Project Overview

A. Project Description

This project will address previously identified building envelope conditions at Mershon Auditorium (0055), Biological Sciences Building (0276), and ElectroScience Laboratory (0009). Scope will include masonry repair (CMU, brick, and terra cotta), joint repair, sealant replacement, flashing, waterproofing, coping caps and skyward facing joints, roofing edge conditions, lintel replacement, fall protection, and painting. The University reserves the right to add scope and building locations as the need arises.

The awarded team will begin generating a scope of services based on existing condition assessments that will be provided by the University. The Registered Design Professional will need to confirm the current conditions of the buildings as referenced by the existing condition assessment reports.

If required, the Registered Design Professional will prepare the POR as an Additional Service.

B. Scope of Services

The project and construction budget as listed in this RFQ is estimated.

For projects advertised with an appropriately developed Program of Requirements (POR), upon award of the Agreement, commence with Design. For projects without such a POR, upon award of the Agreement, commence by developing the Program of Requirements.

The project shall follow the applicable University Sustainability Standards: https://fod.osu.edu/sites/default/files/div_18.pdf.

The selected A/E, as a portion of its required Scope of Services and prior to submitting its proposals, will discuss and clarify with the Owner and/or the Contracting Authority, the cost breakdown of the Architect/Engineer Agreement detailed cost components to address the Owner's project requirements. Participate in the Encouraging Growth, Diversity & Equity (EDGE) Program as required by statute and the Agreement. Required Professional Liability Insurance will be per Exhibit A – A/E Terms and Conditions Article 7.2.6.
