

TRAFFIC SAFETY BULLETIN

Commercial Motor Vehicle Safety

- The Ohio State Highway Patrol's Licensing and Commercial Motor Vehicle Section (LCS) conducted four separate high-visibility enforcement efforts targeting major interstates across Ohio in an effort to reduce commercial-related vehicle (CMV) traffic crashes. Compared to similar time periods in 2023, OSHP CMV enforcements were up 191% and OSHP CMV inspections were up +341%, which led to a 63% reduction in CMV crashes on these interstates.
- On Interstate 70 (9/1-9/7), the number of CMV crashes fell 81%, from 16 in 2023 to 3 in 2024. OSHP enforcements were up 154% and OSHP inspections increased 216% from the previous year.
- On Interstate 71 (9/8-9/14), the number of CMV crashes fell 76%, from 17 in 2023 to 4 in 2024. OSHP enforcements were up 262% and OSHP inspections increased 368% from the previous year.
- On Interstate 75 (8/18-8/24), the number of CMV crashes fell 44%, from 16 in 2023 to 9 in 2024. OSHP enforcements were up 298% and OSHP inspections increased 1,430% from the previous year.
- On Interstate 80 (8/25-8/31), the number of CMV crashes fell 47%, from 15 in 2023 to 8 in 2024. OSHP enforcements were up 130% and OSHP inspections increased 189% from the previous year.
- Additional information on commercial-related traffic crashes is available on the Ohio Statistics and Analytics for Traffic Safety (OSTATS) crash dashboard at: <https://statepatrol.ohio.gov/ostats>.
