

A school district's priority for state assistance is factored from the district's three-year average "income adjusted valuation per pupil," as calculated by the Department of Education pursuant to ORC Section 3318.011. Under that calculation, the district's taxable "valuation per pupil" is adjusted by a factor reflecting the median income of the district's taxpayers. A district's valuation is the total value of all property in the school district as assessed for tax purposes. Annually, districts are ranked from lowest to highest averaged adjusted valuation per pupil based on updated factors.
