

**STATE OF OHIO
DEPARTMENT OF NATURAL RESOURCES
DIVISION OF OIL AND GAS RESOURCES MANAGEMENT**

In re the Matter of the Application of Ascent :
Resources – Utica, LLC for Unit Operation :
:
Edington W ATH HR Unit :
:

APPLICATION

Pursuant to R.C. 1509.28, Ascent Resources – Utica, LLC (“Ascent”) hereby respectfully requests the Chief of the Division of Oil and Gas Resources Management (“Division”) to issue an order authorizing Ascent to operate the Unitized Formation and applicable land area in Harrison and Belmont Counties, Ohio (hereinafter, the “Edington W ATH HR Unit”) as a unit according to the Unit Plan attached hereto and as more fully described herein. Ascent makes this request for, and unitization is necessary for, the purpose of increasing substantially the ultimate recovery of oil and natural gas, including related liquids, from the Unitized Formation, and to protect the correlative rights of unit owners, consistent with the public policy of Ohio to conserve and develop the state’s natural resources and prevent waste.

I.
APPLICANT INFORMATION

Ascent is a limited liability company organized under the laws of the State of Oklahoma, with its principal office located at 3501 NW 63rd Street, Oklahoma City, Oklahoma 73116. Ascent is registered as an “owner” with the Division and is in good standing with the Division.

Ascent designates to receive service, and respectfully requests that all orders, correspondence, pleadings, and documents from the Division and other persons concerning this filing be served upon, the following:

II. PROJECT DESCRIPTION

The Edington W ATH HR Unit is located in Harrison and Belmont Counties, Ohio, and consists of thirty-four (34) separate tracts of land. See Exhibits A-1 and A-2 of the Unit Operating Agreement (showing the plat and tract participations, respectively). The total land area in the Edington W ATH HR Unit is approximately 545.694 acres¹ and, at the time of this Application, Ascent and the other committed working interest owners have the right to drill on and produce from 386.591 acres of the proposed unit – i.e., more than 70% of the unit area, which is above the sixty-five percent (65%) threshold required by R.C. 1509.28. Ascent seeks a unit order because there are unleased and partially unleased tracts within the Edington W ATH HR Unit as well as tracts whose ownership may be in question.

Overall, Ascent seeks this unit order to allow it to develop the entirety of the Edington W ATH HR Unit in accordance with the Unit Plan to protect the correlative rights of all of the interest owners in the unit and prevent the waste of natural resources that would otherwise occur. To effectively and efficiently develop the Unit Area, therefore, Ascent seeks authorization from the Division, as more specifically described herein, to drill and complete two horizontal wells in the Unitized Formation, from a well pad located outside of the northwest corner of the unit to efficiently test, develop, operate and produce the Unitized Formation for oil, natural gas, and related liquids production.

Ascent's plan for unit operations (the "Unit Plan") is attached to this Application as Attachment 1. Among other things, the Unit Plan allocates unit production and expenses based upon each tract's surface acreage participation in the unit, includes various operating provisions in the event that other entities or persons become owners in the unit, as that term is understood in the Ohio Revised Code, and conforms to industry standards for the drilling and operating of horizontal wells.

¹ Acreage in the Edington W ATH HR Unit was calculated using a combination of on-the-ground survey data and deed acreage.

III.
THE CHIEF SHOULD GRANT THIS APPLICATION

A Contents of Application

Pursuant to the Division's *Unitization Application Procedural Guideline* (dated February 1, 2022), a unitization application must include the following:

