ORDERING INSTRUCTIONS

299D COMPACT TRACK LOADER XHP
SANFORD, NC, USA

Ship Weight lbs | LIST PRICE AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

**No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.**

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS
If no reference number is listed, a Lane 2 configuration is not available.

422-3298	**299D XHP COMPACT TRACK LOADER** . . . . . 0 Available for ADSD-N, ADSD-S (Puerto Rico only), EU and APD (Australia/New Zealand only)	**$103,100**
0P-2743	**299D XHP MISC MATERIAL SANFORD** . . . . . 0 Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.	**NC**

Work Tools are sourced via Caterpillar Parts Distribution system. Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

345-6070 KIT, FOPS, LEVEL 2
For proper installation, refer to media number REHS8703.
Falling Object Protective Structure level 2.
Provides additional overhead protection.
Recommended for use in demolition applications.
Meets ISO 3449: 1992
CANNOT BE USED WITH: Auxiliary Hydraulic Cooler

474-5632 KIT, SINGLE POINT LIFT
Contains parts that attach to cab roof and allow machine to be lifted from a single point. The part number provided is for reference only. Individual parts must be ordered to install this device. Please reference REHS9970 for parts list and installation instructions.

418-5883 KIT, FOPS LEVEL 2 W/ 4 PT LIFT
For proper installation, refer to media number REHS9989.
This kit combines the Falling Object Protective Structure level 2 and 4 point lifting functionality. Recommended for use in applications where additional overhead protection and 4 point lifting are both desired (ex. demolition).

376-8077 KIT, STEEL TRACK
For proper installation, refer to media REHS5766.
This kit contains all needed components for a dealer installation of a steel track undercarriage. Kit includes triple grouser steel tracks (SALT; 15.7 in. wide), sprockets, idler wheels, roller wheels and carrier rollers.
Estimated time to install: 10 hours
** Not for use with EU dealers

345-3590 KIT,ENG AIR INTAKE, PRECLEANER
Turbine-type precleaner for use in high dust/debris applications
For proper installation, refer to media number REHS5764.
Estimated time to install: 45 minutes

388-6660 KIT, TURBO DEBRIS GUARD
For proper installation, refer to media number REHS5793.
This kit contains steel mesh guards that are desinged to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.
Estimated time to install: 1 hour 30 minutes

454-6086 KIT, GENERAL DUTY TRACK
General Duty Rubber Tracks provide a value track option, that can help lower owner and operating costs for customers with lower hour accumulation.
Consists of two 372-5798 (450mm) general duty tracks. Compatible with 279/289/299C and 299D.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

345-6070 **KIT, FOPS, LEVEL 2**
For proper installation, refer to media number REHS8703.
Falling Object Protective Structure level 2.
Provides additional overhead protection.
Recommended for use in demolition applications.
Meets ISO 3449: 1992

474-5632 **KIT, SINGLE POINT LIFT**
Contains parts that attach to cab roof and allow machine to be lifted from a single point. The part number provided is for reference only. Individual parts must be ordered to install this device. Please reference REHS9970 for parts list and installation instructions.

418-5883 **KIT, FOPS LEVEL 2 W/ 4 PT LIFT**
For proper installation, refer to media number REHS9989.
This kit combines the Falling Object Protective Structure level 2 and 4 point lifting functionality. Recommended for use in applications where additional overhead protection and 4 point lifting are both desired (ex. demolition).

376-8077 **KIT, STEEL TRACK**
For proper installation, refer to media REHS5766.
This kit contains all needed components for a dealer installation of a steel track undercarriage. Kit includes triple grouser steel tracks (SALT; 15.7 in. wide), sprockets, idler wheels, roller wheels and carrier rollers.
Estimated time to install: 10 hours
** Not for use with EU dealers

454-6086 **KIT, GENERAL DUTY TRACK**
General Duty Rubber Tracks provide a value track option, that can help lower owner and operating costs for customers with lower hour accumulation.
Consists of two 372-5798 (450mm) general duty tracks. Compatible with 279/289/299C and 299D.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately $212 USD Dealer Net (February, 2015). Machine must be equipped with the Electronic Self Level feature, provided in the H2 or H3 performance package to install the SEA.

462-6000 **KIT, DEBRIS PROTECTION** . . . . . 0 **$1,775 NI**

For proper installation, refer to media number REHS9195.
This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower machine frame. Provided are various seals and covers that are designed to cover the openings that exist between the frame/body/cab of the machine as well as a fuel strainer and an exhaust stack cover.
Also recommended: Turbo Debris Guard Kit
Note: If additional component protection is required, please refer to the Guarding Kit.
Estimated time to install: 7 hours

472-2965 **KIT, GUARDING** . . . . . 0 **$642 NI**

For proper installation, refer to media number REHS9959.
This kit provides additional guarding for customers in demanding applications where extra component protection is required. This kit provides guarding for the front work lights, rear work lights, auxiliary hydraulic connections, work tool electrical harness connection and work tool coupler area.
Note: If additional debris protection is required, please refer to the Debris Protection Kit.
Estimated time to install: 1.5 hours

388-7849 **KIT, A/C BREATHER** . . . . . 0 **$339 NI**

For proper installation, refer to media number REHS5802.
This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
Estimated time to install: 30 minutes

444-6050 **KIT, TURBO DEBRIS GUARD** . . . . . 0 **$285 NI**

For proper installation, refer to media number REHS9969.
This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.
Estimated time to install: 1 hour 30 minutes

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)
To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments.

