SPECIFICATIONS AND REQUIREMENTS

I. DEFINITIONS:

"ODH" Ohio Department of Health

"CLIA Regulations" Clinical Laboratory Improvement Amendment Regulations

CLIA Regulations Link: <http://www.gpo.gov/fdsys/pkg/CFR-2003-title42-vol3/xml/CFR-2003-title42-vol3-part493.xml>

"Shipment" Envelope or package containing one (1) or more newborn specimens

II. SCOPE:

The mission of the Ohio Department of Health (ODH) is to improve the health of Ohioans. Securing a specialized clinical specimens courier would help ODH realize that goal. The ODH Lab is a clinical laboratory working under the CLIA regulations. CLIA regulations section 493.1242 stipulates that the clinical laboratory have policies on specimen collection, preservation, transport and storage. One key consideration is the preservation of the integrity of the sample. ODH makes every effort to identify a courier who could protect the integrity of the specimens. This may be done by utilizing the services of a courier who specializes in the transportation of clinical specimens.

The intent of this Bid is to acquire the services of a Contractor to furnish medical specimen courier services for the ODH Lab. The shipments are picked up throughout Ohio from over one hundred and twenty (120) Hospitals, Physician Offices and Clinics and delivered to the ODH Lab in Reynoldsburg Ohio. It is estimated that there will be 28,669 (see pages 9-14 for locations) shipments annually. The various locations will be shipping newborn screening specimens that consist of dried blood spot cards protected by the wrapping folded card and packed in paper envelopes. III. GENERAL REQUIREMENTS:

- A. The Contractor must deliver all specimens at 7am the next day (Monday-Saturday), so that all specimens can be tested and reported out on the same day. - E. The Contractor must keep samples dry.
