## Enforcement

Personal Appearance(s)

Ted A. Schuster, D.D.S.

Enforcement Attorney Donald Andrews provided a summary of the matter of Ted A. Schuster, D.D.S., for the Board, stating that this was Dr. Schuster's second personal appearance before them and that he was there at their request. Dr. Schuster entered into an Impairment Consent Agreement with the Board on March 12, 2025. Dr. Schuster's license was reinstated on June 11, 2025, limiting his work privileges to sixteen (16) hours per week and no more than eight (8) hours per day. He feels his return to practice has blended well with his recovery and only struggles with his scheduling restrictions. He is asking the Board to consider a request to increase his practice hours. Dr. Schuster has complied with the terms and requirements of the agreement.

Upon being questioned by the Board, Dr. Schuster thanked the Board members for agreeing to meet with him and he stated that practicing dentistry was never the source of his anxiety as it has always been his passion. He feels privileged to contribute this service to his community. Dr. Schuster explained that he had allowed ancillary people,

situations, and physical issues to drive his fear of high expectations and letting people down. He has been using better coping skills, but he feels it is important to have the Board understand that he takes full responsibility for his actions and is grateful to be allowed to practice the profession.

Dr. Schuster informed the members that he has a great support system and has begun seeing his back doctor and his rheumatologist again. He stated that he has not had any pain medication or steroids in over a year and has not had a drink in over six (6) months. The only source of stress and anxiety is for his employees because he cannot bring his employees back unless he can begin to practice closer to a full-time schedule.

President Bean explained that in general the Board does not consider having licensees with impairment issues return for personal appearances two (2) meetings in a row. However, they have chosen to allow Dr. Schuster the opportunity to be heard. She then opened the floor to Board member questions.

Dr. Carr stated that it was her understanding that most of Dr. Schuster's issues were with pain in his back and that the pain is when he stands but not when he is seated. Dr. Schuster explained that he has gone back to his original back doctor, and he is not experiencing the pain as before.

Dr. Brisley-Sedon explained that she understands the cost of paying for a temporary service for his hygienists to practice and then explained that if employed them directly he might be able to afford to bring the hygienist back full-time and possibly have them perform other duties which do not require his clinical practice.

Dr. Williams stated that it was his understanding that Dr. Schuster was having difficulties getting recredentialed. Dr. Schuster explained that as long as he is on probation, they will not consider recredentiaing.

President Bean thanked Dr. Schuster for sharing and stated that the Board would be considering his request during quasi-judicial deliberations and would inform him of their decision upon returning to open session.

#### Evidentiary Hearing in the Matter of Leyla O. Mohamed, Radiographer

President Bean stated that the Board would now consider an evidentiary review in the matter of Leyla O. Mohamed, Radiographer in accordance with Chapters 119. and 4715. of the Ohio Revised Code. She stated it was 1:18 p.m. on July 30, 2025, and asked that the record reflect that Ms. Mohamed had not requested a hearing pursuant to the Notice of Automatic Suspension and Opportunity for Hearing dated March 17, 2025. President Bean indicated that the proceeding would not consist of a full adversarial and evidentiary proceeding, but a reliable evidentiary review. She stated that while the Respondent may attend the hearing due to its public nature, they cannot testify; call or present witnesses; and the Respondent has no right to make any argument in the proceeding. The purpose of the proceeding was to give the Board information about this matter in lieu of the administrative hearing that would have occurred if Ms. Mohamed had properly requested a hearing. She stated that the Board's minutes would serve as the record of the proceeding.

President Bean identified herself as President of the Board for the record and then asked the rest of the Board members to identify themselves for the record:

President Bean noted that the Board's Interim Executive Director and Chief Legal Counsel Miguel Santiago, Esq. and Enforcement Attorney Donald Andrews, Esq. were in attendance. She then asked if Mr. Andrews had any preliminary matters or an opening statement. Mr. Andrews indicated that he did not.

Mr. Santiago informed that Board members that there was one clerical error in the affidavit of Ms. Massaro which listed fifteen (15) exhibits but there were only fourteen (14) exhibits. He stated that the affidavit has been corrected for the record.

President Bean then asked Mr. Andrews to proceed with his case.

Mr. Andrews stated that the Board had been presented with an affidavit from Compliance Coordinator Heidi Massaro identifying the relevant documents for their review and consideration. The affidavit details the facts and evidence the Board needs to make a determination in this matter, along with the attestation that Ms. Mohamed has failed to comply with the terms of her Consent Agreement. The evidence consists of exhibits 1 through 14 which consist of the Notice, and communication between the Board and Ms. Mohamed.