To complete, your LANE1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

All DCAs include:
- AIR CONDITIONER
- GUARD, BOTTOM, STANDARD
- COOLING, HIGH AMBIENT
- ENGINE HOOD
- FRAME, SWING, STANDARD

LIST PRICE AT DEALER

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

DISTRIBUTION CENTER ARRANGEMENTS (DCA)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

All DCAs include:
- BELT, SEAT, 51MM (2") RETRACTABLE
- AIR CONDITIONER
- WASHER, WINDSHIELD UPPER
- WIPER-RADIAL, FRONT 70/30
- CAMERA, REAR VIEW, MIRRORS(RH)
- ENGINE HOOD, HIGH AMBIENT
- FAN, FIXED SPEED

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

DISTRIBUTION CENTER ARRANGEMENTS (DCA)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

All DCAs include:
- BELT, SEAT, 51MM (2") RETRACTABLE
- AIR CONDITIONER
- WASHER, WINDSHIELD UPPER
- WIPER-RADIAL, FRONT 70/30
- CAMERA, REAR VIEW, MIRRORS(RH)
- ENGINE HOOD, HIGH AMBIENT
- FAN, FIXED SPEED

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

NOTE: Machine comes with Cat Grade Control Depth and Slope hardware which is enabled for a 250 hour demonstration period. After that time period, the system must be enabled through the Caterpillar Software Enabled Attachment (SEA) process using the factory password system and Electronic Technician. For machines activated prior to July 1st, 2016, there will be no charge for this attachment. Activation on July 1st, 2016 or later will incur a charge to the dealer. Please reference part number 467-8983 for current pricing information.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

Only for AM-N
Exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

IF NO REFERENCE NUMBER IS LISTED, LANE1 CONFIGURATIONS ARE NOT AVAILABLE.

Only for AM-N
Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P and 0G numbers)

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions is available through the Parts System
The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order
additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

LIST PRICE AT DEALER

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

NOTE: LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCAs)

To be completed, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Service Instruction Language
4) Packing (ex.0P numbers)

Exact Lane 1 configurations may also besourced from the factory with Lane 2 availability by using the samereference numbers except 0P9222 Lane 2 Special Indicator (instead of0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

NOTE: Machine comes with Cat Grade Control & Cat Production Measurement hardware which is enabled for a 250 hour demonstration period. After that time period, the system must be enabled through the Caterpillar Software Enabled Attachment (SEA) process using the factory password system and Electronic Technician. For machines activated prior to June 30th, 2016 there will be no charge for this attachment. Activation on July 1st, 2016 or later will incur a charge to the dealer.
For current pricing information, please reference 474-0570 for Cat Grade Control Depth and 474-0569 for Cat Production Measurement.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments

Effective 01 January, 2012, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

NOTE:
Caterpillar offers a complete line of high quality buckets and tools
For specific bucket and tool needs not covered in the price list,
or for consideration to factory install any tools not shown
in this price list, contact the Caterpillar Tool Center
at + 31.73.6399.777 or Fax + 31.73.6399.893

For bucket-only miscellaneous orders, use reference 0G related to your local WT-HEX pricelist on your miscellaneous order.
Bucket-only orders will be shipped from a new loose bucket logistics system. This logistics system is managed by the Caterpillar Work Tools & Services based in the former Verachtert facility in Den Bosch in the Netherlands. While actual bucket manufacturing source is unchanged, a new source code identified as LVA has been added to the corporate system.

These buckets are engineered according to the Caterpillar Design Optimisation principles and feature a worldwide offered profile The pin-on buckets includes an adjuster group to eliminate bucket backlash.

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Packing (ex.0P numbers)
4) Storage Protection

The exact Lane 1 configurations may also besourced from the factory with Lane 2 availability by using the samereference numbers except 0P9002 Lane 2 Indicator (instead of 0P9001 Lane 1 Indicator)and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

To be complete, your machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9002 Lane 2 order
3) Packing (ex.0P numbers)
4) Storage Protection

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

LIST PRICE AT DEALER

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be complete, your LANE 1 machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) Packing (ex.0P numbers)
4) Storage Protection

The exact Lane 1 configurations may also besourced from the factory with Lane 2 availability by using the samereference numbers except 0P9002 Lane 2 Indicator (instead of 0P9001 Lane 1 Indicator)and adding Priority Code "L2" to the order.
No additional Lane 2 or 3 items may be added to the order.

To be complete, your machine order must at least contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9002 Lane 2 order
3) Packing (ex.0P numbers)
4) Storage Protection

The secondary exit hatch kit and change instructions are available through the Parts System. The secondary exit hatch kit allows dealers to convert the standard hatch to a secondary exit hatch, which is required in British Columbia.

IDENTIFICATION (Cont.)

For specific bucket and work tool needs not covered in the price list, or for consideration to factory install any work tools not shown in this price list, contact the Caterpillar Tool Center:
For US-A market: 1-800-255-2372 or Fax: 1-785-456-6302
For EAME market: (31) 736.399.777 or Fax: (31) 736.428.105
Please refer to your local WT-HEX pricelist for buckets not shown in the machine pricelist.

For bucket-only miscellaneous orders, use reference 0G related to your local WT-HEX pricelist on your miscellaneous order.
Bucket-only orders will be shipped from a new loose bucket logistics system. These orders can include GET and/or Bucket Adjusters with the Bucket. For Tear Drop Pin buckets, the loose bucket orders can include GET and/or Tear Drop Pin conversion arrangement. This logistics system is managed by Caterpillar Work Tools & Services based in the former Verachtert facility in Den Bosch in the Netherlands. While actual bucket manufacturing source is unchanged, a new source code identified as LVA has been added to the corporate system.

