

CRIMINAL RECORDS CHECKS ARE REQUIRED FOR ALL INITIAL LICENSES

Ohio Revised Code Sections 4747.051 and 4753.061 of the Ohio Revised Code requires all individuals applying for an initial license issued by the Ohio Speech and Hearing Professionals Board to submit fingerprints for a criminal records check completed by the Bureau of Criminal Identification and Investigation (BCI) and the Federal Bureau of Investigation (FBI).

INSTRUCTIONS FOR OHIO RESIDENTS

Applicants residing in Ohio or out of the state are required to utilize one of the eighty-eight Ohio county sheriffs' offices or a WebCheck provider to electronically submit fingerprints to BCI and FBI.

A list of other WebCheck vendors in Ohio, arranged by county, is available online at:

<http://www.ohioattorneygeneral.gov/Business/Services-for-Business/WebCheck/Webcheck-Community-Listing>

When locating an electronic fingerprinting site on this web page, please note that you must use the services of a vendor that has "BCI and FBI" listed after the vendor's name as only these entities participate in "National WebCheck."

Contact the WebCheck (BCI & FBI) provider agency to determine the total fee(s) and the accepted method(s) of payment. Fees include: BCI (\$22), plus FBI (\$25.25), and some agencies may charge a processing fee (e.g. \$5-\$40). Also, verify if any additional materials are needed (e.g. type of valid photo id). Note, some agencies have restricted hours and may require you to schedule an appointment.

You need both the BCI and FBI records check for initial licensure. The Board cannot complete the processing of your application until it receives the background check reports from both the BCI and FBI. By law, BCI has up to 30 days to process background check results; however, the Board will typically receive the results of a criminal records check submitted via WebCheck within 7 to 10 business days for "no hit" reports. A report with a legal history to consider may take longer, as BCI will seek to confirm adverse data reported and may be required to remove data not subject to verification.
