- B. When performing their own packing (PBO), the shipper and/or his appointed agent, shall cause PBO cartons to be properly identified and marked with the general contents. Carrier shall have the right to open and inspect any "PBO" carton to verify contents. Carrier will not be liable for damages occurring on "PBO" cartons, unless specific exterior damages are noted and inspection takes place with the carrier's representative at the time of delivery.

After the Estimate has been accepted by the consumer, no carrier shall fail to timely pickup or deliver a shipment of household goods according to the dates entered on the Estimate unless otherwise instructed by the consumer.
- C. In the event that the pickup and/or delivery dates have not been determined at the time of the acceptance of the Estimate, the consumer may enter "TELEPHONE NOTIFICATION" in the space provided on the Estimate for pickup and delivery dates.
- D. Whenever a carrier is unable to make delivery of a shipment of household goods on the date during the period specified in the receipt or Bill of Lading, the carrier shall notify the consumer, or person designated by the consumer by telephone, e-mail, text message, or in person, at the carrier's expense of the location and general condition of the shipment, the reason for such delay and the date or period of time during which delivery of the shipment will be made and shall repeat such notification if any subsequent date or period of time so assigned is not met. Such notification shall be given as soon as it becomes apparent to the carrier that it is unable to deliver the shipment in compliance with the terms of the receipt or Bill of Lading; provided that the requirement of this paragraph shall not apply where the carrier is unable to obtain from the consumer an address or telephone number for such notification. Notification as required herein shall not affect the determination of compliance by the carrier with reasonable dispatch as required in paragraph (A) of this Item.

- A. Upon request of shipper, owner or consignee of the goods, carrier will, subject to (B) below, service articles and appliances at origin and destination for the additional charge provided in Section 2, Additional Services. Such servicing does not include removal or installation of articles secured in the premises; or plumbing, electrical or carpentry services necessary to disconnect, remove, connect, and install such articles and appliances.
- B. If carrier does not possess the qualified personnel to properly service such articles or appliances, carrier will, upon request of shipper, owner or consignee, and as an agent for them, engage third parties to perform the servicing. When third parties are engaged by the carrier to perform any service, the carrier will not assume responsibility for their activities, or conduct, amount of their charges, nor for the quality of service furnished. Charges for the arrangement of such services will be found in Section 2, Item 660.

ITEM 430 STORAGE-IN-TRANSIT

- A. Storage-in-transit of shipments covered by this tariff is the holding of the shipment in or at the warehouse of the carrier, or its agent, for storage, pending further transportation, and will be affected only at the specific request of the shipper, or under conditions specified in paragraph (K) of this Item. For the purpose of this Item, a carrier may designate any warehouse to serve as its agent.
- B. Except as otherwise provided in paragraph (E), shipments moving under this Item may be placed in storage-in-transit one or more times for an aggregate period not to exceed 180 days. When not removed from storage-in-transit at the expiration of the time limit specified herein, liability as carrier shall terminate at midnight on the 180th day; or if the transportation, storage, additional services charges, advances and other lawful charges have not been paid as provided under paragraphs (C) and (D) (except where the satisfactory arrangements for payment have been made between the carrier and the consignor or consignee in accordance with the Rules and Regulations of the Public Utilities Commission of Ohio), the intrastate character of the shipment shall cease, the warehouse shall be agent for the shipper, and the property shall then be subject to the rules, regulations and charges of the warehouseman.