For GCN, the buckets will need to be ordered from Antares.
Please see the WT-HEX pricelist or your Cat Worktool Sales rep for a list of buckets available for this machine.

IDENTIFICATION (Cont.)

For specific bucket and work tool needs not covered in the price list, or for consideration to factory install any work tools not shown in this price list, contact the Caterpillar Tool Center:
For US-A market: 1-800-255-2372 or Fax: 1-785-456-6302
For EAME market: (31) 736.399.777 or Fax: (31) 736.428.105
Please refer to your local WT-HEX pricelist for buckets not shown in the machine pricelist.

For bucket-only miscellaneous orders, use reference 0G related to your local WT-HEX pricelist on your miscellaneous order.
Bucket-only orders will be shipped from a new loose bucket logistics system. These orders can include GET and/or Bucket Adjusters with the Bucket. For Tear Drop Pin buckets, the loose bucket orders can include GET and/or Tear Drop Pin conversion arrangement. This logistics system is managed by Caterpillar Work Tools & Services based in the former Verachtert facility in Den Bosch in the Netherlands. While actual bucket manufacturing source is unchanged, a new source code identified as LVA has been added to the corporate system.

AUXILIARY, COMBINED FUNCTION HYDRAULIC KITS

For use with both one-way flow tools (hammers, compactors) and two-way flow tools (augers, thumbs, side tilt couplers). Units equipped with Standard Sticks require 5 function BH Hydraulics and operate using the right thumb controller. Units equipped with Extendible Sticks require 6 Function BH Hydraulics and operate using the left thumb controller. Mounted near the backhoe valve bank in the chassis, a manual ball valve switches between one-way and two-way flow. Estimated shop time: 8 hours to install kit, plus 8 more hours is needed if adding a valve section to the valve bank (converting 4 to 5 Function, or 5 to 6 Function).

The kits provide diverter valve and hydraulic 3/4" lines routed to midpoint of stick for use with one-way or two-way flow work tools.
Includes hydraulic quick disconnect couplings.
This kit can be used to build 1 way (hammer) lines. See REHS installation instructions.

AUXILIARY, COMBINED FUNCTION HYDRAULIC KITS

Mechanical quick coupler for backhoe buckets.
(Base machine includes one set of pins and hardware to attach one bucket).

For use with both one-way flow tools (hammers, compactors) and two-way flow tools (augers, thumbs, side tilt couplers). Units equipped with Standard Sticks require 5 function BH Hydraulics and operate using the right thumb controller. Units equipped with Extendible Sticks require 6 Function BH Hydraulics and operate using the left thumb controller. Mounted near the backhoe valve bank in the chassis, a manual ball valve switches between one-way and two-way flow. Estimated shop time: 8 hours to install kit, plus 8 more hours is needed if adding a valve section to the valve bank (converting 4 to 5 Function, or 5 to 6 Function).

The kits provide diverter valve and hydraulic 3/4" lines routed to midpoint of stick for use with one-way or two-way flow work tools.
Includes hydraulic quick disconnect couplings.
This kit can be used to build 1 way (hammer) lines. See REHS installation instructions.

TIRES, RIMS, AND WHEELS

(Must select one)

Due to industry wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

Two sets required for tractor and scraper combined,
And each set (part number) includes 2 tires.
When Ordering one of the following tire groups must be specified.
This machine has been designed to run on 33.25-29 sized tires.

To select the correct tire that will be appropriate
for the application and job site conditions,
contact the tire manufacture or local tire dealer.

TIRES, RIMS, AND WHEELS

(Must select one)

Due to industry wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

Two sets required for tractor and scraper combined,
And each set (part number) includes 2 tires.
When Ordering one of the following tire groups must be specified.
This machine has been designed to run on 33.25-29 sized tires.

To select the correct tire that will be appropriate for the application and job site conditions, contact the tire manufacture or local tire dealer.

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied we may contact the dealer, however, in some cases we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire brand and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

TIRES, RIMS, & WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied we may contact the dealer, however, in some cases we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire brand and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied we may contact the dealer, however, in some cases we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire brand and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

TECHNOLOGY PRODUCTS (CONT.)

PRODUCT LINK COMMUNICATIONS (Cont.)

L **396-1139** **PRODUCT LINK, SATELLITE PL321** . . . . . 0 **NC**
Satellite Product Link uses a satellite network for remote transmission of asset information including location, utilization, and condition. For use in areas with poor or no cellular coverage.

L **454-7220** **PRODUCT LINK, VIMS SATELLITE** . . . . . 0 **$4,340 NET**
This single attachment supports activation of VIMS and/or satellite Product Link. VIMS provides machine operational historical trends, histograms, events and more. Historical data is accessed through a wired connection in the cab to a laptop computer, for subsequent off-board analysis in software applications including VIMS PC (not included).
For remote (wireless) access to VIMS data, additional hardware must be installed (not included). Typically, this hardware includes: a third-party radio (modem) compatible with local wireless standards, an Ethernet switch, and an external radio aerial / cable.
For Recommended installation details refer to Special Instruction REHS 8702.
Machine Payload information is not currently available via VIMS.

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied we may contact the dealer, however, in some cases we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire brand and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

TIRES

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

NOTE: All tires are tubeless, include rims, and come in a set of 4.

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

NOTE: All tires are tubeless, include rims and come in a set of 4.

TECHNOLOGY PRODUCTS

PRODUCT LINK

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Authorization varies by country. Please check with your Cat marketing representative with questions.

L	**445-9322**	**PRODUCT LINK, SATELLITE PL321** . . . . . 0 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

NOTE: All tires are tubeless, include heavy duty rims and come in a set of 4.

