Note: Any amounts entered representing insurance premiums must be reduced by any related premium refunds, related premium reimbursements or related insurance premium dividends received during the year.

Line 1: You must reduce the amount you enter on this line by your federal self-employed health insurance deduction (federal 1040, Schedule 1, line 16).

For purposes of this line, "health insurance premiums" includes amounts you paid for health insurance under the Affordable Care Act, even if you received a federal subsidy for purchasing it.

Example 1: From January 1 through June 30, Dan was not eligible for Medicare or health insurance through his employer. Dan paid \$100 per month in premiums, totaling \$600, for insurance he obtained under the Affordable Care Act. Dan became eligible for Medicare on July 1. He began to pay Medicare Part B premiums as well as premiums for supplemental health insurance. Dan can enter only \$600 on line 1 of the worksheet.

Line 2: Long-term care insurance plans would include those that cover the costs of nursing home care, in-home care and adult day care.

Line 3: While Ohio law allows this deduction, based on R.C. 1751.14, 5747.01(A) (11), and IRS Notice 2010-38, the Department cannot find a factual scenario in which such an amount would be included in income, and thus deductible. Accordingly, most taxpayers should skip this line or enter zero.

Line 4: Any premiums that you were unable to include on line 1 due to qualifying for Medicare or an employer-paid health care plan should be reported on this line.

Example 2: Refer back to Example 1 on this page. After Dan became eligible for Medicare on July 1, he paid a total of \$1,000 in premiums for Medicare Part B and additional supplemental health insur-

ance premiums. He did not enter those premiums on line 1 due to qualifying for Medicare. Instead, he enters the \$1,000 on line 4 of the worksheet.

Line 5: For purposes of this line, "medical care" has the same meaning found in Internal Revenue Code section 213, excluding premiums already reported on lines 1, 2 and 4. Some examples of eligible expenses are amounts paid for:

- Prescription medication or insulin;
- Hospital costs and nursing care;
- Medical, dental and vision examinations and treatment by a certified health professional including copays;
- Eyeglasses, hearing aids, braces, crutches and wheelchairs.

Refer to IRS publication 502 for a comprehensive list of potentially eligible expenses.
