Cardholder Signature: _____

The State of Ohio is an Equal Opportunity Employer and Provider of ADA Services

APPLICATION INSTRUCTIONS

- This application required to issue new Agricultural Fertilizer Applicator certificates to people who do not have a Pesticide License. Renewal forms (to renew a current certificate for the next year) are different and are mailed by the Department when needed.
    - For those who already have a Pesticide License, this form is not needed and you will be issued a license once their training or exam is completed.

- The Agricultural Fertilizer Applicator certificate is for any individual who applies or supervises the application of a commercial fertilizer to more than 50 acres of agricultural production grown primarily for sale.
    - If you have the co-op or other custom applicator make your fertilizer applications, you do not need the certification.

- Please note: this certification is only required for those applying fertilizer to agricultural land; turf and other non-agricultural applicators are not required to have this certificate.

- To prepare for the exam, the current Ohio Agricultural Fertilizer Applicator Certification Training Manual can be purchased from OSU here: https://extensionpubs.osu.edu/crops/field-crops/
