities. Vaping and tobacco prevention and cessation programs are expanding.

Providers: Catalyst Life Services, Mansfield UMADAOP, Third Street Family Health Services, Family Life Counseling, Healing Hearts and Community Action for Capable Youth

Highlight Innovative Programs: Richland County places a priority on serving the uninsured and under-insured with the same quality of care at all levels and within all systems.

Highlight Cross System Collaborations: Peer expansion helps tie all levels of care into a continuum of care with a focus on the whole family. Prevention overlaps with treatment especially in youth-centered programming such as vaping and tobacco prevention and cessation.

## SERVICE OVERVIEW

### TREATMENT

Treatment Services: Including Outpatient, Case Management, Residential Treatment, and Medication Assisted Treatment

### RECOVERY SUPPORTS

Recovery Housing: Provide sober supportive housing

Peer Support: Increase access to SUD peer support services

Vocational Support: Assist individuals with needs or barriers to obtaining or maintaining employment

### PREVENTION

Targeted Awareness/Harm Reduction/Education: information dissemination, education, community-based process, environmental services and problem identification and referral to reduce the number of individuals developing OUD or Stimulant Use Disorders

### EARLY INTERVENTION

Path Outreach Worker: Increased outreach and engagement

Providers: Catholic Charities, Portage Path Behavioral Health, CHC Addiction Services, ARC Recovery Services, Community Support Services, Oriana House, Sober First LLC (dba Ascent powered by Sober Grid), Summit Psychological Associates, Truly Reaching You, Case Western Reserve University

Highlight Innovative Programs: Inclusion of PATH Outreach Worker to target those experiencing homelessness with a primary diagnosis of opiate or stimulant use disorder to engage them in services.

Highlight Cross System Collaborations: MAT in the county Jail. The Summit County Community Partnership (SCCP) - a community coalition dedicated to preventing underage alcohol use, substance misuse and problem gambling.

\*Funding amounts listed are pulled from point in time reports which are subject to change as grants are awarded.

### SERVICE OVERVIEW

#### TREATMENT

Criminal Justice: Provide access to MAT for individuals involved with criminal justice and in jails.

#### RECOVERY SUPPORTS

Increase access to peer support in jails and treatment and recovery.

Family Recovery Housing & Maternal Recovery Housing: Provide recovery supports.

Indigent services: Provide MAT and housing for indigent individuals.

Criminal Justice Peers: Increase access to SUD peer support services.

Housing: Expansion of numerous recovery housing projects and beds for indigent residents.

Children and Families: Expansion of recovery housing for children and families.

Providers: First Step Recovery, Glenbeigh, Meridian Health Care, Parkman Recovery, Faith Driven Ministries, Foster Living, Keys 2 a 2nd Chance, Nikki's House, Park Place, Wellspring, Coleman Professional Services, Flying HIGH Inc

Highlight Innovative Programs: There is a focus on treating the most vulnerable clients in Trumbull county. A significant amount of funding is marked for MAT and housing for the indigent with peer expansion serving as infrastructure building and multi- system navigation.

Highlight Cross System Collaborations: Treatment, recovery, and housing overlap in multiple pilots.

## SERVICE OVERVIEW

### TREATMENT

Criminal Justice: A case manager will be added to the staff at the Court of Common Pleas. A nurse has been added and MAT supplies expanded at Ohio Guidestone. A peer supporter and a peer navigator have been added to two treatment programs. A director of addictions and recovery has also been hired.

Transportation: Provide transportation to services as needed.

### RECOVERY SUPPORTS

Criminal Justice Peers: Increase access to SUD peer support services.

### PREVENTION

Media Campaign: Increase public awareness of risks and dangers of SUD, treatment, and recovery supports. Hold community events. A prevention facilitator has been hired.

CRISIS: Ohio Guidestone provides crisis services.

Providers: Ohio Guidestone, Carroll County Common Pleas Court

Highlight Innovative Programs: By adding a counselor/case manager to the Court of Common Pleas, many who might have been incarcerated are assessed for SUD treatment services then referred to appropriate levels of care as part of sentencing.

Highlight Cross System Collaborations: Same as above. Also, peer infrastructure enhancement leads to multi-system collaboration and navigators enhance treatment adherence at all levels of care in all types of treatment.

## SERVICE OVERVIEW

### TREATMENT

Quick Response Team: Provide overdose response in partnership with local first responders, community members and organizations. Engage in assertive follow-up with persons who present for community-based crisis response and Narcan distribution.

MAT: Provide medication-assisted treatment services with individuals diagnosed with opioid use disorder.

### PREVENTION

Community-Based: Provide universal, selective, and indicated prevention screening, school-based prevention curriculum, and provide support groups and education for families and caregivers.

Strategic messaging campaigns

Providers: Talbert House, Brightview Health, OneCity for Recovery

Highlight Innovative Programs: Prevention program intends to utilize gas pump screens and other social media to convey stigma reduction messages

\*Funding amounts listed are pulled from point in time reports which are subject to change as grants are awarded.

### SERVICE OVERVIEW

#### TREATMENT

Expansion of MAT, family support counseling, individual counseling, case management and care coordination.

Transportation: Provide transportation to services as needed

CRISIS: 24-hour peer crisis services are provided.

#### RECOVERY SUPPORTS

Workforce development activities include job coaching and enhanced peer services including peer navigators.

Family Recovery Housing: A Tier 3 Recovery House has been built to enhance the continuum of care for children and families in recovery.

#### PREVENTION

A prevention specialist will work on wellness activities/family system prevention education.

Providers: Anazao, Catholic Charities, The Counseling Center, One Eighty

Highlight Innovative Programs: Wayne Holmes is using SAMHSA evidence-based wellness and prevention activities in some residential programming. Much therapeutic programming is family-systems oriented.

Highlight Cross System Collaborations: A new Tier 3 recovery house has been added next door to existing family-based recovery housing. MAT is being incorporated into programming. Peer expansion includes navigators to improve access to resources along the continuum of care.
