PREAMBLE

The Board of Education of the Lexington Local Schools, hereinafter referred to as the Board, and the Lexington Teachers' Association/OEA/NEA, hereinafter referred to as the Association, set forth this Agreement to establish the relationship between the Board and the Association and to establish one orderly procedure for the consideration and resolution of matters of concern.

ARTICLE I-RECOGNITION

A. Recognition of the Association

The Lexington Local Board of Education (hereinafter, Board) recognizes the Lexington Teachers' Association/OEA/NEA (hereinafter, Association) as the sole and exclusive representative for the bargaining unit as set forth below in matters pertaining to wages, hours, terms and conditions of employment and the continuation, modification, or deletion of an existing provision of a collective bargaining agreement.

As used in this Agreement, the term "Teacher(s)" is defined as a member or members of the bargaining unit. The bargaining unit covered by this Agreement is defined as all certificated personnel, including those on approved leaves of absence. Excluded from the bargaining unit are the Superintendent, Assistant Superintendent(s), Principals, Assistant Principals, all other supervisory and managerial personnel as defined in Chapter 4117 of the Ohio Revised Code (ORC), any other administrators employed pursuant to Section 3319.02 ORC, aides, and substitutes working less than sixty (60) days in the same assignment.

B. Recognition of the Board

The Association recognizes the Board as the elected representatives of the people of the Lexington Local School District and as the employer of the teachers of the Lexington Local School District.

C. Representation Election

The rights of the Association as set forth in this Agreement are continuous unless challenged pursuant to Chapter 4117 ORC and the rules and regulations of the State Employment Relations Board (SERB).

ARTICLE II-NEGOTIATIONS PROCEDURE

A. Scope of Negotiations

The obligation to bargain collectively means to negotiate at reasonable times and to execute a written contract incorporating the terms of any agreement reached. The obligation to bargain collectively does not require the Board or the Association to agree to a proposal nor does it require the making of a concession.

Those matters which are negotiable are wages, hours, terms and other conditions of employment and the continuation, modification, or deletion of an existing provision of this Agreement.

B. Requests for Negotiations and Meetings

Either the Board or the Association may initiate negotiations by serving written notice to the Superintendent, on behalf of the Board, or the Association President, on behalf of the Association, not more than one-hundred twenty (120) days nor less than sixty (60) days prior to the expiration of this Agreement. The party initiating negotiations will notify SERB with a copy of the existing agreement, supplying the other party with such communication. The first negotiations meeting will be held within thirty (30) days of the date on which the notice to negotiate was filed by either party, unless the parties mutually agree otherwise.

1. The parties agree to provide necessary information and supportive data relevant to their proposals. If a proposal is unacceptable to one of the parties, that party should give reasons and, if feasible, offer alternative proposals.
2. Interim reports of progress may be made to the members of the Association by its representatives and to the Board by its representatives.
3. While discussions are in progress, any release prepared for news media will be approved by both negotiating teams. If discussions are temporarily interrupted before an understanding is obtained, the parties agree to keep the considerations confidential until the discussions are completed.
4. During the meetings, either negotiating team may recess for independent caucus or conference as necessary.
5. Minutes of the negotiations meetings will not be taped by either or both parties involved.
6. Meetings shall start promptly, but no later than fifteen minutes after the predetermined starting time.
7. At the first negotiations meeting complete agendas, including proposals and approximate monetary costs shall be exchanged.
8. Every effort will be made to conclude negotiations within thirty (30) days prior to the expiration date of this Agreement. If negotiations have not been concluded by that time, either party may declare impasse.

C. Representation

Representative members of the Board or their designated representatives shall meet with

designated representatives of the Association to negotiate. No final agreement shall be executed without ratification by the Association and the Board. It is assumed that both parties have been given the privilege of making proposals, considering proposals, and offering counterproposals in the course of negotiations.

D. Responsibilities During Negotiations

Negotiations must be recognized by both parties as a shared process.

No member of either negotiation team shall in any way be penalized or censured because of his participation in negotiations.

At the close of each meeting, items of negotiations which have been tentatively agreed upon shall be reduced to writing and initialed by each party; such initialing signifying only that tentative agreement has been reached on these items.

Until all negotiations meetings are completed, each meeting shall include a decision on an agreed time and place for the next meeting.