(Continued on next page)

ITEM 430 – Continued STORAGE-IN-TRANSIT

- C. When storage-in-transit is at origin, charges (subject to Item 240) may be billed sixty (60) days after storage-in-transit is effected as follows:
1. Transportation charges from origin to warehouse where storage-in-transit is affected.
 2. Storage charges for the first ninety (90) day period of storage-in-transit.
 3. Charges for additional services, advances and other lawful charges.
- Storage-in-transit charges for each subsequent thirty (30) day period, or fraction thereof, that shipment remains in storage-in-transit, may be billed in advance.
- D. When storage-in-transit is at other than origin, charges (subject to Item 240) must be billed at the time storage-in-transit is effected, as follows:
1. Transportation charges from origin to warehouse where storage-in-transit is affected.
 2. Storage charges for the first thirty (30) day period of storage-in-transit.
 3. Charges for additional services, advances and other lawful charges.
- Storage-in-transit charges for each thirty (30) day period, or fraction thereof, that shipment remains in storage-in-transit, may be billed in advance.
- E. When, during any one of the thirty (30) day periods within the storage-in-transit period provided herein, the shipper has given notice for final delivery of the shipment on a date fifteen (15) days prior to the expiration of such thirty (30) day period, and the carrier, by no fault of the shipper, fails to provide transportation within such thirty (30) day period, unless shipper cancels or rescinds order for final delivery. All other provisions under the tariff will continue in effect until further transportation is made available by the carrier. Until all lawful charges are paid, property will remain in carrier's or agent's warehouse, subject to lien for all such charges.
- F. The transportation charges to apply on shipment stored in transit under this Item and forwarded from warehouse will be (1) the applicable tariff rate from the initial point of pick-up to warehouse, and (2) the applicable tariff rate from the warehouse location, which for rate application purposes, will be considered the new point of origin, to destination, viz.:
1. When point of pick-up or delivery and warehouse are both located within the same municipality, or within a distance of fifty (50) miles or less, the pick-up or delivery transportation rate will be as shown in Item 460.
 2. When point of pick-up or delivery and warehouse are not within the same municipality, or not within a distance of thirty (50) miles or less, apply transportation rate in applicable rate sections, from point of pick-up or delivery to municipality in which warehouse is located, as provided by a GPS mapping facility.

NOTE: Where warehouse is located within municipality for which a key point is shown on a vicinity map, mileage shall be computed to such given point irrespective of location of warehouse or municipality.

- G. Shipper or owner, upon proper notice in writing to the carrier before departure of the shipment, may change destination originally shown on the Estimate or Bill of Lading. When the destination of a shipment is changed, such change must be recorded on the Estimate or Bill of Lading. When the intrastate character of the shipment is terminated at the warehouse before expiration of the time limit specified in paragraph (B), the transportation and other lawful charges shall apply in identical manner as provided in paragraphs (C) or (D), whichever is applicable.

(Continued on next page)

ITEM 430 – Continued STORAGE-IN-TRANSIT

- H. When a storage-in-transit shipment has been placed in a carrier's or agent's warehouse, both the carrier and the warehouse must have in their possession records showing the following:
 - 1. An itemized list of the shipment with the Bill of Lading number noted thereon.
 - 2. Point of origin and destination.
 - 3. Condition of each article when received at and forwarded from the warehouse.
 - 4. The dates when all charges, advances or payments were made or received.
 - 5. Dates shipment was delivered into and forwarded from the warehouse.
- I. During the storage-in-transit period, shipper may withdraw a portion of the property, provided that all accrued charges on the shipment are paid prior to such withdrawal, except as provided in Item 240. When the selection of items requires unstacking and/or restacking of the shipment, charges for such handling shall be assessed in accordance with Item 560. Charges for transportation furnished, if any, for portion selected for delivery shall be assessed on same basis as would apply to that portion as an individual shipment. With reference to the portion of the shipment which remains in the warehouse, shipper may elect in writing to terminate the storage-in-transit service and place the remaining property in storage with the warehouseman in possession, in which event, the warehouse will be considered the destination of the shipment. If the shipper elects to have the remaining portion remain in storage-in-transit, the following will be applicable:
 - 1. Storage-in-transit charges, if any, for the balance of the storage-in-transit period shall be assessed on the same basis as would apply to the remainder of the shipment as an individual shipment.
 - 2. Charges for transportation furnished, if any, for the delivery of the remainder of the shipment shall be assessed on the same basis as would apply to that portion as an individual shipment.
- J. During the storage-in-transit period, shipper may add property to that already in storage-in-transit. Charges for such property added shall be as follows:
 - 1. Transportation charges to apply on the addition to the storage-in-transit shipment from initial point of pick-up to warehouse will be as provided in paragraph (F).
 - 2. Warehouse handling charge as provided in Item 650, will apply on the addition, subject to 2,000 pounds minimum.
 - 3. All subsequent charges including storage-in-transit will be based on the total weight of the combined shipment.
- K. If delivery cannot be made at the address specified on the Bill of Lading because of impracticable operation as defined in Item 290 hereof, and neither shipper, consignor nor owner designates another address at which delivery can be made, carrier will hold the shipment under the storage-in-transit provision of this Item.

