HYDRAULIC CONTROLS

See the Agricultural Sales Manual for Tractor Hydraulic Requirements. Loader Marketing does not offer field installed electronic joystick or 2 function and 3 function electronic valves for Small Frame 7020, 7030 or 7030 Premium Series Tractors. They are available only through Waterloo. Loader Marketing offers a 3rd function E-ICV valve. It is highly recommended to equip an IVT Tractor with a loader prep package if the tractor is going to be used with a loader because field installation is more costly and time consuming.

HYDRAULIC CONTROLS

See the Agricultural Sales Manual for Tractor Hydraulic Requirements. Loader Marketing does not offer field installed electronic joystick or 2 function and 3 function electronic valves for Small Frame 7020, 7030 or 7030 Premium Series Tractors. They are available only through Waterloo. Loader Marketing offers a 3rd function E-ICV valve. It is highly recommended to equip an IVT Tractor with a loader prep package if the tractor is going to be used with a loader because field installation is more costly and time consuming.