JOYSTICK CONTROLS - Select one

L	**437-9092**	**JOYSTICK,E/H,TANDEM VALVE** 0		**NC**
		Loader / auxiliary control valve for Compact Wheel Loaders operating specialised rotating work tools. Provides loader / auxiliary operation in priority order: Bucket, loader & finally the auxiliary. Recommended for work tools that require rotating auxiliary work tool operation at the same time as loader operation. Recommended for Snow Blower & Auger operation.		
L	**464-2118**	**JOYSTICK,E/H, TANDEM, LCV** 0		**NC**
		Tandem valve set with additional Load Check Valves. Please note one of the LCV Joystick options is required if a LCV Feature option is to be selected.		
L	**437-9094**	**JOYSTICK,E/H,PARALLEL VALVE** 0		**NC**
		Standard loader / auxiliary control valve for general duties. Provides excellent multi-function of loader & auxiliary. Rotating auxiliary work tool operation may limit loader lift performance. Rotating auxiliary work tool operation may need to be interrupted before loader operation can take place. (Typically effects snow blower & auger operations)		
L	**464-2117**	**JOYSTICK,E/H, PARALLEL, LCV** 0		**NC**
		Parallel valve set with additional Load Check Valves. Please note one of the LCV Joystick options is required if a LCV Feature option is to be selected.

FEATURE PACKAGES - Select one (Cont.)

L **447-0744** **FEATURE PACKAGE, ROAD** 0 **$4,040**
This package includes:
1) Electronic Throttle Lock,
2) Automatic Ride Control
3) Variable Speed Creeper Control
4) Electronic Implement Modulation
5) Hystat Agressiveness Control.
Electronic Throttle Lock maintains the engine speed at any RPM, adjustable at any time. Creeper Control compliments Electronic Throttle Lock by controlling the ground speed regardless of engine speed. Together these two features are normally used for broom, mower or snow blower applications where high engine speed is needed for the hydraulic power, but ground speed must be slow.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8329** **FEATURE PACKAGE, ROAD, LCV** 0 **$6,310**
Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 OR 4642118 Joystick

L **447-0742** **FEATURE PACKAGE, LOAD** 0 **$1,565**
This package includes:
1) Rim Pull Control (three electronic settings to select 60%, 80% and 100% full power),
2) Return to Dig,
3) Implement Modulation
4) Hystat Agressiveness control.
Rim Pull Control reduces the amount of tire slip in poor underfoot, preventing excessive tire wear.
Implement Modulation increases joystick aggressiveness with three selections on the right console soft touch pad. Similarly, the Hystat Aggressiveness has three selections for shift smoothness and directional change aggressiveness.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8327** **FEATURE PACKAGE, LOAD, LCV** 0 **$3,840**
This package includes Load Check Valves in addition to all the features of the 'Load' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 or 4642118 Joystick

L **447-0746** **FEATURE PACKAGE, LOAD/ROAD** 0 **$5,450**
This package contains all the features available in both 'Load' & 'Road' feature packages.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8331** **FEATURE PACKAGE, LOAD/ROAD,LCV** 0 **$7,730**
Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road/Load' feature package.

FEATURE PACKAGES (Cont.)

L **447-0744** **FEATURE PACKAGE, ROAD** 0 **$4,040**

This package includes:
1) Electronic Throttle Lock,
2) Automatic Ride Control
3) Variable Speed Creeper Control
4) Electronic Implement Modulation
5) Hystat Agressiveness Control.
Electronic Throttle Lock maintains the engine speed at any RPM, adjustable at any time. Creeper Control compliments Electronic Throttle Lock by controlling the ground speed regardless of engine speed. Together these two features are normally used for broom, mower or snow blower applications where high engine speed is needed for the hydraulic power, but ground speed must be slow.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8329** **FEATURE PACKAGE, ROAD, LCV** 0 **$6,310**

Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 or 4642118 Joystick

L **447-0742** **FEATURE PACKAGE, LOAD** 0 **$1,565**

This package includes:
1) Rim Pull Control (three electronic settings to select 60%, 80% and 100% full power),
2) Return to Dig,
3) Implement Modulation
4) Hystat Agressiveness control.
Rim Pull Control reduces the amount of tire slip in poor underfoot, preventing excessive tire wear.
Implement Modulation increases joystick aggressiveness with three selections on the right console soft touch pad. Similarly, the Hystat Aggressiveness has three selections for shift smoothness and directional change aggressiveness.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8327** **FEATURE PACKAGE, LOAD, LCV** 0 **$3,840**

This package includes Load Check Valves in addition to all the features of the 'Load' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 or 4642118 Joystick

L **447-0746** **FEATURE PACKAGE, LOAD/ROAD** 0 **$5,450**

This package contains all the features available in both 'Load' & 'Road' feature packages.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8331** **FEATURE PACKAGE, LOAD/ROAD,LCV** 0 **$7,730**

Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road/Load' feature package.

FEATURE PACKAGES (Cont.)