Mr. Andrews then asked that the Affidavit of Heidi Massaro and State's Exhibits 1-14 be admitted into evidence. President Bean admitted the Affidavit of Ms. Massaro and State's Exhibits 1-14 into evidence. She then asked for the record if each member of the Board had an opportunity to review the Affidavit of Ms. Massaro and the State's Exhibits in the matter of Leyla O. ## Committee Reports

### Research

Ms. Scaramucci informed the Board members that the Research Committee was called to order at 9:46 a.m. All members were present and introduced; Dr. Brisley-Sedon, Dr. Carr, and Dr. Graves. Others in attendance were welcomed to the meeting.

### Current Business

Ms. Scaramucci stated that the committee would be creating a draft of the monetary fines for review at their next meeting. The fines will be based on the 2017 Disciplinary Guidelines and Priority levels currently used by Board Supervising Members. She informed the Board members that the guidelines will address responsibility by

provider and number of offenses with the maximum not to exceed \$20,000 per the Board's vote in March. Some discussion ensued regarding criteria based on severity of issue and the decision was to rate severity using the priority list.

### New Business

Ms. Scaramucci said that the committee researched additional tasks for dental auxiliary based on the Dental Assisting National Board's (DANB) criteria and tasks delegated in surrounding states. While Ohio is fairly progressive with auxiliary tasks, there were a few items for discussion. The first item was whether to require all auxiliary to have Basic Life Support. However, not all auxiliaries are regulated by the Board, so it may be problematic to monitor. Ms. Scaramucci indicated that other permissible duties discussed specifically regarding scanning, and placement and removal of rubber dam clamps by certified assistants and whether these duties required further redefining. Also, consideration of whether Expanded Function Dental Auxiliaries (EFDAs) should be permitted to perform coronal polishing and whether this duty should be included within the EFDA curriculum thereby eliminating the need for an additional course to obtain a certificate from the Board.

Ms. Scaramucci stated that the discussions included dental hygiene duties, specifically relaxing the supervision requirements for local anesthesia, scaling and root planing, and nitrous oxide-oxygen (N<sub>2</sub>O-O<sub>2</sub>) minimal sedation, as well as, relaxing the requirements for practicing without the dentist present in order to help with access to care concerns. Members suggested considering allowing for practice without the dentist being present could be increased for longer time frames greater than fifteen (15) days. A reduction in the years and number of hours a dental hygienist must have been in practice before being permitted to practice without the dentist was also discussed. Ms. Scaramucci said that the administration of Botox was briefly addressed as there are some states that already allow this function.

On a final note, Ms. Scaramucci indicated that the committee feels that a listing of non-delegable duties for each dental auxiliary classification should be developed. She stated there were no additional discussion items and that the topics for their next meeting would include a draft of fining guidelines and additional discussion on auxiliary tasks. The meeting was adjourned at 10:31 a.m.

***25-07-15 Motion by Dr. Brisley-Sedon, second by Dr. Wauligman, to approve the Research Committee report as presented.***

Voice vote.

Motion carried.

President Bean thanked Ms. Scaramucci for her report and then asked Dr. Williams to provide a report on the activities of the Education Committee.

### Education

#### Current Business

Dr. Williams stated the Committee had discussed the draft of Ohio Administrative Code (OAC) rule 4715-9-01 and was recommending to the Board approval with changes to paragraph (E)(10) Application of fluorides and other topical therapeutic preventive agents. He stated that OAC 4715-9-01.4 Use of LASERS, education or training requirements was discussed, and the committee recommended that continuing education requirements for the use of LASERS be removed.

### New Business

Dr. Williams stated the Committee had initial discussions on Ohio Revised Code (ORC) Section 4715.141(B) regarding other courses as approved and discussed the reasons why the Board does not approve individual courses. He said that during those discussions the Committee suggested the potential of having American Dental Association CERP and/ or Academy of General Dentistry PACE sponsors evaluate the courses as well as, the possibility of having the courses only CODA-approved. Dr. Williams stated the Committee had run out of time without the opportunity to finish their discussions.

Dr. Williams stated that topics for the next meeting will be to continue their discussion on ORC 4715.141(B), Definitions for education; initial, continuing, and remedial education, and educational objectives for permissible duties of dental auxiliary.

President Bean called for a motion to approve the Education Committee report.

