The purpose of this form is to declare a vehicle's fuel type for registration purposes.

OWNER INFORMATION

OWNER'S SSN / TAX ID / OH DL / OH ID		
LAST NAME	FIRST NAME	M.I.
ADDRESS		
CITY	STATE	ZIP CODE
PHONE (Optional)	E-MAIL (Optional)	

VEHICLE INFORMATION

YEAR	MAKE	MODEL	VEHICLE IDENTIFICATION NUMBER (VIN)
------	------	-------	-------------------------------------

Ohio Revised Code (R.C.) section 4503.10(C), requires an additional registration fee for the following motor vehicles: \$100/Hybrid, \$150/Plug-in Hybrid, or \$200/Electric, per registration year. The Ohio Bureau of Motor Vehicles (BMV) utilizes a VIN Decoding Program provided by the National Highway Traffic Safety Administration (NHTSA) to determine a vehicle's fuel type and properly calculate the registration fees.

To process your vehicle registration, please select the appropriate option below and identify the fuel type:

I have been advised that NHTSA was not able to determine my vehicle's fuel type. I acknowledge that my vehicle's fuel type may be updated by NHTSA in the future, which may result in an obligation to pay the \$100/Hybrid, \$150/Plug-in Hybrid, or \$200/Electric fee, as appropriate. Therefore, I affirm that the fuel type for the above-described vehicle is the following:

- ☐ **GASOLINE / DIESEL / OTHER FUEL TYPE**
- ☐ **HYBRID** – A passenger car powered by an internal propulsion system consisting of both of the following:
- 1) A combustion engine;
 - 2) A battery cell energy system that cannot be recharged via an external source of electricity but can be recharged by other vehicle mechanisms that capture and store electric energy.
- ☐ **PLUG-IN HYBRID** – A passenger car powered in part by a battery cell energy system that can be recharged via an external source of electricity.
- ☐ **ELECTRIC** - A passenger car powered wholly by a battery cell energy system that can be recharged via an external source of electricity.

NOTICE: Falsifying this application is punishable by fine and imprisonment (R.C. 2913.42).