L **447-0745** **FEATURE PACKAGE, ROAD** 0 **$4,040**
This package includes:
1) Electronic Throttle Lock,
2) Automatic Ride Control
3) Variable Speed Creeper Control
4) Electronic Implement Modulation
5) Hystat Agressiveness Control.
Electronic Throttle Lock maintains the engine speed at any RPM, adjustable at any time. Creeper Control compliments Electronic Throttle Lock by controlling the ground speed regardless of engine speed. Together these two features are normally used for broom, mower or snow blower applications where high engine speed is needed for the hydraulic power, but ground speed must be slow.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick, 4379094 Joystick

L **463-8330** **FEATURE PACKAGE, ROAD, LCV** 0 **$6,310**
Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 or 4642118 Joystick

L **447-0743** **FEATURE PACKAGE, LOAD** 0 **$1,565**
This package includes:
1) Rim Pull Control (three electronic settings to select 60%, 80% and 100% full power),
2) Return to Dig,
3) Implement Modulation
4) Hystat Agressiveness control.
Rim Pull Control reduces the amount of tire slip in poor underfoot, preventing excessive tire wear.
Implement Modulation increases joystick aggressiveness with three selections on the right console soft touch pad. Similarly, the Hystat Aggressiveness has three selections for shift smoothness and directional change aggressiveness.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8328** **FEATURE PACKAGE, LOAD, LCV** 0 **$3,840**
This package includes Load Check Valves in addition to all the features of the 'Load' feature package.
FOR USE WITH: ENCLOSED CABS & 4642117 or 4642118 Joystick

L **447-0747** **FEATURE PACKAGE, LOAD/ROAD** 0 **$5,450**
This package contains all the features available in both 'Load' & 'Road' feature packages.
FOR USE WITH: 4379092 Joystick, 4379093 Joystick
4379094 Joystick, 4379095 Joystick

L **463-8332** **FEATURE PACKAGE, LOAD/ROAD,LCV** 0 **$7,730**
Except for Ride Control, this package includes Load Check Valves in addition to all the features of the 'Road/Load' feature package.

BUCKETS (CONT.)

Performance Series buckets feature a wider moldboard opening angle, longer floor and forward curving (convex) sidebars. These aggressive buckets load easier and retain material better for faster cycle times.
Offered with:
1) Bolt-on, reversible cutting edges for maximum durability and smooth grading.
2) Bolt-on teeth with pin-on tooth tips for maximum penetration and digging.
All 910/914 PS General Buckets share the following characteristics:
Single piece bolt-on cutting edge = 2400mm / 95" wide
8x bolt on adaptors & long tips = 2430mm / 95" wide
Performance Fill Factor = 110% (or 0.1cum/0.2cyd) of stated capacity.
For correct bucket selection see OMM/specalog which shows max material densities per machine configuration per bucket size.

FEATURE PACKAGES

Select one

L **425-9666** **FEATURE PACKAGE, BASIC** 0 **$1,865**
Basic package does not include new electronically controlled features such as Ride Control, Return To Dig, Lift Kickout, Electronic Throttle Lock, Rimpull Control, Creeper Control, Implement Modulation control nor Drivetrain Aggressiveness control.

L **425-9668** **FEATURE PACKAGE, ROAD** 0 **$2,960**
This package includes:
1) Electronic Throttle Lock,
2) Automatic Ride Control
3) Variable Speed Creeper Control
4) Electronic Implement Modulation
5) Hystat Agressiveness Control.
Electronic Throttle Lock maintains the engine speed at any RPM, adjustable at any time. Creeper Control compliments Electronic Throttle Lock by controlling the ground speed regardless of engine speed. Together these two features are normally used for broom, mower or snow blower applications where high engine speed is needed for the hydraulic power, but ground speed must be slow.

BUCKETS (CONT.)

Performance Series buckets feature a wider moldboard opening angle, longer floor and forward curving (convex) sidebars. These aggressive buckets load easier and retain material better for faster cycle times.
Offered with:
1) Bolt-on, reversible cutting edges for maximum durability and smooth grading.
2) Bolt-on teeth with pin-on tooth tips for maximum penetration and digging.
All 910/914 PS General Buckets share the following characteristics:
Single piece bolt-on cutting edge = 2400mm / 95" wide
8x bolt on adaptors & long tips = 2430mm / 95" wide
Performance Fill Factor = 110% (or 0.1cum/0.2cyd) of stated capacity.
For correct bucket selection see OMM/specalog which shows max material densities per machine configuration per bucket size.

TIRES, RIMS, AND WHEELS

(MUST SELECT ONE)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline,the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

For any tire with a Use type of C, please check with factory before placing order to confirm tire availability.

TIRES AVAILABLE FROM FLEXPORT

Cat Flexport are solid tires designed for severe applications such as scrap or waste handling where normal pneumatic tires would be quickly damaged. They are designed with holes molded through the outer ring of the tire's sidewalls to improve tire flexibility and stability. This allows the Cat Flexport tire to handle all surfaces with a greatly improved ride and to absorb much of the shocks that another solid or foam-filled tire passes on to the operator and machine. This results in increased operator comfort, reduced operator fatigue and reduced machine stress.

NO RETURNS will be accepted for kit components not used or parts removed from machines during kit installation.

KIT ORDERS MUST BE ORDERED SEPARATELY FROM A MACHINE ORDER.