**25-07-16 Motion by Dr. Wauligman, second by Dr. Brisley-Sedon, to approve the Education Committee report as presented.**

Dr. Wauligman questioned whether the Committee was recommending the elimination of “while providing treatment” in OAC 4715-9-01 as well, since it too was discussed during the meeting. Dr. Williams thanked Dr. Wauligman for pointing that out and indicated that it should also be included in the Education Committee’s recommended revisions to the draft rule.

Voice vote.

Motion carried.

**25-07-17 Motion by Dr. Williams, second by Dr. Graves, to recommend Ohio Administrative Code amended rules 4715-9-01 and 4715-9-01.4 and new rule 4715-9-07 as presented be forwarded to the Law and Rules Review Committee for further consideration.**

Voice vote.

Motion carried.

### Law and Rules Review

President Bean mentioned that there were new and returning members to the Committee, Dr. Kelley, Dr. Williams, and Dr. Graves, along with Mr. Richmond representing the Ohio Dental Association and Ms. Woolard representing the Ohio Dental Hygienists’ Association. She stated that the meeting was called to order at 11:31 a.m.

### Current Business

President Bean stated that current business entailed the use of LASERS by dental hygienists as was reported out of the Education Committee. She stated that the Law and Rules Review Committee has read through the rules as presented and amended and is comfortable with the Education Committee recommendations.

### New Business

President Bean stated that under New Business the Committee had taken initial review and consideration of ORC 4715.18(B), 4715.18(C), and 4715.22(C)(3). She indicated that the Committee is taking their first look at what these sections entail, how they might read better, what questions might arise as they are written now, and what changes can be made to improve them. The Committee had additional discussions on permitted duties related to other auxiliaries outside of hygienists. Dr. Bean stated that the Committee made the decision that this was a

larger project and the suggestion was made to break the sections being reviewed into specific assignments to other committees to research and bring back to the Law and Rules Review Committee.

President Bean stated that Deputy Director Schaal had provided the Committee with a Legislative Update as well as, an update on the DDH-CSG Compact. She then asked Mr. Schaal to provide a brief summary for the full Board.

### Legislative Update

Deputy Director Schaal thanked President Bean and stated that since our last meeting the General Assembly has passed the biennial budget bill H.B. 96, The Board received everything that the Governor had proposed in the budget recommendations for our agency. While the cost of healthcare for staff recently increased more than was planned for by the State, the Board's budget should be able to accommodate these increases. Currently, the General Assembly is in summer recess, but a committee may meet once or twice but otherwise the House of Representatives, and the Senate will not meet again before our next meeting in September.

### DDH-CSG Compact Update

Deputy Director Schaal informed the Board members that another CSG staffer, Interim Executive Director Jessica Thomas has left CSG. He stated that the Rules Committee is still working on a Clinical Assessment rule and is starting work on a Criminal Background Check rule. Lastly, Mr. Schaal informed the members that the full Commission met on July 14th and the next big step is the release of an RFP for a data system.

President Bean thanked Deputy Director Schaal for the Legislative Update and his update on the DDH-CSG Compact.

President Bean stated that following the updates there were no additional discussion items for the committee. She stated that for their next meeting the Committee hopes to address draft rules on course curriculums for silver diamine fluoride and interim therapeutic restorations for teledentistry. She stated that the meeting was adjourned at 12:11 p.m.

## Executive Updates

### President's Update

#### Ohio Dental Association – Annual Session

President Bean stated that she wanted to remind the Board members that they have all been invited to the House of Delegates meeting at the Ohio Dental Association's Annual Session which will be at 9:00 a.m. on Thursday,

September 25, 2025, the day after the Board meeting in September. She encouraged all the Board members to register for the annual meeting if they have not already done so.

### Advisory Committee Meeting

President Bean thanked Interim Executive Director Santiago for convening the first meeting of the Advisory Committee. The Board recognizes that this is a huge undertaking in revising and updating the Ohio Revised Code. However, she felt that it is necessary to have conversations about updating Chapter 4715 of the Revised Code in order for the Board to move forward. She stated that she understands that it was a full day meeting and unfortunately she was unable to attend the call with the group but hopes to attend the next meeting on October 3, 2025.

### Interim Executive Director's Update

#### Board Staff Updates

Interim Executive Director Santiago welcomed Donald (Don) Andrews, the Board's new enforcement attorney. As he stated in the last meeting, Mr. Andrews came from the Department of Taxation and brings a wealth of experience from the private sector as well. Mr. Andrews came on board at the end of June, has been doing excellent work for the Board, and he is very pleased to have him as part of the team.

