NEW AND EXPANDING FACILITIES

Contents

Table 1 is a compilation of announced major business expansions and attractions. The announced projects must meet at least one of three minimum criteria for inclusion: investment of at least $1 million, addition of 20,000 square feet of space, or 20 new jobs – except that new jobs alone will not qualify a project. Projects have been further restricted; those of government (including education and research and development), bank branches, health care, retail, hotels, restaurants, roads (including rail), industrial parks, self-storage facilities, utilities and speculative warehouses are excluded (however, headquarters, non-speculative warehouses, and research and development for such private sector companies count). The data are gathered in a yearlong process of reviewing published reports appearing in news media and surveying state and local development agencies. Projects usually are credited to the year in which they are announced. Numbers for the latest years may revised as new information becomes available.

Source

The Office of Research, Ohio Dept. of Development.

Frequency

Annually, usually in June.

Time Period Covered

2015-2024.

Geographic Area

Data in this report are presented for the state and the 88 counties. The larger database contains project information by city, village, and township.
