### Project Overview

#### A. Project Description

The Ohio Department of Natural Resources (ODNR), through the Division of Parks and Watercraft is responsible for the management of Ohio's State Parks, 16 of which offer overnight rental opportunities for individual, one, two, and three-bedroom cabins. Cabins were constructed in the parks between 1940 and 2026 with many undergoing minor renovations to date. ODNR has previously conducted assessments with several rounds of improvements completed to the cabins at multiple Park locations. This project serves as a continuation of those efforts with renovations to cabins at both Lake Hope State Park in Vinton County and Maumee State Park in Lucas County (managed by concessionaires in partnership with ODNR).

Through this selection process, ODNR will engage an Architectural firm to provide design documents for complete, exterior and structural improvements to 36 cabins at Lake Hope – the Furnace and Forest cabins, in addition to full, interior renovations in 24 cabins at Maumee State Park.

As scope and associated costs are solidified, projects of similar types, scope and budget may be added or removed as ODNR initiatives and funding allow.

While ODNR anticipates centralized services from the selected Consultant at the ODNR Fountain Square complex at 2045 Morse Road, Columbus, Ohio 43229, travel will be necessary to complete the services. For the purposes of scoring proximity to project site, the ODNR Fountain Square complex will be considered the project site.

#### B. Scope of Services

The selected team will develop site-specific plans and reconcile any existing master plans for selected locations, beginning with the confirmation of facility and site assessments. These reconciliations will address the site utilization needs of various user groups, and utility infrastructure needs versus constraints. They will also include recommended scopes of construction projects and appropriate phasing.

The selected firm shall apply for and obtain all necessary regulatory permits, maintain current estimates of probable construction costs through the design phase, and provide construction administration services. Permitting and/or coordination with United States Army Corps of Engineers (USACE), United States Fish and Wildlife Service (USFWS), ODNR Dam Safety Program, ODNR Division of Wildlife, Ohio Environmental Protection Agency (OEPA), State Historic Preservation Office (SHPO), and the local floodplain administrators will be required. The selected firm will provide the

engineering analysis and calculations needed to advance the design, including structural, geotechnical, and hydraulics engineering.

All design and construction shall comply with the current editions of all applicable national, state, and local codes, as well as accessibility standards, including ADA, ICC A117.1, and the ABA Outdoor Developed Areas Guidelines. The Ohio Department of Natural Resources Division of Engineering has developed a set of design guidelines for construction projects. It is expected that all architects, engineers, consultants, and contractors will be familiar with these design guidelines which will serve as the preference for all construction projects when developing final project specifications. A complete set of current guidelines is available at <https://ohiodnr.gov/business-and-industry/services-to-business-industry/design-guidelines-all>.

The selected A/E, as a portion of its required Scope of Services and prior to submitting its proposals, will discuss and clarify with the Owner and/or the Contracting Authority, the cost breakdown of the Architect/Engineer Agreement detailed cost components to address the Owner's project requirements. Participate in the Encouraging Growth, Diversity & Equity (EDGE) Program as required by statute and the Agreement.

As required by the Agreement, and as properly authorized, provide the following categories of services: Program Verification, Schematic Design, Design Development, Construction Document Preparation, Bid and Award Support, Conformed Documents, Construction Administration, Post-Construction, and Additional Services of all types.

As scope and associated costs are solidified, projects of similar types, scope, and budget may be added or removed as ODNR initiatives and funding allow. Accordingly, the contract with the selected firm may be extended and amended to meet the goals of ODNR's Capital Improvements Program.

Refer to the *Ohio Facilities Construction Manual* for additional information about the type and extent of services required for each. A copy of the standard Agreement can be obtained at the OFCC website at <https://ofcc.ohio.gov>.

During the construction period, provide not less than 16 hours (excluding travel time) on-site construction administration services each week, including (1) attendance at progress meetings, (2) a written field report of each site visit, (3) on-site representation comprised of the A/E and its consultant staff involved in the primary design of the project, all having relevant and appropriate types of construction administration experience.

For purposes of completing the Relevant Project Experience Matrix in Section F of the *Statement of Qualifications* (Form F110-330), below is a list of relevant scope of work requirements for this RFQ:

1. Experience designing work of similar scope (renovation of vacation rental facilities, i.e. Cabins).
2. Experience with space planning, furniture selection and administration of interior packages.
3. Ability to manage design and phased construction projects with multiple sites under single contract.
4. Agility to manage design and construction projects in an occupied State Park setting.
5. Ability to manage design and construction projects under the GC delivery model.
6. Experience with Public Construction.
7. Experience with accurate Project Estimating.
8. Experience with Schedule Management.
9. Experience with Construction Administration.
10. Experience with Conducting full assessments of existing facility conditions.

The **Basic Fee** includes all registered design professional services and consultant services necessary for proper completion of the Basic Services, including validation of existing conditions (but not subsurface or hidden conditions) and preparation of cost estimates and design schedules for

purchases from or investment in any Russian institution or company. Failure to do so may cause their *Statement of Qualifications* to be rejected.

### J. Submittal Instructions

Firms are required to submit the current version of *Statement of Qualifications* (Form F110-330) available via the OFCC website at <https://ofcc.ohio.gov>.

Electronic submittals, if requested, should be combined into one PDF file named with the project number listed on the RFQ and your firm's name, followed by "SOQ". Use the "print" feature of Adobe Acrobat or similar software for creating a PDF rather than using a scanner. If possible, please reduce the file size of the PDF. In Acrobat, go to Advanced, then PDF Optimizer. **Electronic submittals are limited to a maximum file size of 25 MB.**

Paper copies of the *Statement of Qualifications*, if requested, should be stapled only. Do not use special bindings or coverings of any type. Cover letters and transmittals are not necessary.

CD/DVD copies of the *Statement of Qualifications*, if requested, should have the sleeve labeled with the project number and firm name, followed by "SOQ".

Facsimile copies of the *Statement of Qualifications* will not be accepted.

Firms are requested to identify professional registrations, memberships and credentials including: LEED GA, LEED AP, LEED AP+, CCCA, CCM, CCS, CDT, CPE, DBIA, and any other appropriate design and construction industry credentials. Identify that information on the resume page for individual in Block 22, Section E of the F110-330 form.