P	**370-7008**	**KIT, WARNING,BEACON,LED STROBE** ..... 0 Kit provides hard mounted LED strobe beacon on hinged (breakaway) bracket mounted to the rear of the cab structure.		**$181 NI**
P	**374-5868**	**KIT, LIGHTS, AUX, HALOGEN** ..... 0 Kit provides two (2) additional forward facing halogen work lights, and two (2) additional rear facing (cab mounted) halogen work lights.		**$240 NI**
P	**441-4005**	**KIT, QUICK DISCONNECTS** ..... 0 Kit provides a set (male & female) of flat face connect under pressure quick disconnects. Recommended to adapt existing work tools to the new improved K Series SWL quick disconnects.		**$351 NI**
P	**463-3793**	**KIT, REAR VIEW CAMERA** ..... 0 Kit provides rear view camera that mounts to rear door and harness. Requires secondary display.		**$1,201 NI**
P	**463-3794**	**KIT,MONITOR, SECONDARY DISPLAY** ..... 0 Kit provides a secondary display which allows real time adjustments to rimpull, creeper speed, 3rd function flow, throttle lock, and duals as a rear camera display (camera not included).		**$1,847 NI**
P	**463-3795**	**KIT, LIGHTS, LED, ENGINE** ..... 0 Kit provides 3 additional LED engine enclosure lights to illuminate the way for checking oil and coolant levels along with refueling the machine in dark conditions.		**$244 NI**
P	**463-3801**	**KIT, OBJECT DETECTION, RADAR** ..... 0 Kit provides a rear door mounted radar system to warn the operator visually and audibly of close-by objects to the rear of the machine. Requires secondary display and rear camera.		**$3,972 NI**
P	**441-3368**	**KIT, JUMPER LINES,3RD FUNCTION** ..... 0 Kit provides 3rd function jumper lines and threaded flat face connect under pressure quick disconnects mounted to the coupler. Recommended for use with 3rd function work tools. Provides a kit to add 3rd function jumper line for a K Series SWL.		**$647 NI**
P	**376-5324**	**KIT, PRECLEANER, CAB AIR-RESPA** ..... 0 Provides a powered cab air pre cleaner, mounting brackets, and interior cab pressure sensor. Improves operator air quality and cab pressurization in the K Series SWL. Recommended for high debris environments.		**$2,115 NI**
P	**376-4390**	**KIT, PRECLEANER, TURBINE** ..... 0 Kit provides turbine precleaner for the engine that ejects particles before intake. Recommended for high debris environments.		**$565 NI**

P	**467-7992**	**KIT, COUNTERWEIGHT, LOGGER/AGG** . . . . . 0 Kit converts a heavy counterweight machine to a Logger/Agg counterweight machine by additional frame mounted counterweight for use in applications such as Log and Lumber, Aggregate Handling, Auto Re-Handling and heavy material handling. NOT recommended for general construction machines. NOT compatible for High Lift Linkage configurations. CANNOT BE USED WITH: Flexport Tires		**$4,089 NI**
P	**447-4893**	**KIT, COUPLER READY** . . . . . 0 Kit provides coupler valve and hydraulic lines to convert a 2V pin on STD lift machine into a 2V coupler ready machine		**$846 NI**
P	**374-5793**	**KIT, QUICK COUPLER, ISO 23727** . . . . . 0 Kit provides an electro-hydraulic coupler actuation system activated from the cab. Includes lock valve cylinder. Compatible with many competitive work tools, ISO standard coupler interface is also used by Volvo. Requires Coupler Ready Machine. Recommend to also install Counterweight, Heavy		**$5,893 NI**
P	**374-5790**	**KIT, QUICK COUPLER, FUSION** . . . . . 0 Kit provides an electro-hydraulic coupler actuation system activated from the cab. Includes constant pressure coupler wedges. Requires Coupler Ready Machine. Recommend to also install Counterweight, Heavy		**$4,694 NI**
P	**377-4149**	**ADAPTER FUSION CONVERTER** . . . . . 499 Provides adaptor bracket with fusion hooks on the back and manually engaged IT pins on the front allowing it to interface with IT coupler tools. Recommended for mixed fleet customers. Adaptor pushes attachment away from machine resulting in decreased lift and tilt capacity.		**$2,665 NI**
P	**371-2400**	**KIT, FUSION, FLATBACK HOOKS** . . . . . 330 Provides brackets with Fusion hooks on the back and a flat interface on the front allowing it to be welded to existing SWL work tools. Recommended for customers who want to re-hinge existing non Fusion tools or competitive tools to a Fusion interface.		**$888 NI**
P	**471-7009**	**KIT, FNR, COLUMN** . . . . . 0 Kit provides a FNR shifter lever, wiring harness, mounting bracket and templates to modify the existing bracket and covers to install the shifter on the left hand (LH) side of the steering column. The multi-function stalk switch is relocated to the right hand (RH) side of the column.		**$383 NI**
P	**374-5855**	**KIT, BLOCK HEATER, 120V** . . . . . 0 Kit provides 120V block heater to improve cold start performance.		**$285 NI**
P	**374-5856**	**KIT, BLOCK HEATER, 240V** . . . . . 0 Kit provides 240V block heater to improve cold start performance.		**$285 NI**
P	**374-5854**	**KIT, ETHER START** . . . . . 0 Kit provides ether starting aid to improve cold start performance.		**$432 NI**

TIRES, RIMS, AND WHEELS

(MUST SELECT ONE)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline,the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

For any tire with a Use type of C, please check with factory before placing order to confirm tire availability.

TIRES AVAILABLE FROM FLEXPORT

Cat Flexport are solid tires designed for severe applications such as scrap or waste handling where normal pneumatic tires would be quickly damaged. They are designed with holes molded through the outer ring of the tire's sidewalls to improve tire flexibility and stability. This allows the Cat Flexport tire to handle all surfaces with a greatly improved ride and to absorb much of the shocks that another solid or foam-filled tire passes on to the operator and machine. This results in increased operator comfort, reduced operator fatigue and reduced machine stress.