NOTE: All rates and charges applicable on shipments subject to storage-in-transit shall be those in effect on the date shipment was loaded at point of origin.

ITEM 440 WEIGHTS – DETERMINATION OF

- A. Nothing in this Item shall be construed as requiring the weighing of shipments, unless the carrier bases its rates and charges on the weight of the shipment.
- B. Each household goods carrier which establishes household goods rates by weight shall determine the tare weight of each vehicle used in the transportation of household goods by having it weighed prior to the transportation of each shipment, without the crew thereon, a certified scale, and when so weighed, the fuel tanks on such vehicle shall be full and the vehicle shall contain all pads, chains, dollies, handtrucks and other equipment needed in the transportation of shipment to be loaded thereon, the tare weight of the vehicle used in a move shall be entered on the Bill of Lading after the vehicle has been loaded. The net weight of the shipment shall be obtained by deducting the tare weight from the gross weight. Where no certified scale is available at the point of origin, the gross weight shall be obtained at the nearest certified scale either in the direction of the movement or in the direction of the next pickup or delivery in the case of part loads. In the transportation of part loads, this paragraph shall apply in all respects, except that the gross weight of a vehicle containing one or more part loads may be used as the tare weight of such vehicle as to part loads subsequently loaded thereon. The consumer of the load, or his representative, upon request of either, shall be permitted without charge to accompany in his own conveyance, the carrier to the weighing station, and to observe the weighing of shipment after loading. The carrier shall use a certified scale which will permit the consumer to observe the weighing of his shipment without causing delay. If no certified scale is available at origin, at any point in route, or at destination, a constructive weight, based on seven pounds per cubic foot of properly loaded van space, may be used.
- C. The carrier shall obtain a weight ticket, with tare and gross weights evidenced by separate tickets, and the driver shall enter thereon the number of the Bill of Lading accompanying the shipment, and a copy shall be retained in the carrier's file. If both the gross and tare weights of a shipment are obtained on the same scale, they may be evidenced on the same weight ticket. A true copy of each weight ticket pertaining to a shipment shall be given to the consumer at the weighing station if the consumer is present or upon delivery of the shipment if the consumer is not present at the weighing. A part load for any one consumer not exceeding one thousand pounds may be weighed on a certified scale prior to being loaded on the vehicle. Additionally, an automobile or other article weighing in excess of five hundred pounds which is mounted on wheels may be weighed separately by obtaining the weight of such article on a certified scale prior to loading on the vehicle to be used for its transportation.
- D. No common carrier shall accept a shipment of household goods for transportation which appears to be subject to the minimum weight provisions of the carrier's tariff without first having advised the consumer of such minimum weight provisions.

7(a). Exception to Item 450.

(continued from page 91)

