

Average Wholesale Prices – Petroleum Activity Tax (PAT) Calculated Gross Receipts

Publication Date: September 9, 2024

Period: 10/01/2024 – 12/31/2024

Pursuant to section 5736.02(C) of the Ohio Revised Code, the Tax Commissioner shall determine and publish online the statewide average wholesale prices of a gallon of unleaded regular gasoline, of a gallon of propane, and of a gallon of diesel fuel for each calendar quarter.

The averages below are to be used to determine the calculated gross receipts of a supplier subject to the PAT for the period **October 1, 2024 – December 31, 2024**. These averages should not be used to determine the calculated gross receipts for any other period.

Shown as Dollars per Gallon, Excluding Taxes

Fuel Type	Average*
Unleaded Regular Gasoline	\$2.365
Diesel Fuel**	\$2.427
Propane***	\$0.702

* Rounded up to the nearest one-tenth of one cent, as required by state law. Data extracted from [U.S. Energy Information Administration \(EIA\)](https://www.eia.gov) website.

**At the national level, wholesale prices for No. 2 Distillate are separated between No. 2 Diesel Fuel and No. 2 Fuel Oil, but at the state level for Ohio, it is reported as a combined average. At the national level, wholesale prices for No. 2 Distillate and diesel fuel are nearly identical for most years.

*** Shows nationwide refiner average monthly wholesale price of propane. State-level propane prices are published by EIA only for the months of high demand for heating oil (October through March); U.S. average prices published by EIA are the best proxy to Ohio prices.
