Welcome to the 2023-2024 Ohio Airport Directory.

The Ohio Airport Directory has been prepared by the Ohio Department of Transportation to help promote safe flying, and to provide pilots and aviation organizations with information about Ohio Airports.

The inclusion of facilities in this directory does not imply that these airports meet any particular standards.

Due to constantly changing airport conditions and services, the Ohio Department of Transportation cannot guarantee the accuracy of the information contained in this directory, nor can it take any responsibility for any action taken by a pilot on the basis of the information.

Pilots are required to refer to current U.S. Government aeronautical information and NOTAMS, and contact the FAA Flight Service Station or the airport operators to determine current airport status and services available prior to each flight (FAR 91.103).

I hope you enjoy flying Ohio's friendly skies.

James Bryant, Administrator
Ohio Office of Aviation