1. On the first Monday of each calendar month, the "national U.S. average" price per gallon of diesel fuel will be determined based on the price stated by the U.S. Department of Energy (DOE), Energy Information Administration's (EIA) survey of "Retail On-Highway Diesel Prices." This price will be obtained by calling the DOE Fuel Hot Line at 202-586-6966 or via the DOE Internet web site at www.eia.doe.gov.
2. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated DOE price available on the next subsequent business day (Tuesday).
3. The DOE fuel price obtained will then be indexed based on the fuel price/adjustment factor matrix set forth in this section to determine the Fuel Cost Price Adjustment that will become applicable on the fifteenth (15th) day of the same month. The adjustment determined will apply for shipments loaded beginning on the 15th day of the month and remain in effect through the 14th day of the following month starting from the effective date of this section. For example, if the reported price of self-service diesel fuel determined on Monday, June 4th is \$2.201 per gallon, a four (4.0%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of June 15th through July 14th. Then, if the reported price of diesel fuel on Monday, July 2nd increases to \$2.419 per gallon, a five (5.0%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of July 15th through August 14th.
4. Notwithstanding any other provisions of the tariff, the Fuel Cost Adjustment WILL APPLY to the transportation charges applicable on SIT shipments when such shipments are delivered to or removed from the storage-in-transit location during the period that a Fuel Surcharge is in effect.

BERGER COLUMBUS, Cincinnati**

VALUATION – LIABILITY

1. **NOTICE TO SHIPPER ABOUT SHIPMENT VALUATION:** The basic liability for loss or damage to an article that is transported or warehoused is 60 cents per pound per article. The charges for transportation and/or warehousing are based upon that liability because carrier does not know the value of the goods. This liability is far less than the average value of household goods. As an example, if your shipment weighs 12,000 pounds, the maximum recovery that you would receive if the entire shipment were lost or totally damaged would be \$7,200.00.
2. **INCREASE THE LIABILITY TO \$3.00 PER POUND PER ARTICLE:** As an alternative to the above, shipper may choose to increase the maximum liability of carrier from \$.60 to \$3.00 per pound per article lost or damaged. If shipper makes this selection, shipper must value their goods the same as for full replacement. Shipper will then be charged at 50% of the charges reflected in the chart. This choice must be entered on the Estimate/Bill of Lading.
3. **INCREASE THE LIABILITY TO THE FULL REPLACEMENT VALUE:** If shipper wants carrier to be liable for the full replacement value of any articles that are lost or damaged, shipper must state in writing on the Estimate/Bill of Lading the replacement value of the entire shipment. Replacement value is the market cost of replacement of any lost or damaged article(s). If shipper fails to state the replacement value then the maximum liability of carrier is 60 cents per pound per article.
4. **EXTRAORDINARY (UNUSUAL) VALUE ARTICLES:** If the shipment contains any item that is of a value in excess of \$100 per pound such an item must be specifically identified and declared. If this is not done then the maximum liability of carrier will be limited to \$100 per pound per article (based on the article's actual weight) not to exceed the declared value of the entire shipment if the full replacement option was chosen, otherwise the limit the carrier will pay is 60 cents per pound per article if no specific value is declared. Identified extraordinary articles will be subject to additional charges.
 - a. Carrier has the option to repair the article or to pay the amount of loss at either 60 cents per pound or replacement depending on shipper selection of valuation.
 - b. If shipper undervalues the shipment, any payment for a loss will be reduced by the percentage amount of the undervalue.

1. On the first Monday of each calendar month, the “national U.S. average” price per gallon of diesel fuel will be determined based on the price stated by the U.S. Department of Energy (DOE), Energy Information Administration’s (EIA) survey of “Retail On- Highway Diesel Prices.” This price will be obtained by calling the DOE Fuel Hot Line at 202-586-6966 or via the DOE Internet web site at www.eia.doe.gov.
2. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated DOE price available on the next subsequent business day (Tuesday).
3. The DOE fuel price obtained will then be indexed based on the fuel price/adjustment factor matrix set forth in this section to determine the Fuel Cost Price Adjustment that will become applicable on the fifteenth (15th) day of the same month. The adjustment determined will apply for shipments loaded beginning on the 15th day of the month and remain in effect through the 14th day of the following month starting from the effective date of this section. Then, if the reported price of diesel fuel on Monday, July 2nd increases to \$2.419 per gallon, a five (5.0%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of July 15th through August 14th.
4. Notwithstanding any other provisions of the tariff, the Fuel Cost Adjustment WILL APPLY to the transportation charges applicable on SIT shipments when such shipments are delivered to or removed from the storage-in-transit location during the period that a Fuel Surcharge is in effect.