The Board agrees to furnish the Association President, upon request and at no cost, all readily available financial information that will assist the Association in developing its proposals.

E. When an agreement is reached through negotiating, the outcome shall be reduced to writing and submitted to the members of the Association and Board for formal approval. Upon approval, the agreement shall be signed by the parties and shall become part of the official minutes of the Board and a part of the contract of the individual teachers.

F. Disagreement

1. If impasse is declared by either party, the parties shall utilize the services of a mediator to resolve their differences in negotiations. The mediator shall be selected by the Federal Mediation and Conciliation Service. The function of the mediator shall be to offer suggestions, ideas, concepts, etc., that will move the parties toward agreement. The parties shall utilize mediation for a period of thirty (30) calendar days or until agreement is reached or the mediator determines that no agreement can be reached, whichever occurs first.

Within forty-five (45) days prior to the expiration of the contract, the parties, by mutual agreement, may agree to another alternate dispute resolution procedure. Any mutually agreed to change shall be sent, in writing, to the State Employment Relations Board.

2. If during the life of this agreement bargaining is necessary due to a specified reopeners provision in this agreement, said bargaining shall be in keeping with the bargaining procedures set forth in Sections C, D, E, and F of this article.

This mutually agreed dispute settlement procedure as authorized by ORC 4117.14 (C) and ORC 4117.14 (C) (1) (f) and governing the negotiations of a successor collective bargaining agreement, shall replace the statutory dispute settlement procedure set forth in ORC 4117.14 (C) (2) through 4117.14 (D) (1).

ARTICLE III-GRIEVANCE PROCEDURE

Professional Growth Plan

The Professional Growth Plan helps the teacher identify areas of professional development that will enable the teacher to enhance practice. The teacher is accountable for implementing and completing the plan. The plan must align to any district and/or building improvement plan(s). The Professional Growth Plan is developed annually. It is to be reviewed regularly and updated as necessary based on collaborative conversations between the evaluator and the teacher.

The Professional Growth Plan should reflect the evidence available and focus on the most recent evaluation and observations. The Professional Growth Plan should be individualized to the needs of the teacher. The school or district should provide for professional development opportunities and support the teacher by providing resources (e.g., time, financial). The Professional Growth Plan must be clear and comprehensive. It is aligned to the most recent evaluation results and proposes a sequence of appropriate activities leading to progress toward the goals.

Improvement Plan

Teacher Name:	Grade Level/ Subject:	
School year:	Building:	Date of Improvement Plan Conference:

A written Improvement Plan is to be developed when an educator has a Final Holistic Rating of **Ineffective**. However, districts have discretion to place any teacher on an Improvement Plan at any time based on deficiencies in any individual component of the evaluation system. The notice requirements for being placed on an Improvement Plan, the components of the plan and the implementation process for the plan may be subject to the terms of a collective bargaining agreement.

The purpose of the Improvement Plan is to identify specific deficiencies in performance and foster growth through professional development and targeted support. If the teacher does not take corrective actions in the timeline specified in the Improvement Plan, the evaluator may recommend the teacher be dismissed or continue working under the plan.

Section 1: Improvement Statement—List specific area(s) for improvement related to the **Ohio Standards for the Teaching Profession**. Attach documentation.

Teacher Performance Evaluation Rubric

The *Teacher Performance Evaluation Rubric* is to be scored holistically. This means evaluators will assess which level provides the best *overall* description of the teacher. The rating process is to occur on completion of each 30-minute observation and post-conference. To determine the rating for each 30-minute observation, the evaluator is to consider evidence gathered during the pre-conference, observation, post-conference and classroom walkthroughs, if applicable. Note that when completing the performance rubric, evaluators are not expected to gather evidence on all *indicators* for each observation cycle. Likewise, teachers may, but are not required to, bring additional pieces of evidence to address all *indicators*. The professionalism section of the rubric may use evidence collected during the pre-conferences and post-conferences as well as information from the Professional Growth and/or Improvement Plan, if applicable.

