Project Overview

A. Project Description

The Office of Student Life is seeking the professional services of a Criteria Architect/Engineer for the Baker Hall Portable AC and Electrical Upgrades project. A thoughtful design will be required as it relates to the routing of conduit in student rooms and public spaces, some of which contain decorative or ornamental plasterwork.

In advance of this project, Ohio States energy partner, ENGIE, will be replacing the existing 100kVA transformer. The project will then be responsible for the distribution switchboards, branch panels and circuits, and portable air conditioning units.

The selected Criteria Architect/Engineer ("C-A/E"), as a portion of its required Scope of Services and prior to submitting its proposals, will discuss and clarify with the Owner/Contracting Authority, the cost breakdown of the Architect/Engineer Agreement detailed cost components to address the Owner's project requirements.
