

FREQUENTLY ASKED QUESTIONS

When do I renew? A renewal application will be mailed or emailed 90 days prior to the fleet registration expiration date and must be completed annually for each fleet.

The renewal application can be completed in person at a Limited IRP Service Deputy Registrar location, or on-line at www.ohcors.com with support documents uploaded with the submission.

A renewal application will not be approved or processed if the renewal document is missing support documents and/or if the IRP Fleet has unpaid supplements with expired Temporary Authorities (TAs), outstanding NSF Checks or Audits, or if the Motor Carrier Responsible for Safety has been marked out of service by the Federal Motor Carrier Safety Administration (FMCSA).

I changed the company I am leased to. What do I do? Complete an on-line Amend Vehicle Cab Card Info - Ex. MCSR supplement at www.ohcors.com, and upload a copy of the new lease or BMV 4885 with the USDOT# and FEIN of the new Motor Carrier Responsible for Safety within 10 days of the change.

What mileage do I use on my application? IRP registration applications commonly use a mileage lookback, or reporting period, of July 1 – June 30 of the previous year.

Do I need an IRP Apportioned registration? No, if you are only leaving Ohio occasionally with a qualified IRP vehicle, you may elect to purchase a Trip Permit each time you leave Ohio prior to entering the other state(s). For more information, contact the other jurisdiction(s) you wish to travel through for instructions on how to purchase a registration permit for their jurisdiction.

What records are required to be maintained? All trip reports, supporting summaries, and documents, for each vehicle registered which provide: dates of travel, mileage driven in each jurisdiction, routes of travel, beginning and ending odometer readings, etc. These documents should be retained for three years after the close of the registration period.