OTES 2.0 Teacher Performance Rating Definitions

In accordance with Ohio Revised Code 3319.112, the rubric describes four levels of teacher performance. Each performance rating can also be described in more general terms as a holistic rating of teacher performance:

Ineffective: This rating indicates the teacher fails to demonstrate minimum performance expectations. A rating of Ineffective indicates the teacher consistently fails to demonstrate competency. The teacher is not effectively meeting the needs of his or her students. The teacher requires immediate assistance through ongoing intensive support.	Developing: This rating indicates the teacher is working to utilize his or her growing knowledge and skills. A rating of Developing indicates the teacher demonstrates competency in some of the teaching standards but needs improvement in others. The teacher attempts to meet the needs of the whole group. The Developing teacher is in the process of refining his or her skills and abilities. The teacher strives to improve his or her instructional and professional practice. The teacher may be making progress, but performance requires ongoing professional support for necessary growth to occur.	Skilled: This rating is the rigorous and expected performance level. A rating of Skilled indicates the teacher consistently meets expectations for performance and fully demonstrates competency in most of the teaching standards. The teacher addresses the needs of groups of students. The Skilled teacher integrates knowledge, skills and abilities needed for effective classroom instruction. The teacher consistently strives to improve his or her instructional and professional practice. The Skilled teacher demonstrates purposefulness, flexibility and consistency.	Accomplished: This rating is the highest level of achievement. A rating of Accomplished indicates the teacher consistently meets expectations for performance and fully demonstrates competency in most or all of the teaching standards. The teacher addresses the needs of individual students. The Accomplished teacher uses a strong foundation of knowledge, skills and abilities to innovate and enhance their classroom, building and potentially the profession. The teacher consistently strives to improve his or her instructional and professional practice and contributes to the school, building or district through the development and support of colleagues. The Accomplished teacher is a leader who empowers and influences others.

Using High-Quality Student Data to Inform Instruction and Enhance Practice

Choosing and using high-quality student data (HQSD) to guide instructional decisions and meet student learning needs is key in making sound instructional decisions for students. The teacher evaluation will use at least two measures of district-determined high-quality student data to **provide evidence of student learning attributable to the teacher** being evaluated. When applicable to the grade level or subject area taught by a teacher, HQSD shall include the value-added progress dimension and the teacher shall use at least one other measure of HQSD to demonstrate student learning. HQSD may be used as evidence in any component of the evaluation where applicable.*

It is recognized there are many types of data that can be used to support student learning, and the data include much more than just test scores. *These types of data and their uses are important and should continue to be used to guide instruction and address the needs of the whole child but may not meet the definition of high-quality student data for the purpose of teacher evaluation.*

The high-quality student data instrument used must be rigorously reviewed by locally determined experts in the field of education to meet all of the following criteria:

- Align to learning standards
- Measure what is intended to be measured
- Be attributable to a specific teacher for course(s) and grade level(s) taught
- Demonstrate evidence of student learning (achievement and/or growth)
- Follow protocols for administration and scoring
- Provide trustworthy results
- Not offend or be driven by bias

AND

The teacher must use the data generated from the high-quality student data instrument by:

- Critically reflecting upon and analyzing available data, using the information as part of an ongoing cycle of support for student learning
- Considering student learning needs and styles, identifying the strengths and weaknesses of an entire class, as well as individual students
- Informing instruction and adapting instruction to meet student need based upon the information gained from the data analysis

Walkthroughs/Informal Observations: Overview and Resources

Ohio Teacher Evaluation System 2.0

Overview: Walkthroughs/Informal Observations:

Observations of teaching provide important evidence when assessing a teacher's performance and effectiveness. As an evaluator observes a teacher engaging students in learning, valuable evidence may be collected on multiple levels. While many of these interactions may take place in the classroom, a more formal instructional setting, it should be noted that evidence of teacher practice is visible in many settings. Some teacher behaviors are observable in the classroom while other evidence may be obtained from formal conferences, informal conversations, and evidence of practice, as well as input from colleagues, parents/guardians and students.

As part of the observation process, ongoing communication and collaboration between evaluator and teacher help foster a productive professional relationship that is supportive and enhances a teacher's professional growth and development.

A walkthrough/informal observation is a

- Tool to inform evaluation that provides the opportunity to gather evidence of instruction over a series of short classroom visits;
- Method to allow evaluators opportunity to gather additional evidence on identified focus area(s) to enhance teacher practice;
- Process for giving targeted evidence-based feedback to teachers; and
- Means for evaluators to visit classrooms more frequently and more purposefully.