P	**370-7008**	**KIT, WARNING,BEACON,LED STROBE** . . . . . 0 Kit provides hard mounted LED strobe beacon on hinged (breakaway) bracket mounted to the rear of the cab structure.		**$181 NI**
P	**374-5868**	**KIT, LIGHTS, AUX, HALOGEN** . . . . . 0 Kit provides two (2) additional forward facing halogen work lights, and two (2) additional rear facing (cab mounted) halogen work lights.		**$240 NI**
P	**463-3795**	**KIT, LIGHTS, LED, ENGINE** . . . . . 0 Kit provides 3 additional LED engine enclosure lights to illuminate the way for checking oil and coolant levels along with refueling the machine in dark conditions.		**$244 NI**
P	**376-5324**	**KIT, PRECLEANER, CAB AIR-RESPA** . . . . . 0 Provides a powered cab air pre cleaner, mounting brackets, and interior cab pressure sensor. Improves operator air quality and cab pressurization in the K Series SWL. Recommended for high debris environments.		**$2,115 NI**
P	**376-4390**	**KIT, PRECLEANER, TURBINE** . . . . . 0 Kit provides turbine precleaner for the engine that ejects particles before intake. Recommended for high debris environments.		**$565 NI**
P	**467-7992**	**KIT, COUNTERWEIGHT, LOGGER/AGG** . . . . . 0 Kit converts a heavy counterweight machine to a Logger/Agg counterweight machine by additional frame mounted counterweight for use in applications such as Log and Lumber, Aggregate Handling, Auto Re-Handling and heavy material handling. NOT recommended for general construction machines. NOT compatible for High Lift Linkage configurations. CANNOT BE USED WITH: Flexport Tires		**$4,089 NI**
P	**447-4893**	**KIT, COUPLER READY** . . . . . 0 Kit provides coupler valve and hydraulic lines to convert a 2V pin on STD lift machine into a 2V coupler ready machine		**$846 NI**
P	**374-5793**	**KIT, QUICK COUPLER, ISO 23727** . . . . . 0 Kit provides an electro-hydraulic coupler actuation system activated from the cab. Includes lock valve cylinder. Compatible with many competitive work tools, ISO standard coupler interface is also used by Volvo. Requires Coupler Ready Machine. Recommend to also install Counterweight, Heavy		**$5,893 NI**
P	**374-5790**	**KIT, QUICK COUPLER, FUSION** . . . . . 0 Kit provides an electro-hydraulic coupler actuation system activated from the cab. Includes constant pressure coupler wedges. Requires Coupler Ready Machine. Recommend to also install Counterweight, Heavy		**$4,694 NI**
P	**463-3793**	**KIT, REAR VIEW CAMERA** . . . . . 0 Kit provides rear view camera that mounts to rear door and harness. Requires secondary display.		**$1,201 NI**

P	**463-3801**	**KIT, OBJECT DETECTION, RADAR** ..... Kit provides a rear door mounted radar system to warn the operator visually and audibly of close-by objects to the rear of the machine. Requires secondary display and rear camera.	0	**$3,972 NI**
P	**441-4005**	**KIT, QUICK DISCONNECTS** ..... Kit provides a set (male & female) of flat face connect under pressure quick disconnects. Recommended to adapt existing work tools to the new improved K Series SWL quick disconnects.	0	**$351 NI**
P	**441-3368**	**KIT, JUMPER LINES,3RD FUNCTION** ..... Kit provides 3rd function jumper lines and threaded flat face connect under pressure quick disconnects mounted to the coupler. Recommended for use with 3rd funtion work tools.	0	**$647 NI**
P	**387-4021**	**KIT, 3RD VALVE, STANDARD LIFT** ..... Kit provides implement valve section, joystick and hydraulic lines to convert a 2 valve (2V) Standard Lift machine to 3 valve (3V)	0	**$2,572 NI**
P	**420-4333**	**KIT, 3RD VALVE, HIGH LIFT** ..... Kit provides implement valve section, joystick and hydraulic lines to convert a 2V High Lift machine to 3 Valve.	0	**$2,854 NI**
P	**452-0862**	**KIT, 4TH VALVE, STANDARD LIFT** ..... Kit provides implement valve section, joystick, ECM and hydraulic lines to convert a 3 valve (3V) STD Lift machine to 4 valve (4V)	0	**$2,397 NI**
P	**374-5858**	**KIT, CTWT, HEAVY 705LBS** ..... Kit provides additional frame mounted counterweights + 320KG (705lbs). Kit converts standard counterweight group to heavy.	0	**$2,994 NI**
P	**377-4149**	**ADAPTER FUSION CONVERTER** ..... Provides adaptor bracket with fusion hooks on the back and manually engaged IT pins on the front allowing it to interface with IT coupler tools. Recommended for mixed fleet customers. Adaptor pushes attachment away from machine resulting in decreased lift and tilt capacity.	499	**$2,665 NI**
P	**471-7009**	**KIT, FNR, COLUMN** ..... Kit provides a FNR shifter lever, wiring harness, mounting bracket and templates to modify the existing bracket and covers to install the shifter on the left hand (LH) side of the steering column. The multi-function stalk switch is relocated to the right hand (RH) side of the column.	0	**$383 NI**
P	**371-2400**	**KIT, FUSION, FLATBACK HOOKS** ..... Provides brackets with Fusion hooks on the back and a flat interface on the front allowing it to be welded to existing SWL work tools. Recommended for customers who want to re-hinge existing non Fusion tools or competitive tools to a Fusion interface.	330	**$888 NI**

TIRES, RIMS, AND WHEELS

(MUST SELECT ONE)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline,the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

For any tire with a Use type of C, please check with factory before placing order to confirm tire availability.

TIRES AVAILABLE FROM FLEXPORT

Cat Flexport are solid tires designed for severe applications such as scrap or waste handling where normal pneumatic tires would be quickly damaged. They are designed with holes molded through the outer ring of the tire's sidewalls to improve tire flexibility and stability. This allows the Cat Flexport tire to handle all surfaces with a greatly improved ride and to absorb much of the shocks that another solid or foam-filled tire passes on to the operator and machine. This results in increased operator comfort, reduced operator fatigue and reduced machine stress.

