

# Moving Ohio in the Future

**Access Ohio 2050, Ohio's long-range transportation plan**

Join us at one of 12 public open houses to discuss and give feedback on improving the safety, condition, efficiency, and mobility of the transportation system to better move Ohioans where they need and want to go in the future.

Your feedback will inform the state's long-range transportation plan, Access Ohio 2050, which will guide the state's transportation policies and investments for the next 25 years.

## Public Open House from 5–6:30 PM, Presentation at 5:30 PM