As part of the teacher evaluation system, walkthroughs/informal observations should, whenever possible, be focused on gathering evidence related to the teacher's identified focus area(s). However, evaluators are not limited to only collecting evidence on the identified focus area(s). Evaluators must ensure they have sufficient evidence to provide a Final Holistic Rating at the end of the evaluation cycle.

Guidelines for Walkthroughs/Informal Observations

Informally Observe Teachers

Teachers who are fully evaluated will have a minimum of two walkthroughs. Walkthroughs are informal observations less than 30 minutes; these may be announced or unannounced.

Informally Observe Often

The evaluator's presence in the classroom should send a positive message to teachers. Conducting walkthroughs consistently and frequently can have a positive impact on teacher practice and student learning. Find time to observe teachers at varying times of the day because what occurs in the morning can be different from what occurs in the afternoon.

Focusing on Identified Areas for Support

Focus area(s) may be determined during the required conference following the first Formal Holistic Observation or during the previous year's Final Summative Conference. The focus may be area(s) of relative strength and/or area(s) for improvement.

Determination of focus area(s) should mirror the level of autonomy used to develop Professional Growth Plans:

- Teachers rated Accomplished - Self-Directed by teacher
- Teachers rated Skilled – Jointly determined by teacher and evaluator
- Teachers rated Developing – Guided by evaluator
- Teachers rated Ineffective – Determined by evaluator

Evidence gathered during walkthroughs that occur after the Formal Holistic Observation should be focused on the teacher's identified area(s) for support when applicable.

Evaluators are not limited to collecting evidence on the identified focus area(s).

Evaluators must ensure they have sufficient evidence to provide a Final Holistic Rating at the end of the evaluation cycle.

Make Time to Follow Up

Follow-up communication to walkthroughs is a critical component. Follow-up will often be in writing, but the evaluator should extend to the teacher an invitation to discuss any comments provided face-to-face. The evaluator may also offer resources to support teachers in enhancing their practice. If possible, evaluators should follow up with the teacher on either the same day or the next day. To impact practice, teachers should receive feedback in a timely manner.

Teacher-Driven Observations

While it is recognized that evaluators have many demands on their time, encouraging teachers to identify instructional periods for the evaluator to observe can be a means for the evaluator to collect evidence related to the teacher's identified focus area(s).

Types of Data

Data collected as evidence of teacher practice may be quantitative, qualitative, or a combination of both. Quantitative data includes measures of values or counts expressed as numbers. For example, the evaluator could use a checklist to tally the types of questions asked (higher versus lower levels). The evaluator might also chart the number and types of assessments used. Qualitative data can include scripted notes detailing patterns of activities, feedback shared and events observed. In both cases, accuracy is essential to ensure the credibility of the process and the evaluator.

Planning for the Post-Conference Ohio Teacher Evaluation System 2.0

Post-Conference Planning

The goal for the conference leader is to cognitively coach the teacher through the use of reflective questions.

Considerations

Before deciding which reflective questions are best matched to the educator's performance and goals, consider the following:

- What focus area(s) might be/were identified after the Formal Holistic Observation? What evidence has been demonstrated to support growth in the focus area(s)?
- What are the teacher's goals on the Professional Growth Plan (PGP)? Do the measurable indicators identified on the PGP demonstrate progress on the plan?
- What does the teacher's high-quality student data (HQSD) demonstrate about instruction and student learning?
- How has the teacher provided evidence of *use* of the HQSD to impact student learning and teacher practice?
- What further supports might this teacher need to enhance practice and demonstrate growth?

Reflective Questions

The number and type of focus area(s) (strength and/or area of growth) are determined locally.

- Record 3 to 5 reflective questions aligned to the identified focus area(s) that would enhance a strength and/or support an area of growth.
 - 1.
 - 2.
 - 3.
 - 4.
 - 5.

Three Key Elements of the Instructional Post-Conference

Conducting the Post-Conference

1. Introduction/Greeting/Establish Length
 - Review Conference Process
 - General Impression Question: "How do you think the lesson went?"
2. Focus area(s)
 - Discuss identified focus area(s)
 - Ask self-reflection question/s
 - Provide evidence from notes
 - Share resources and supports
3. Present evidence and rating connected to the rubric.