1. A cover letter requesting unitization.
 - See the cover letter and this Application.
2. An affidavit attesting that the applicant is the owner (as defined in Revised Code Section 1509.01(K)) of at least 65% of the land overlying the pool that is the subject of the unitization request.
 - See Exhibit 9.²
3. A summary of the request for unitization that includes all of the following information:
 - a. A statement describing the reasons why unitization is necessary;
 - b. A description of the plan for development of the unit;
 - c. An identification of the geologic formation(s) to be developed;
 - d. An identification of the amount of acreage included in the unit and how the acreage was determined;
 - e. An estimate of the value of the recovery and net PV10 of oil and gas for each well proposed to be drilled in the unit area;
 - f. An estimate of the cost to drill and operate each well in the proposed unit, including an explanation of what costs are included in the estimate; and
 - g. A designated contact person for the applicant for communication purposes with the Division, including legal counsel for the applicant (if applicable).
 - See entirety of this Application, and in particular Sections II and III(C).
4. A plat map of the unit that identifies the counties, townships, section numbers, parcel boundaries, and all parcels in the unit, including the tract and corresponding parcel number.
 - See Exhibit A-1 to the Unit Operating Agreement.
5. A list identifying all mineral owners in the proposed unit, leased or unleased, that includes the name, current address, parcel number, and respective acreage of each mineral owner. If a mineral owner is a corporation or other business entity, the name of a contact person within that corporation or business.
 - See Exhibit A-2 to the Unit Operating Agreement.
6. A list identifying all unleased mineral owners that includes the name, current address, parcel number, and respective acreage of each unleased mineral owner. If an unleased mineral owner is a corporation or other business entity, the name of a contact person within that corporation or business.
 - See Exhibit A-3 to the Unit Operating Agreement.

² References to Exhibit 1 through Exhibit 11 refer to those exhibits in Attachment 2.

7. A list identifying all committed working interest owners in the proposed unit that includes the name, current address, parcel number, and respective acreage of each committed working interest owner. If a committed working interest owner is a corporation or other business entity, the name of a contact person within that corporation or business.
 - See Exhibit A-4 to the Unit Operating Agreement.
8. A list identifying all uncommitted working interest owners in the proposed unit that includes the name, current address, parcel number, and respective acreage of each uncommitted working interest owner. If an uncommitted working interest owner is a corporation or other business entity, the name of a contact person within that corporation or business.
 - See Exhibit A-5 to the Unit Operating Agreement.
9. A list identifying all parcels subject to pending ownership litigation.
 - See Exhibit A-6 to the Unit Operating Agreement.
10. A mailing list in Microsoft Excel® format containing only the names and addresses of all mineral owners (leased and unleased) and all working interest owners (committed and uncommitted).
 - This list is to be uploaded to the Division's FTP site.
11. A map that shows all of the following:
 - a. The boundary of the proposed unit area;
 - b. The total acreage of the proposed unit area;
 - c. The proposed location of the well pad(s) and wells to be drilled that complies with state setback and spacing requirements;
 - d. The tracts of land within the unit area that are leased to the applicant, shown in yellow;
 - e. The tracts of land within the unit area that are unleased, shown in red;
 - f. The tracts of land within the unit area that are leased to other operators (i.e., uncommitted working interest owners), including an identification of the operators, shown in green;
 - g. A four hundred foot boundary around each property in the unit that is not leased by the applicant or that is not subject to an agreement with the applicant;
 - h. Identification of each tract within the unit area by parcel number of a size that is legible; and
 - i. The scale.
 - See Exhibit 3.
12. An aerial photograph of a size that is legible that shows all of the following:
 - a. The boundary of the proposed unit area;
 - b. The proposed location of the well pad(s) and wells to be drilled;
 - c. The tracts of land within the proposed unit area that are unleased outlined in red;

- d. Identification of each tract within the unit area by tract number and corresponding parcel number of a size that is legible; and
 - e. The scale.
 - See Exhibit 4.
13. A gamma ray-density or gamma-ray resistivity geophysical type log identifying the proposed geological formations to be produced.
- See Exhibit 2.
14. A cross-section showing the applicable formations that the applicant is proposing to drill into and produce from in the unit area.
- See Exhibit 1 and Exhibit 2.
15. A map showing all existing units adjacent to the unit proposed in the application with an identification of any permitted, drilled, and/or producing wells in the existing units.
- See Exhibit 6.
16. An exhibit showing unitized and non-unitized scenarios for each well proposed to be drilled in the proposed unit area and assuming the spacing requirements of R.C. Chapter 1509 and/or Ohio Admin. Code 1501:9: (a) an estimate of the cost to drill and operate, (b) the value of recovery, and (c) the net PV10 of oil and gas.
- See Exhibit 5.
17. An exhibit showing the locations and distances of the well(s) to the proposed unit area and an identification of the well(s) by name, permit number, lateral length, and production start date that reserve calculations were based upon.
- See Exhibit 7.
18. An affidavit attesting to attempts to lease the unleased mineral owners and the attempts to commit working interest owners and an exhibit in the form of a spreadsheet that shows the attempts to lease the unleased mineral owners and the attempts to commit working interest owners that includes:
- a. The tract number and parcel number;
 - b. The mineral owner's name;
 - c. The dates of all attempts;
 - d. The address at which the contact was made or attempted;
 - e. The person who was contacted, how contact was made, and by whom;
 - f. The response given by the unleased mineral owner when contacted; and
 - g. Any joint venture or farmout proposal to another operator, if applicable.
- See Exhibit 8.
19. An affidavit attesting that the applicant acted with due diligence to identify all mineral interest owners and their current addresses within the proposed unit.
- See Exhibit 10.