- Truck/Equipment/Supplies Charge - \$250 - \$300
- Insurance: Basic insurance (Minimal Reimbursement Coverage) is included with the hourly moving rate, at no additional charge. Other insurance options and costs are detailed below
- Charges for Interstate Moves: in addition to the fuel surcharge, additional charges often apply to interstate moves, varying by the distance of the move, days on the road, and scope of work.
 - o Overnight Charge: \$500 per night to cover hotel expenses and dinner
 - o Truck Charge: Applies if rental vehicle, one-way rental, trailer rental, etc. is needed for move. Charges vary depending on scope of work.
 - o Travel Charge: Additional charges, based on market rates, to cover cost of flights, tolls, luggage fees, transportation to the job or airport, time spent at airport, etc., associated with the move. Charges vary depending on scope of work.

Insurance:

For every job, we carry \$1,000,000 in liability insurance per occurrence, and \$2,000,000 in total coverage. Also included with our standard hourly rate is up to \$50,000 of coverage for household possessions during transit in our box truck. We offer the following coverage options for your possessions during the handling of them.

- Minimal Reimbursement Coverage: This is the standard coverage that is required by the State of Ohio and is included in the hourly rate with all our moving services. This option includes coverage of up to \$0.60 per pound for any damage that occurs during the moving process.
- Full Value Replacement Coverage: This option is available to anyone who wants to make sure that they are fully covered in the event of unforeseen damages. This is billed out at a rate of 1% of the declared value of your items (all possessions being moved) or 2% of the declared value of your items (only specific items), with a minimum rate of \$6 per pound. With this coverage, the declared value (or a minimum of \$6/lb x weight) of the load is used to calculate the charges.
- Items of Extraordinary Value: Any highly valuable items are considered to be worth over \$100/lb and need to be declared separately regardless of the cargo coverage elected. This is billed out at a rate of 2% of the declared value of your items, with a minimum rate of \$10 per pound.

All damage/insurance claims will be documented on the Bill of Lading by the Crew Leader and reviewed by management at the PMH office. Calls can be directed to (419)740-1005.

Estimates & Bill of Lading:

- Estimates: All moving estimates are non-binding and based on the inventory and information provided by the customer, either via phone, email or in-person. They contain an itemized breakdown of all estimated charges, making it clear and easy to interpret. All labor – driving,

moving, packing – is estimated hourly (15-minute intervals) and applied to a set rate to calculate the estimated cost of labor. All other charges, with the exception of disposal fees (see above), are flat rates and will be mirrored on the Bill of Lading. Customers are emailed the estimate to sign and return as confirmation that they acknowledge and accept the document as a non-binding estimate. No deposit is required prior to the move, and payment is collected in full upon the completion of the move.

- Bill of Lading: The Bill of Lading (“BOL”) mirrors the Estimate in many sections and contains the same itemized breakdown of charges; when the job is completed, the actual charges/amounts are populated by the moving crew, making it easy to compare to the estimate.

The Crew Leader will review the BOL with the customer throughout the moving process:

- Upon arrival, reviewing all details of the document (addresses, insurance options, forms of payment accepted, hourly rate, additional charges). Both the customer and the Crew Leader sign the BOL prior to starting the move, signing to acknowledge the insurance coverage and acceptance of the terms.
- Any damage incurred during the moving process will be documented on the BOL by the Crew Leader and reviewed by the customer.
- Upon completion of the move, the Crew Leader will populate the itemized breakdown of charges based on the actual time invested into the move, including estimated drive back to the office. The time is calculated by entering the start time and stop time of the job, less any downtime for lunch, etc. Both the customer and Crew Leader sign the BOL again to acknowledge acceptance of total charges.
- The Crew Leader will collect payment directly from the customer and apply it to the BOL, at which point a paid invoice is immediately emailed to the customer. A secondary receipt is mailed the following day from the office once the payment is processed. Paper invoices are available per request.
