WHAT IS A MOPED?

Not every vehicle that looks like a moped (also known as a motorized bicycle) actually is a moped per Ohio law.

The Ohio Revised Code (R.C.) 4501.01 and Ohio Administrative Code (O.A.C.) Chapter 4501-23 define a moped as any vehicle with two tandem wheels or one front and two rear wheels which is capable of being pedaled and is also equipped with a helper motor. The helper motor may not have a piston displacement of more than 50 cubic centimeters, produce more than one brake horsepower, nor propel the vehicle at a maximum speed greater than 20 miles per hour (mph) on a level surface.

If a vehicle exceeds any one of these criteria, it is legally a motorcycle. Your signature below and completion of this document legally affirms that your vehicle meets the performance and equipment requirements of O.A.C. Chapter 4501-23 and that the vehicle meets the definition of a moped in Ohio. For questions or concerns, contact the Ohio Bureau of Motor Vehicles, Vehicle Information Services, P.O. Box 16520, Columbus, Ohio 43216-6520 or call (844) 644-6268.

I affirm that the vehicle for which I am requesting a registration (please check all boxes that apply):

(1) ☐ has two tandem wheels **OR** ☐ has one wheel in the front and two wheels in the rear;

(2) ☐ may be pedaled; **AND**

(3) ☐ is equipped with a helper motor that:

(a) ☐ has no more than fifty (50) cubic centimeters piston displacement; **AND**

(b) ☐ produces no more than one brake horsepower (This information can be found in your owner's manual or on your engine.); **AND**

(c) ☐ is capable of propelling the vehicle at a speed of **no greater than** twenty (20) mph on a level surface

WARNING: Knowingly making a false statement on this form constitutes falsification, a first-degree misdemeanor punishable by criminal fines and imprisonment, and also may result in civil liability (R.C. 2921.13).