FIRE SUPPRESSION SYSTEM
System to protect engine installation, hydraulic pumps, and transmission from a thermal incident. Fully integrated system which includes an in cab monitor of machine enclosure temperatures and focused foam based suppression system. Activates automatically as well as manually, from the cab or from the outside of the machine.
For use when machine is in application or environments with potentially flammable air borne debris or waste materials.

-DEF (Diesel exhaust fluid) level
-Temperature: engine coolant, hydraulic oil, transmission oil
-Fuel level
With following Warning Indicators:
-Regeneration
-Temperature: axle oil, engine intake manifold
-Pressure: engine oil, fuel Pressure Hi/Low, primary steering oil, service brake oil
-Battery voltage Hi/Low
-Engine air filter restriction
-Hydraulic oil filter restriction
-Hydraulic oil Low
-Parking brake
-DEF low level
-Transmission filter bypass
MULTI-FUNCTION MONITOR :
-18cm (7 in) color LCD touch-screen display
-Rear-view camera image display (reverse travel activated)
-Machine settings & health parameters
CAT CONNECT (on-board, utilizing multi-function monitor)
Core App software to monitor & display:
-Total fuel consumption
-Average fuel burn rate
-Engine fuel consumption
-Total idle time
-Total operating hours
-Travel distance (odometer)
Basic App software to monitor & display
-Total idle fuel
-Total operating hours, neutral
-Total operating hours with hydraulic filter in bypass

PRODUCT LINK

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	434-0695	**PL, CELLULAR PLE641, FTO** . . . . . Product Link Elite series PLE641 uses GSM and CDMA 3G cellular networks to transmit location, utilization and condition information for viewing in Product Link's remote monitoring web interface. Cellular technology provides capabilities for frequent transmission and larger volumes of data.	0	**NC**
L	434-0696	**PL, SATELLITE PLE631, FTO** . . . . . Product Link Elite series PLE631 uses a satellite network to transmit location, utilization and condition information for viewing in Product Link's remote monitoring web interface. For use in areas with poor or no cellular coverage.	0	**NC**

TIRES

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

NOTE: All tires include rims & come in a set of 4. Tires are tubeless & non-directional unless otherwise stated.

NOTE: Other tires are available upon request.

FLEXPORT TIRES

Cat Flexport are solid tires designed for severe applications such as scrap or waste handling where normal pneumatic tires would be quickly damaged. They are designed with holes molded through the outer ring of the tire's sidewalls to improve tire flexibility and stability. This allows the Cat Flexport tire to handle all surfaces with a greatly improved ride and to absorb much of the shocks that another solid or foam-filled tire passes on to the operator and machine. This results in increased operator comfort, reduced operator fatigue, and reduced machine stress.

P	**434-4487**	**TIRES, 23.5X25 FLXPRT OFF ROAD** ..... 0 Off-the-Road (OTR) tires ideal for special applications on unimproved surfaces, such as brick, glass, and scrap yards where debris is not an issue. Machine oscillation is reduced.		**$7,020**

CAT PRODUCTION MEASUREMENT (CPM) PAYLOAD WEIGHING SYSTEM

Cat M-series Medium Wheel Loaders are available with the Cat Production Measurement (CPM) app that includes an integrated onboard payload weighing scale. This app measures and/or records:
-Payload weight, material ID, truck ID, cycle (bucket dumps) count and fuel consumption
-Allows on-the-go weighing of the bucket payload during the lift cycle
-Daily payload total (tonnes/tons), productivity (tonnes/hour or tons/hour) and efficiency (tonnes/liter or tons/gal) data is reported wirelessly via Product Link to the VisionLink fleet management web portal (Cat Essentials Product Link subscription required).
-Detailed payload, productivity and efficiency data can be downloaded to a laptop computer for analysis in the optional VIMSpc software (VIMSpc and VIMS data cable are required, but VIMS is NOT required).
-Payload tickets can be printed with an optional printer

Refer to the Cat Connect Payload Technologies intranet page (https://dealer.cat.com/payload) for complete technical specifications; operation, sales, marketing and technical support publications.

NOTES:
1) Demo and permanent software are available from the factory below.
2) For field installation, permanent software can be purchased through the Caterpillar Feature Protection System and enabled by a dealer technician with Cat ET and an SEA password. SEA p/n 433-2014, currently $4,148 list price, subject to change. Consult ANTARES parts distribution system for latest SEA price.
3) Both demo and permanent software require calibration prior to customer use.

CALIBRATION INSTRUCTIONS
This app requires calibration and set-up by either the dealer or customer. Refer to the Systems Operation Test & Adjust manual UENR5827 for system calibration, material and truck ID lists set-up and operation instructions.

BUCKETS

Buckets must be ordered Installed on a Machine Order.
For questions on buckets intended for Machine Orders please contact your Marketing Subsidiary Machine Coordinator.

Loose buckets should be ordered on a MISC Order through Caterpillar Work Tools - Wamego using source code 0P-0672.
For availability of loose buckets please call (800) 255-2372.

If you are going to order a loose bucket from CWTS and a machine from Aurora and if you need them shipped at the same time then you need to cross-reference the MSO's with each other.

"GET" is NOT automatically included on bucket orders. "GET" must be entered on the order with your bucket selection, unless text for bucket states otherwise. Please make the "GET" selection from the "GET" listed immediately following the bucket listing.