20. A copy of a joint operating agreement for working interest partners, if applicable.

- See Attachment 1.

21. An affidavit attesting to a valid joint venture or other agreements for the proposed unit that discloses all joint venture partners.

- Not applicable.

22. Prefilled testimony of a geologist, an engineer, and a landman.

- See Attachments 3, 4, and 5.

23. Any additional information that the applicant determines is beneficial for the Chief to consider in support of its request.

- See entirety of Application.

Ascent has submitted all of the required information.

B. Legal Standard

R.C. 1509.28 requires the Chief of the Division to issue an order providing for the unit operation of a pool – or a part thereof – if it is reasonably necessary to increase substantially the ultimate recovery of oil and gas, and the value of the estimated additional resource recovery from the unit’s operations exceeds its additional costs. See R.C. 1509.28(A).

The Chief’s order must be on terms and conditions that are just and reasonable and prescribe a plan for unit operations that includes the following:

- (1) a description of the unit area;
- (2) a statement of the nature of the contemplated operations;
- (3) an allocation of production from the unit area not used in unit operations, or otherwise lost, to the separately owned tracts;
- (4) a provision addressing credits and charges to be made for the investment in wells, tanks, pumps, and other equipment contributed to unit operations by owners in the unit;
- (5) a provision addressing how unit operation expenses shall be determined and charged to the separately owned tracts in the unit, and how they will be paid;
- (6) a provision, if necessary, for carrying someone unable to meet their financial obligations in connection with the unit;
- (7) a provision for the supervision and conduct of unit operations in which each person has a vote with a value corresponding to the percentage of unit operations expenses chargeable against that person’s interest;
- (8) the time when operations shall commence and the manner in which, and circumstances under which, unit operations will terminate; and

- (9) such other provisions appropriate for engaging in unit operations and for the protection or adjustment of correlative rights.

See R.C. 1509.28(A). The Chief's order becomes effective once approved in writing by those owners who will be responsible for paying at least sixty-five percent (65%) of the costs of the unit's operations and by royalty and unleased fee-owners of sixty-five percent (65%) of the unit's acreage. Once effective, production that is "allocated to a separately owned tract shall be deemed, for all purposes, to have been actually produced from such tract, and all operations *** [conducted] upon any portion of the unit area shall be deemed for all purposes the conduct of such operations and production from any lease or contract for lands any portion of which is included in the unit area." R.C. 1509.28(B)(2).

C. Ascent's Application Meets this Standard

i. *The Unitized Formation is Part of a Pool*

The "Unitized Formation" consists of the subsurface portion of the Unit Area (i.e., the lands shown on Exhibit A-1 and identified in Exhibit A-2 to the Unit Operating Agreement) at a stratigraphic interval that is from the top of the Utica shale formation to the base of the Utica shale formation, which is also the base of the Point Pleasant interval, and frequently referred to as the Utica/Point Pleasant Formation. The evidence presented with this Application and at the hearing will establish that the Unitized Formation is part of a pool and, thus, an appropriate subject of unit operation under R.C. 1509.28.³ Additionally, that evidence will establish that the Unitized Formation is likely to be reasonably uniformly distributed throughout the Unit Area and thus, it is reasonable for the Unit Plan to allocate unit production and expenses to separately owned tracts on a surface acreage basis.

