

# RFQ Question and Answer List

## State of Ohio Standard Forms and Documents

---

Project Name Post-Construction Services Consultant List Project Number SFC-250994

---

Date posted: 3/1/2024

**Date revised: 3/21/2024**

Below are the questions that have been received to date for the RFQ of the above-referenced project:

1. We noticed that the RFQ does not specifically mention "Surveying" services, such as monitoring of movement, foundation settling, shifting, floor cracking, floor movement, etc. It seems appropriate to include here.
  - A. Yes, although not specifically mentioned, we are seeking all professional service disciplines related to Post-Construction forensic investigation and/or remediation
2. From an engineering standpoint, does this entail the evaluation of systems that need to be fixed or require commissioning.
  - A. Yes, it could include the evaluation/investigation of root cause, and/or the Professional Services to implement a remediation project.
3. Do we need to include additional projects to give you ten project sheets, or do you just want our active OFCC projects?
  - A. Project sheets with active projects would be best. Companies can include additional projects if they would like but they must include any active projects.
