

Temperature Log for Freezer – Fahrenheit DAYS 1–15

Monitor temperatures closely!

- 1. Write your initials below in "Staff Initials," and note the time in "Exact Time."
- 2. Document min/max once each workday, preferably in the morning and document current temps twice, at beginning and end of each workday.
- 3. Put an "X" in the row that corresponds to the freezer's temperature.
- 4. If any out-of-range temp, see instructions to the right.
- 5. After each month has ended, save each month's log for 3 years.

Take action if temp is out of range—too warm (above 5°F) or too cold (below -58°F).

- 1. Label exposed vaccine "do not use," and store it under proper conditions as quickly as possible. Do not discard vaccines unless directed to by your state/local health department and/or the manufacturer(s).
- 2. Record the out-of-range temps and the room temp in the "Action" area on the bottom of the log.
- 3. Notify your vaccine coordinator, or call the immunization program at your state or local health department for guidance.
- 4. Document the action taken on the "Vaccine Storage Troubleshooting Record" on page 3.

If you have a vaccine storage issue, also complete "Vaccine Storage Troubleshooting Record" found on page 3.

Vaccine Storage Troubleshooting Record (check of	ne) \square Refrigerator	□ Freezer
--	----------------------------	-----------

Page 3 of 3

Use this form to document any unacceptable vaccine storage event, such as exposure of refrigerated vaccines to temperatures that are outside the manufacturers' recommended storage ranges.

A fillable troubleshooting record (i.e., editable PDF) can also be found at www.immunize.org/clinic/storage-handling.asp.

	A fillable troubleshoo	oting record (i.e., editable PD)	r) can also be found at www.immunize.org/clinic	c/storage-nandling.asp.										
Date & Time of Event If multiple, related events occurred, see Description of Event below.	Storage Unit Tempera at the time the problem wa		Room Temperature at the time the problem was discovered	Person Completing Report										
Date:	Temp when discovered:		Temp when discovered:	Name:										
Time:	Minimum temp:	Maximum temp:	Title:	Date:										
Description of Event (If multiple, related events occurred, list each date, time, and length of time out of storage.) General description (i.e., what happened?) Estimated length of time between event and last documented reading of storage temperature in acceptable range (2° to 8°C [36° to 46°F] for refrigerator; -50° to -15°C [-58° to 5°F] for freezer) Inventory of affected vaccines, including (1) lot #s and (2) whether purchased with public (for example, VFC) or private funds (Use separate sheet if needed, but maintain the inventory with this troubleshooting record.) At the time of the event, what else was in the storage unit? For example, were there water bottles in the refrigerator and/or frozen coolant packs in the freezer? Prior to this event, have there been any storage problems with this unit and/or with the affected vaccine? Include any other information you feel might be relevant to understanding the event.														
Action Taken (Document thorous) When were the affected vaccines plocal health department and/or the Who was contacted regarding the IMPORTANT: What did you do to	olaced in proper storage conditi e manufacturer[s].) incident?