ii. *Unit Operations Are Reasonably Necessary to Increase Substantially the Ultimate Recovery of Oil and Gas*

The evidence presented in this Application establishes that unit operations are reasonably necessary to increase substantially the ultimate recovery of oil and gas from the lands making up the Edington W ATH HR Unit. The Unit Plan contemplates the potential drilling of two (2) horizontal wells 12,644 feet and 12,584 feet in completed lateral length.⁴ Ascent estimates that operations under the requested unit order will substantially increase the ultimate resource recovery from this unit if the unit well is drilled by approximately 46.787 BCFe of natural gas

³ A "pool" is defined under Ohio law as "an underground reservoir containing a common accumulation of oil or gas, or both, but does not include a gas storage reservoir." R.C. 1509.01(E).

⁴ See Exhibit 3.

from the Unitized Formation.⁵ Absent an order authorizing unit operations, that 46.787 BCFe of natural gas would be stranded, resulting in a waste of natural resources.

iii. *The Value of Additional Recovery Exceeds Its Additional Costs*

The evidence presented in this Application establishes that the value of the estimated additional recovery (i.e., the 46.787 BCFe of natural gas referred to above) has an estimated net present value (discounted at a 10% rate) of approximately \$43.650 million and an estimated undiscounted value of \$82.900 million, meaning that the value of that additional resource recovery exceeds the estimated additional costs incident to conducting unit operations to obtain such additional recovery.⁶ See Exhibit 5, showing for the proposed well the estimated value of the well's production and the estimated drilling and operating costs (incorporated here as if fully rewritten herein). In particular, it shows that the capital/drilling costs for both wells will be approximately \$15.735 million, and the estimated total operating costs for both wells for the first 5 years of production will be approximately \$3,115,000, averaging to approximately \$311,500 per year per well.

iv. *The Unit Plan Meets the Requirements of R.C. 1509.28*

The Unit Plan proposed by Ascent meets the requirements set forth in R.C. 1509.28. The unit area is described in the Unit Plan at Article 1, as well as on Exhibits A-1 and A-2 to the Unit Operating Agreement. The nature of the contemplated unit operations can be found generally in the Unit Plan at Article 3, with greater specificity throughout, including the Unit Operating Agreement. Unit production and unit expenses are allocated on a surface acreage basis as set forth in the Unit Plan at Articles 3 through 5 (generally), except where otherwise allocated by the Unit Operating Agreement. Payment of unit expenses is addressed generally in Article 3 of the Unit Plan. The Unit Plan provides for payment of costs by other working interest owners in the event a participant is unable to meet its financial obligations related to the unit - see, e.g., Article VI of the Unit Operating Agreement. Voting provisions related to the supervision and conduct of unit operations are set forth in Article 14 of the Unit Plan, with each person having a vote that has a value corresponding to the percentage of unit expenses chargeable against that person's

⁵ See Exhibit 5. We emphasize that these are only estimates, and like the rest of the estimates set forth in this Application, they should be treated as simply estimates based upon the best information available at the time.

⁶ *Id.*

interest. And the commencement and termination of operations are addressed in Articles 11 and 12 of the Unit Plan.⁷

IV. HEARING

R.C. 1509.28 requires the Chief to hold a hearing to consider this Application when requested by sixty-five percent (65%) of the owners of the land area underlying the proposed unit. R.C. 1509.28(A). That threshold level is met here. See Exhibit 9. Accordingly, Ascent respectfully requests that the Division schedule a hearing at an available hearing room located at the Division's Columbus complex when this Application is deemed complete and accurate.

V. CONCLUSION

R.C. 1509.28 requires the Chief of the Division to issue an order for the unit operation of a pool or a part thereof if it is reasonably necessary to increase substantially the recovery of oil and gas, and the value of the estimated additional recovery from the unit's operations exceeds its estimated additional costs. Ascent respectfully submits that the Application meets this standard, and that the terms and conditions of the Unit Plan are just and reasonable and satisfy the requirements of R.C. 1509.28(B). Ascent therefore asks the Chief to issue an order authorizing Ascent to operate the Edington W ATH HR Unit according to the Unit Plan attached hereto.

Respectfully submitted,