#### Supervisory Investigative Panel – New Name

Interim Executive Director Santiago informed the members that the Supervisory Investigative Panel's (SIP) name was changed in the Ohio Revised Code and since then the staff had wrestled with what to call the panel formerly known as SIP. The name was changed to Board Supervising Members, which is what the Medical Board and Nursing Board call their counterparts.

#### Bitonte College of Dentistry – Rootstown, Ohio

Interim Executive Director Santiago informed the Board that he had visited the newest school of dentistry in Ohio, the Bitonte College of Dentistry in Rootstown, Ohio along with Deputy Director Schaal and Mr. Andrews on July 7, 2025. The facilities were nearing the finishing touches of completion and were very impressive. The equipment was state of the art, as were the classrooms which were equipped with cameras and monitors to view the professor from wherever the students sit. It also has an area that is dedicated to three-dimensional printing for students to craft inventions which they may one day be able to patent.

### Advisory Committee Meeting

Interim Executive Director Santiago stated that the Advisory Committee Meeting to review and revise the Ohio Revised Code met on July 18, 2025, and it was a very long day. The committee met from 9 a.m. until 3:30 p.m. with few breaks. A lot of progress was made toward making changes, including questions that the Board needs to resolve, and issues that some of the interested parties such as the Ohio Dental Association and the Ohio Dental Hygienist Association will raise with their Boards. The meeting was held publicly; it was recorded and transcribed with the Teams application, should anyone wish to see the meeting or read the transcript. The next meeting is scheduled for October 3, 2025.

President Bean thanked Interim Executive Director Santiago for his report.

### Anything for the Good of the Board

#### Ohio Dental Association – Annual Session

President Bean stated that information regarding the upcoming ODA Annual Session was covered in her President's Report but if any of the Board members had any further questions regarding the meeting or the House of Delegates meeting, they should contact her directly or Interim Executive Director Santiago.

Deputy Director Schaal asked if the Board members would like to meet for lunch following the House of Delegates meeting and if so to inform him when he reaches out to the Board members closer to the Annual Session. He also reminded the members that the Board will cover their expenses for attendance to the House of Delegates meeting.

### 2026 Board Meeting Calendar

President Bean informed the members that Board staff have provided proposed dates for the 2026 Board meetings based on previous years dates. She stated that she hoped the members had all had the opportunity to review the suggested dates for the meetings next year.

President Bean reviewed and discussed the recommended dates with the members and then suggested that if any of them had any conflicts to contact Board staff as she hoped to have the dates finalized at the September Board meeting.

### Oral Health Access Supervision Permit Course

Ms. Scaramucci announced that the University of Cincinnati Blue Ash College will be launching an Oral Health Access Supervision Permit Course the next day. She stated that it will be an online, on demand course which will help those dental hygienists who wish to obtain an oral health access supervision permit. Ms. Scaramucci stated that she would be providing the information to Ms. Franks for posting to the Board website.

### Foreign-trained Dentist Inquiry

Interim Executive Director Santiago informed the Board members that there recently was an inquiry from a licensee who is a foreign-trained dentist and was given a non-disciplinary consent agreement many years ago limiting the licensee's practice to a specific specialty (in this case endodontics). He has been working out of state as a dentist for over one year and under Ohio Revised Code Section 4796.03, licensees in good standing who have been licensed and practicing in another state for over one year are eligible to apply for a license in Ohio.

Interim Executive Director Santiago stated that the questions presented were: Should a dentist who meets the criteria of Revised Code Section 4796.03 but who has a non-disciplinary consent agreement be treated differently from a foreign-trained dentist who meets the same criteria and is eligible to obtain a license that is unrestricted? And secondly, can the Board issue an adjudication order rescinding the non-disciplinary consent agreement?

Interim Executive Director Santiago commented that he is raising this because this is the first inquiry of its kind, but doubts that it will be the last.

President Bean thanked Interim Executive Director Santiago for bringing this to their attention and suggested that this was something for the Board members to think about prior to responding.

### Adjourn

President Bean then asked if there were any additional items the Board members wished for discussion under Anything for the Good of the Board. Hearing none, President Bean thanked the members for their attendance and reminded them that the next meeting is scheduled for Wednesday, September 24, 2025. She then adjourned the meeting at 3:07 p.m.
