INSTRUCTIONS FOR REGISTERING NEW SPECIALTY FERTILIZERS IN OHIO

Page 3 of 3

Fill out the application completely – including authorized signature. Registration packets must include the application, payment, and product label(s). Failure to comply with these directives may delay registration of your pesticide product. Once the product registration has been approved, we will send the official Certificate of Registration to the email address provided.

“Specialty fertilizer” means any fertilizer designed, labeled, and distributed for uses other than the production of commercial crops (ORC 905.31(Q))

Name and Address

- Line 1. Registrant Company Name:** The name of the registrant which will appear on the product label.
- Line 2. Registrant Physical Address:** The address of the registrant which will appear on the product label.
- Line 3. Registrant Mailing Address:** All correspondence, renewal notices, etc will be sent to this address if the registrant does not have an authorized agent to act on their behalf.
- Line 4. Registrant Contact:** The primary contact at the manufacturer or distributor (registrant).
- Line 7. Registrant ODA Account Number:** The AgEnterprise Account ID assigned by ODA to existing registrants and can be found on previous Certificates of Registration. Leave blank for "New" companies that do not already exist in our system; we will assign ID numbers for new companies once the products are registered with us.
- Line 8. Agency Name:** The company name of the registrant's authorized agent, if applicable.
- Line 9. Agency Mailing Address:** All correspondence, renewal notices, etc will be sent to this address, if applicable.
- Line 11. Agent Contact Name:** The agency's primary contact for Ohio product registrations, if applicable.

Product Registrations

Products are registered based on trade name and guaranteed analysis. Products with differing container sizes, release times, etc do not need to be registered as separate products, provided the name and analysis are identical to a currently registered product.

Payment

Include payment of \$50.00 for each product registered. (Example: 10 products at \$50.00 ea. = \$500.00) Incorrect amounts will delay the registration process. American Express cards are not accepted. Credit card payments may either be mailed or faxed to our office at 614-728-4235. Ohio does not have an online renewal/initial registration website for specialty fertilizer products.

Labels

The most current label must be on file with our office; **paper copies are not accepted**. Revised product labels with minor changes can be submitted to our office without application. Revised products that have a different brand name, or different manufacturer/labeler will need to be registered as new products with an application and payment. Revised product labels can be submitted via email to

AGRpestFertProducts@agri.ohio.gov.

Product labels must include:

- a. Net weight of the contents;
- b. Brand and product name;
- c. Name and address of the manufacturer or distributor that appears on the license or registration;
- d. Grade expressed in whole numbers only for all mixed fertilizers except specialty fertilizers;
- e. Guaranteed analysis.

Combo Pesticide/Fertilizer Products

Specialty Fertilizer products also containing one or more pesticides are combination products and must be registered as a specialty fertilizer and separately as a pesticide product using the ODA Pesticide Product Registration form. Although the pesticide registration of a combination product will be verified before the specialty fertilizer registration is processed, it is not necessary to submit the two applications at different times.

Renewals

Renewal notices are emailed to the registrant's contact in October of each calendar year. Renewal application are typically submitted via the Ohio AgEnterprise system. If you require a paper or PDF renewal application, please contact our office once the renewal period begins.
